Title: Proposal 005-16: Declaration of Co-Chair Position Vacancy
Post by: Sean Friend on September 22, 2016, 02:19:44 PM

This is Proposal 005-16: Declaration of Co-Chair Position Vacancy

Please read the proposal and keep comments on the topic of the proposal only.

Designate your vote by using the following terms: AGREE, BLOCK, or STAND ASIDE. Any blocks will require a vote of the council.

Per Section 5.9 of the GPCO Bylaws, "If any officer or national representative is found to be in contempt of the goals of the Green Party of Colorado, recall proceedings shall be invoked. A three fourths majority of voting members present at a state meeting and/or the Council is required to achieve the recall of an officer."

There are currently eleven (11) active voting chapters in the Green Party of Colorado. A vote of at least 60% quorum requires at least one response from seven (7) chapters.

Green Party of Colorado

1. Basic Info:

Date proposed: September 22, 2016

Name of the sponsor(s): Poudre Valley Green Party, Arapahoe Green Party

2. Title: Declaration of Co-Chair Position Vacancy

3. Text of the actual proposal:

As of the date of the end of agreement seeking (September 29, 2016), as set by the Secretary of the Green Party of Colorado, one of two positions of Co-Chair is declared vacant.

4. Background: This proposal would recall Bill Bartlett from his position as co-chair of the Green Party of Colorado. The sponsoring local chapters have directly experienced and witnessed significant negative interactions with Bill Bartlett, that are inconsistent with several of the 10 Key Values and with our bylaws. Some examples include:

Bill's view of racism is inconsistent with the 8th Key Value (Respect for Diversity). He holds a well-publicized belief in "reverse racism," has expressed more than once that dialogue about racism equates to "anti-white racism," and has exhibited considerable impatience, disdain, gaslighting and silencing when discussing racism with people of color and their allies. He has shown himself incapable of promoting "the development of respectful relationships across these lines," by respecting the life experience of people of color or as contemplated in the 8th Key Value.

Bill's recent interactions with female rank-and-file Greens are inconsistent with the 7th Key Value (Feminism and Gender Equity). Both co-chairs and the secretary were recently sent an email that described an account of sexism that Bill exhibited online (see Example 1, References, below). Further, after the encounter, Bill posted on his own Facebook wall an account that was wholly demeaning to women (see Example 2 in References).

As co-chair, Bill has failed to uphold the ideals of the 1st Key Value (Grassroots Democracy) by attempting to hurry a proposal on a particular potentially divisive issue on Amendment 69 without having followed a legitimate consensus-seeking process and without understanding that some locals were not in agreement. This lack of understanding results from Bill's absence in the dialog and work of the party. He refused to accept a substitute statement that would project a public display of unity in favor of universal health care and respect for dissenting opinions and instead has taken to social media to attack the Green Party of Colorado itself.

Bill has failed to exhibit the basic leadership requirements of the co-chair position as described in the bylaws, since at least 2013 (see Example 3). Bill has rendered no assistance when requested to help plan and conduct state meetings. Further, Bill has not offered assistance in any events of the state party, including the recent presidential candidate visits or in the formation of any new local chapter during his entire tenure as co-chair. He has never attended a meeting of the Poudre Valley Green Party, nor assisted in any of its work, while simultaneously declaring it his local. Additionally, since the time that a Facebook page was created for the Platte Valley Greens on March 28 2013, presumably his home local, no proposal for recognition has been presented to the state council.

Finally, Bill has committed a grave offense against the 4th Key Value (Non-Violence) by physically threatening the female co-chair after becoming visibly intoxicated at the People's Fair in June 2016, an outreach event the state party paid a sizeable sum to participate in.

5. Justification/Goals: Our U.S. Senate candidate was excluded from recent multi-party candidate debates because the Green Party of Colorado's voter registration numbers were too low. Even with the robust growth in registrations shown since 2015, it is reasonable to assume a tapering off after the November 2016 election. At that point, a focused, robust campaign to register new voters will become necessary so that we can properly support future candidates. This work cannot be done without leadership that supports the work of the local chapters by providing resources, guidance and strategies. Our growth as a party is severely hampered because one co-chair is shouldering the burden without any assistance from the other co-chair, and much of those responsibilities are currently being borne by local co-chairs and others.

6. Pros and Cons:

Pros

The division of work of the co-chairs can be equitably shared, so that the party can grow with sufficient support.

A safe environment for people of color and women within our party can be achieved, and trust can be rebuilt, so that the party's growth goals can be met.

Cons

The position of co-chair may be left vacant for an excessive amount of time, thereby perpetuating an already imbalanced division of work between co-chairs.

7. Alternatives to the proposal: Take no action.

Is there any physical evidence of the threats of violence? I was not present, so I cannot attest to this myself.

I was there when the threats were made. His exact words were "I will fuck you up". The second time he said it he moved into striking distance to Andrea. I then moved in between her and Bill. He then backed up.

I think this proposal should be withdrawn until we have heard all the facts and all sides and if appropriate have attempted other resolutions to the issues. This fast attempt to get the vote thru is exactly what Bill is accused of (one of the items). Far too often this forum has been used to just post a proposal without any discussion of how it should be worded, and not just by Bill.

Before this meeting, the one thing I will say is that some people that have responded to this proposal have had opportunities to discuss any issues they may have with me on any number of topics. My history in this party has always been one of inclusiveness, positivism, and sometimes off-color humor.

The idea that a group of people could look me in the eyes, smile with me, hug me at events, and never open a dialogue on something that was apparently deeply troubling to them.. I'm not clear how that lines up with many of our Key Values, or even just simple human values.

I mean not to be an obstructionist by no means, but I wish to be sure that I am doing the right thing with my vote, so please forgive me if I am asking a great many questions on the matter, but why did no one report this incident in June of 2016 of Mr. Bartlett having threatened violence against the other CO Co-Chair ? Why wait almost 4 months to address it with any of us whatsoever? Why was this proposal not drawn up then?

I see the google drive screenshots, but none of them address the threat of violence, which would be the most damning of evidence against Mr. Bartlett. Do you have any notes from that having been addressed July 1? Again, I ask why there was no proposal to address it then if it is of importance now.

Again, I just want to be sure that I'm doing the right thing with my vote as a council member.

The screenshots Andrea mentions are named July 1.

I do want to offer a reminder that Andrea is not bringing this proposal, and the threat of violence against her is only one of many reasons for the proposal. Even if you are reluctant to believe that Bill threatened a fellow officer, he freely admits to getting drunk and shouting at people at a public event where he represented our state party.

This isn't a personal vendetta between our two co chairs in which you're being asked to take sides. This is multiple people attempting to address our grave concerns with Bill's behavior.

Title: **Re: Proposal 005-16: Declaration of Co-Chair Position Vacancy**

Post by: **rlworthey** on **September 22, 2016, 09:21:01 PM**

I never claimed it was a vendetta. I am simply asking questions to get all the facts before I agree or disagree.

I know, and I'm sorry if that came across as an accusation. I want to be sure that this one item doesn't overshadow the rest of the issues being raised. I didn't even know about the threats until very recently. That said, I believe that Andrea and Jason are telling the truth,

and I also believe that this alone would be enough to warrant recall. But even if it were not on the list, I would still have helped bring this proposal to the council.

As council facilitator, Can I ask why proper protocol wasn't followed by sending this proposal to send to me first? Is that not "rushing" this proposal, just as you accuse Bill of doing with the Amendment 69 proposal?

With that said, this proposal isn't official and should be deleted. If you'd like it to be reposted, follow the proper channels and email it to me first. Come on now people, lets try to emulate some professionalism.

Letter from registered Green Danika Carter:

I would like to share some concerns I have about our Co-Chair, Bill Bartlett and his behavior that is unbecoming of a state Co-Chair and creates a hostile environment for women. In a discussion on the GPUS Facebook group there was a discussion happening about sexism in the Presidential election. I was on the receiving end of some very sexist comments and insults from a male Green from California. Bill joined the conversation and rather than making it clear that sexism and attacks upon women bringing up the issue have no place in our party, he actually defended the man making sexist comments, added to the insults and actually accused me of being sexist for bringing up the issue of sexism in the election and defending myself against this man from California. Bill's comments were highly offensive and abusive. His comments were the kind that one would expect to see in a conservative Men's Rights Activist group, not a Green Party group. I expect my Green Party leadership to create a safe environment for women and other marginalized communities to bring up issues of concern relevant to our life experience. Not to participate in derailing those conversations, defending men attacking women for bringing up the issue and insulting them.

Luckily, I have been a Green for 16 years. I have been staff for the Green Party of California before moving to Colorado. However, if I were new to the party and saw this conversation, I would leave it. Immediately. I would not think that this is a party that supports women as equal participants who deserve respect. I would not think this was a group that supports feminism.

It's bad enough to see men who are members of the Green Party behave in such a misogynistic way, but it is simply unacceptable for a member of party leadership to contribute to a hostile environment for women. And sadly, this is not the first time I have seen Bill behave in this way. In fact, even after the Facebook group admins deleted the conversation, he continued the insults and misogyny on his own personal page. I have screenshots should you need them.

Given that Bill has a history of misogynistic behavior and disrespect of women, and does so in a public forum I believe it is time for some sort of action against him. I don't know what party rules allow for, but this cannot continue if our party is going to continue to grow, and continue to be a safe place for women and other marginalized communities. If this is how he treats women he has absolutely no business being in a leadership position.

look forward to hearing from you. Thank you,
~ Danika Carter

BTW, the text and title of the proposal (items 2. and 3.) are mis-leading. They may give the false impression that the co-chair position has been vacated.

This is a recall attempt per bylaws section 5.9 which is only allowed "If any officer or national representative is found to be in contempt of the goals of the Green Party of Colorado."

DISAGREE ADAMANTLY

I had intended to post part of the following, but had trouble getting it on line. Please note that [REDACTED] is speaking about Andrea.

(This sentence was created with the first posting). I am at work with a few minutes before the first class and it is not right that over night there are allocations of impropriety and a threat for one long respected Co-Chair should be taken from his position by three people known to be in alignment on an issue most of the rest of the whole state of Colorado Green Party knew nothing about until it is posted here without going through the proper channels of discussing it with the one you have an offense with, posting on the discussion board and finally submitting it to Brittany.

One accusation is of sexism, because of the words amounting to "girls." Well certainly there are members of the accusing group who have used a much worse word to me and I believe he would admit to it, but I would not recommend he be stricken from office for it; not even though he is recommending someone else be stricken from office for less than the obscene word. Rather privately reminded that the members of the Green Party are trying to be professional and respectful.

Another accusation was of being racist because of an error he made about understanding

for the most part racism is an issue that incorporate an understanding of laws for decades, unless one is calling direct names, which then should be taken with a serious discussion, including such name calling as white supremacy. "The belief that all members of each race posses characteristics or abilities specific to that race, especially to distinguish it as inferior or superior to another race (Wikipedia)." It does not mean that we are not to question what different people or different ethnicity or genders say and do; that would be to forfeit equal rights. Every large group has people we agree with or believe are doing right and groups that have the opposite views as ourselves. Our goal is to come to a peaceful understanding and mutual respect; especially those who we are working with in the Green Party or other organizations.

As for Grassroots democracy an "in person" meeting should have been called, maybe 4 months ago with all members long before a proposal for Bill to leave his office.

As for the most serious accusation of him threatening you, that is your word with your husband against Bill's due to having no other proof. I have trouble believing Bill would threaten you period, but it also would not make since with your husband at the fair. As I am now examining and analyzing your and Bill's characters and references, I find in favor of Bill. First because I spend quite a bit of time with him through the years in the Green Party & when I ran for office as the U.S. House in District 2.

But I add two more for now. This woman talked to me about Andrea's rude behavior before any of the issues with Bill came up and I excused it away thinking we needed to focus on the elections and that the problem would pass; which obviously it has not.

September 11, 2016
Good Morning,

My friends and I have made phone calls, made posters, and helped at every Denver event. We've been to town halls and gatherings at restaurants and bars. We spent hours at a vigil outside a federal prison; we went to see Jill twice. We went to Ajamu's town hall. There has been no support from local party officials for persons wishing to canvass, hold small events or even obtain materials for Jill Stein. People are making up their own campaign materials using their own printers because there is nothing available from the party. We and many others have been extremely active in supporting Arn Menconi and Jill Stein at every single event in the Denver metro area since we chose to DemExit.

An materials order finally came to my home on Friday and my daughter and I spent over 15 hours during the past two days dividing them into packets, creating door hangers by attaching rubber bands or stapling them so they could easily be distributed. We are truly interested in being part of the Green Party because the party values so closely align with our own. We were fortunate to be able to meet Jill and feel strongly about her platform. She is our best hope, and is the only candidate who speaks truth to power.

I am very concerned because the Co-Chair of the Green Party, Andrea Mérida Cuéllar has been posting extremely insulting and inflammatory rhetoric regarding Bernie supporters who chose to move to the Green Party. When my daughter asked for clarification, Andrea and her friends flamed her. Every dissenting opinion has been shot down because Andrea deletes them. She and her friends have spent over 30 hours attacking the integrity and dedication of Bernie supporters.

My daughter and I are currently the only ones distributing campaign materials to the local Greens. Many frustrated people who want to help Jill's campaign are met with silence when they reach out to leadership here. How can the Green Party EVER powerful enough to make the changes in American politics that we need, if their elitist attitudes refuse to allow others to participate.

On Sept. 9, 2016 at 5:53, Andrea Mérida Cuéllar wrote: 'I am absolutely convinced that for the most part, the former Sanders supporter is not our target for recruitment into the Green Party. I just tabled at a "progressive" event in Albuquerque for the Green Party of New Mexico, and the people who were still waffling over whether to be a Green were NOT the two groups of working-class Latinas who are fighting neoliberal assaults on the community, with whom I had good, honest conversations.

I qualify this by saying there is a difference between voting for Jill and becoming a registered Green Party member (where allowed). There are plenty of good people of good conscience who will be voting for Jill but at the end of the day are going to still "change the Democratic Party from within." All power to them, seriously.

Our party, however, must be built with the working class, for whom the stakes are higher and the damage from capitalism is imminent. It must be from the frontline communities who are the first to suffer environmental racism, police brutality, poverty and homelessness. For others, being a Green is an academic exercise. For the rest of us, it's life or death.

Let's be clear about the difference between simply voting for Jill and becoming a Green. There is a difference.'

Andrea Mérida Cuéllar is very vocal about her elevated status in the Green Party. Does this woman speak for the Party? She makes assumptions about our motivations and class, questions our ethics and insults us. Her comments about race and gender identification in the feed are disturbing for a Party that claims to be inclusive. IS this how the Green Party really feels about bringing other people into the party? Are all our efforts and dedication worthless to the Green Party if we're white, hetero and working class?

After 38 years as a Dem, I left the party; it wasn't a hard decision after seeing their abuse and corruption first hand. I hoped to find a place with the Green Party but the leadership here in Colorado is so dysfunctional that it will be difficult to stay. Please note the screen shots from Andrea Mérida Cuéllar's Facebook page below, as they are most disturbing coming from a National Co-chair.

Hello,

It was brought to my attention that Bill Bartlett is being asked to step down or face a recall vote based on something he said on Facebook.

I do not know what that something is so I don't know personally what is true about the situation. I do however know that I have had reported to me from volunteers serious greivances regarding things Andrea Merida Cuellar our other Co Chair has said.

Many people feel that she should be recalled from her role as state co chair because of her behavior including things she has said on Facebook. So while trying to keep any of my own experiences regarding Andrea out of this, I cannot sit by and not interject the information passed on to me by volunteers that I had passed on at their request to Jill's national campaign a couple of weeks ago.

I don't know all of the co chairs but you can feel free to share this with all of them. If we are going to take actions against our co chairs for things they have said on Facebook, in person, etc., we need to be evenhanded about it and be clear about what consistutes a violation of the party's principles.

I am forwarding two documents. One is the letter and facebook screenshots sent to me by [REDACTED] that she requested I send to Jill's national campaign. I did nothing with this except exactly what she asked me to do. She has given her permission to have this shared among Green Party leaders/members.

The second will come separately and is from [REDACTED] who has expressed issues in the past that were of concern to me and she doesn't share much of her unpleasant direct experiences but her opinion after having had them. She heard about this situation with Bill and wanted to contribute her feelings, she apparently does know the issue at hand regarding him.

You are invited to call [REDACTED] with any questions you have.

I feel it is important for the party to take the entire situation together and look at what is in the best interest of the party and its members. It brings me no joy to share this but I feel a responsibility to do so under the circumstances as a volunteer leader and new member of the party.

I am leaving much out of this where I am personally concerned and where Arn is concerned, as his campaign manager, because I don't think it is necessary in order to have a conversation about these matters.

Subject: How the Green Party National Co-Chair feels about newcomers.

Good Morning,

I am very concerned because the National Co-Chair of the Green Party, Andrea Mérida Cuéllar has been posting extremely insulting and inflammatory rhetoric regarding Bernie supporters who chose to move to the Green Party. When my daughter asked for clarification, Andrea and her friends flamed her. Every dissenting opinion has been deleted by Andrea after flaming, denigrating and insulting them. She and her friends have spent over 30 hours attacking the integrity and dedication of Bernie supporters.

My daughter and I are currently the only ones distributing campaign materials to the local Greens. Many frustrated people who want to help Jill's campaign are met with silence when they reach out to leadership here. How can the Green Party EVER be powerful enough to make the changes in American politics that we need, when a leader's elitist, racist and sexist attitudes prevent others from participating. Andrea has not done anything to help Jill win and indeed after the Ajamu town hall, she said she wasn't sure about Jill. In person she is barely civil to anyone except her inner circle. She won't give out materials and hoards them. Then she came out with this:

On Sept. 9, 2016 at 5:53, Andrea Mérida Cuéllar wrote: I am absolutely convinced that for the most part, the former Sanders supporter is not our target for recruitment into the Green Party. I just tabled at a "progressive" event in Albuquerque for the Green Party of New Mexico, and the people who were still waffling over whether to be a Green were NOT the two groups of working-class Latinas who are fighting neoliberal assaults on the community, with whom I had good, honest conversations.

I qualify this by saying there is a difference between voting for Jill and becoming a registered Green Party member (where allowed). There are plenty of good people of good conscience who will be voting for Jill but at the end of the day are going to still "change the Democratic Party from within." All power to them, seriously.

Our party, however, must be built with the working class, for whom the stakes are higher and the damage from capitalism is imminent. It must be from the frontline communities who are the first to suffer environmental racism, police brutality, poverty and homelessness.

For others, being a Green is an academic exercise. For the rest of us, it's life or death.

Let's be clear about the difference between simply voting for Jill and becoming a Green. There is a difference.'

Andrea Mérida Cuéllar is very vocal about her elevated status in the Green Party. Does this woman speak for the Party? She makes assumptions about our motivations and class, questions our ethics and insults us. Her comments about race and gender identification in the post and comments are disturbing for a Party that claims to be inclusive. IS this how the Green Party really feels about bringing other people into the party? Are all our efforts and dedication worthless to the Green Party? Are only 'dark trans young people' welcome? After 38 years as a Dem, I left the party; I hoped to find a place with the Green Party but the leadership here in Colorado is so dysfunctional that it will be difficult to stay. Please note the screen shots from Andrea Mérida Cuéllar's facebook page on the attached document, they are the most important piece of this problem.

Thank you,

--

Campaign Manager, Arn Menconi For U.S. Senate

Bob,

The screen shots did not copy, but I can get them again.

Kevin worked very hard on the statement he presented on the forum. He invited Tom, Carolyn, our GBGP Co Chair who is also a woman who has spent many years with the Rocky Mtn Peace and Justice Center, and myself to discuss the statement before creating and submitting it. He wanted to try and find some peace between the two CO Chairs, Andrea & Bill, so that we could not do this wrongful accusation to Bill and go back to working on the campaigns at hand.

However Our Greater Boulder Green Party statement has turned into a side statement with no real teeth in it; thus Kevin's Block becomes perhaps a push for a vote and Andrea has already begun working toward this end before the proposal.

I would never have brought any of these things to this forum had I not thought that Bill Bartlett is being wrongly and unjustly accused.

Title: **Re: Proposal 005-16: Recall of Co-Chair**

Agree

In reference to the emergency council meeting on 9/22/2016 (audio linked here <https://drive.google.com/open?id=0Bzteq2tfIdXvSnV4NmVSOGI3LVE> (<https://drive.google.com/open?id=0Bzteq2tfIdXvSnV4NmVSOGI3LVE>)), I would just like to state for the record that within 15 minutes of the opening of this meeting, every single person that has access to this recording or was sitting on the call has personally witnessed the behavior that is the source of this complaint. Andrea was asked by the members of the council to give her account of the situation at the People's Fair. As Andrea began speaking she was interrupted and shouted down by Bill within seconds. She calmly asked if she could finish, and was interrupted and shouted down again within seconds. She responded that she understands that situation is stressful and that she would be willing to tell this story off line to any one interested. At this point, the council members present stated that they would like to hear Andrea's story uninterrupted on this call so that it would be part of the record. Andrea again began recounting her experience and was immediately interrupted and shouted down again by Bill. After being unable to get more than 30 seconds into her testimony, Andrea then repeated that she was going to leave the call, and again extended the offer to tell this story to anyone who is interested in hearing it. She then left the call. Bill's behavior in this instance is unacceptable, and clearly illustrates the need for this level of intervention. Bill does not get to decide how Andrea's account of these events is framed. Additionally, This council has no right to determine the timeline for the redress of Andrea's grievance.

Over the next hour and 30 or so minutes, Bill was given several minutes to refute Andrea's testimony that was never formally heard by this council. During that conversation there were many comments (by Bill and other council members) about Andrea's character and her behavior, and many excuses and justifications made for Bill's behavior. There were repeated statements that Andrea has been less than admirable in her interactions with former Bernie supporters. I refute that statement by reminding everyone in this council that Andrea has facilitated and supported the creation of two new chapters made up of primarily former Bernie Supporters in this state in the last 3 months, and there are 4 more forming as this conversation is happening. There was also some criticism regarding the fact that we have candidates in the field and that we should not be fighting each other right now. I do not need to remind anyone that at the end of August, Dr. Jill Stein came to Colorado and we had 4 well attended, very successful events that brought a lot of attention to our candidates. Andrea played an unrivaled role in organizing and executing those events. With all of that out of the way, I would like to remind everyone that this discussion is not about Andrea. If you feel that this party is suffering under her leadership I would invite you to continue that conversation outside of this discussion.

This discussion is about how this party is suffering under Bill's leadership. There is overwhelming evidence (shared in the google drive) to support the claims made in this proposal. The first example is a formal complaint by a female member of our State Party stating that Bill's conduct creates an unsafe space for women. His response to the post in question was to call her a "girl" and then a "sexist" on his own timeline. The reality is, women cannot be sexist against men because they are oppressed by patriarchy. Fighting oppression does not make a person guilty of the same oppression. Bill even stated in the emergency council meeting that he had clashed with Danika multiple times in the past, which was corroborated by Danika in her official complaint.

I would like to address a few things that were stated in the meeting on 9/22. Bill said in no uncertain terms that he had not heard Andrea's story. That statement is absolutely false. On July 1st Bill and Andrea engaged in a conversation about this event over Facebook messenger. The screen shots are shared in the google drive link provided in the proposal (also linked here: <https://drive.google.com/drive/u/0/folders/0B-sKCIke8emqU1pxX1lwMUd4b3M> (<https://drive.google.com/drive/u/0/folders/0B-sKCIke8emqU1pxX1lwMUd4b3M>)). They are named "July 1-1.png, July 1-2.png, July 1-3.png, July 1-4.png, July 1-5.png, July 1-6.png, July 1-7.png, July 1-8.png".

Next, we were accused of spying on Bill. I believe that interpretation is inaccurate. Bill and I are friends on Facebook and quite often interact with each other's posts in various ways. We have even disagreed on some pretty fundamental issues from time to time. One of those disagreements is cited as source material for this proposal. Calling this spying does one of two things: it either points to a misunderstanding of social media functionality, or it is a word that was specifically chosen to paint Bill as the victim in this scenario. Having a debate on Facebook, even on your personal timeline, is visible to everyone that you are connected to and anyone they can share it with or tag into the conversation. The reach of social media is unprecedented in our history, and the amount of damage that can be done to our party by statements made on social media is immeasurable.

In addition, Bill stated that he had not been confronted about this behavior and that this recall attempt was unexpected. The truth is, Bill has been challenged on these beliefs many times by non-greens, greens, state party members, even including Sean Friend and myself (cited in the screenshots). I understand that our 10 KV are not intended to to be a mandate for individual behavior. However, if we can't hold our officers accountable to our values, how can we expect to implement them as a matter of public policy.

The question in this proposal is not whether or not Bill harbors views that are unacceptable to me. The question is, do these views held by an officer in our state party conflict with our values in a way that makes him unfit to hold the title of State Co-Chair of the Green Party of Colorado.

It's disturbing to me that this has started to be framed as a dispute between Andrea and Bill. Only one of the items on the proposal relates to her at all, and there are enough other items to demonstrate the necessity of recall. I and others involved in drafting this proposal have challenged Bill around his statements and actions multiple times, and I have personally tried to offer him resources on racism with no response. The impracticality of calling an in person meeting right now seems self evident for folks all over the state weeks before an election.

There have been accusations of trying to rush this proposal through. I have already expressed my willingness to extend the discussion period and consider amendments to the proposal. The only reason we are currently on such a short time line for voting on this proposal is the Block presented in Agreement Seeking. I was also not aware that I was breaking protocol by posting a proposal myself, as three out of the previous six proposals posted in Agreement Seeking have not been posted by the Council Facilitator. My understanding was that elected officers of the party would be allowed to post a proposal for discussion.

I'd like to ask the other members of the council who have leveled accusations of impropriety in relation to this proposal to explain what they think we should do with the multiple accusations that have been brought by multiple registered Greens in this state against Bill. As a white cis man who is trying to resist oppression, I am trying to make this party a safe place for marginalized people. I believe that the first and most basic step in doing that is to believe women who accuse a white man in a position of power of sexism and threats of violence. If that makes me an anti-male sexist, I will wear that label as a badge of honor.

I would like to close by pointing out that attacks on Andrea's character and behavior are frankly irrelevant to this proposal, as she is not the subject of recall. They are also highly inappropriate, as she did not bring this proposal or ask it to be brought. I would like to request that the council keep comments on the topics covered in the proposal and refrain from personal attacks.

Sean,

In regards to you stating you did not realize you were breaking protocol and that other proposals were not posted by me: one, as I stated in my e-mail to you, Andrea asked me if she could post in my place because I couldn't do it in an appropriate time frame. She asked before she posted. Bill also posted a proposal in the forum and immediately sent out an email to me, and CC'ed to you, Andrea, and Tom dated September 4th and stating the following:

Quote

Hi Brittany,

When I posted my last proposal, I realized that the chairs have broken protocol when it comes to proposals.

Brittany, the Facilitator, is supposed to receive them and fill out that top portion (referencing the Bylaws and quorum). Then she posts the completed version to the forum for the council to make their vote.

Any members may submit a proposal to the Facilitator. They don't have to go to Council Discussion first. Council Discussion is a place to clean up and fill out a proposal with the group before Agreement Seeking. The Facilitator is the officer that posts the Proposals for voting.

The Facilitator works with the State Secretary to verify the voting council members from active chapters, as missing too many votes will cause a chapter to fall inactive.

First, sorry for my part in that broken protocol. I got used to being an Interim Facilitator.

And second, would you mind checking my list and making sure of my active chapter list?

<http://gpco.fullydefiant.com/forum/index.php?topic=285.0>

I'll post this as a bare-bones proposal template so our officers have a reminder of how to create and submit proposals.

So in regards to you not knowing you broke protocol, if you were reading your email, you should have known. I'm not sure why you're even bringing this up in the forum when I discussed it privately via email? It's no longer relevant.

STRONGLY AGREE

It seems that Mr. Bartlett holds the notion that "reverse racism" is a thing, according to some facebook posts that I have seen. There is no room in the Green Party for white supremacist words or behavior, most especially from someone in a position of leadership.

Also, what has Bill Bartlett done for the Green Party lately? Does he roll up his sleeves and talk to the people, all people no matter what race or class? Is he a strong organizer? Does he show true dedication to the people, or is he content to be just a figure head? I don't know the answer to these questions, but it does seem that he hasn't done much to contribute as the state co-chair. I believe the position would be better filled by someone one dedicated to working hard, serving the community, fighting racism and white supremacy, sexism, classism, and gender bias, and also someone who understands intersectionality and is willing to humble him, her or themselves in order to be an effective leader. If Mr. Bartlett doesn't check off on these categories, which I don't believe he does, than the answer is to recall.

Thank you for the opportunity to cast a vote and speak my voice.

Disagree, obviously.

This proposal contains an outright lie, two misleading statements, and two items that are definitely worthy of discussion.. when people are willing have mature discussions.

My work with disenfranchised communities began before I took the chair, and will continue regardless of the positions I hold in this or any other organization.

Just in the last year, three major community leaders have joined the Green Party as a result of the work I've done in the field. All of them hold close roots to communities of color.

What remains to be seen is whether this party's members are mature enough to support the communities we claim to represent.

If this party wishes to grow into a robust organization, our members must be willing to engage in constructive dialog with people we don't agree with. Even, and perhaps especially, when we count the contentious amongst our ranks.

Facebook comments are not a discussion. Email criticism is not discussion. Even this forum is not true discussion.

When I came into the chair, we had weathered a storm that crushed this party, and it was caused by accusations based in rumor and fear, and a lack of true communication.

Everyone relied on the listserv to "discuss" issues, but they let arguments fester outside of that medium. A split was created and we lost momentum and leadership in the party. We truly have not recovered from that rupture.

To see this pattern repeated is worrying to those of us that have weathered this storm once in the past.

What we must understand now, as a team of sailors working the deck of this fine ship we call the Green Party of Colorado, is that we must be prepared to weather endless storms. They will come from within, they will come from without, and they will challenge us to the core of our beings.

That is why we must always band together against the Spirit of Division until all avenues of redress have been explored.

Have a blessed day, everyone.

I'd like to change my vote from Stand Aside to Agree.

My decision to Agree is based on a proposal of two matters that need to be addressed:

1) Racism is unacceptable at any level of our society, and should not be a part of this group. From his facebook, he hasn't shown much racism but more sexism. He has also clearly shown off that he is clearly ignorant, not supportive of the Presidential Candidate Jill Stein and not representing the party correctly, which brings me to the second issue

2) Private FaceBook accounts v Public FaceBook Accounts : If people in a position want to use facebook, they should probably make a separate public facebook regarding their standing as a public official and keep a private one if they need to go on blast and vent from time to time to their friends and loved ones. Or just use the telephone again to call people, either way... I bring this up because this should be the next issue addressed and resolved on a state and possibly even a national level, if other party chapters haven't already done this.

I do agree after reading over everything again. Bill, although I do not know you, never met you, and it is nothing personal, I would have to also Agree you are not doing your end and living up to that office regardless of how much importance you place in it, people are placing their trust in you to do the job and be as squeaky clean as possible doing it. I mean let's be honest, most of the politicians in DC are crooks, but they know how to play the part of the clean upstanding citizen. So yea due to you airing out your dirty laundry all over a social medium while you are suppose to represent the party, also putting down the chosen Presidential candidate, thwarting the goal of 5%, I am going to have to Agree with your removal.

Stand Aside--While I agree that being publicly drunk and disorderly while in a Green Party booth-- admittedly so drunk he can't remember what he said or did --is an impeachable offense when it comes to a representative of the party, I am chagrined that this issue was brought up so late and within the context of the disagreement between Arn, Bill, and Andrea over Amendment 69. This too should have been brought to a proposal much earlier since the Green Party (and me as US Senate Candidate in 2008 and 2010) have endorsed single payer and sought the elective support of HCAC as the only party really committed to their agenda. How that slipped under the rug at the State Meeting is beyond me but I think I remember Bill saying that Andrea didn't want to deal with it then and kept it off the agenda. I do believe that this issue is a part of the animus that led Bill to act out because he believed we should have been endorsing it at that time but allowed that discussion to be put off. Then Arn felt unsupported in his stance in favor of ColoradoCare.

In my opinion we had a responsibility to deal with this issue. My judgement is that Bill has done a lot of good things for the party taking leadership along with Art when we were at a very difficult place. Now we are back at square one hurling personal charges at each other rather than working together while privately disciplining Bill. I also believe that Andrea has added incredible organizational skills and leadership (I can't understand how she can be Denver co-chair, State co-chair, National Rep and now national co-chair and keep it all together. but she seems to be functioning well though she seems to have some detractors.) Bottom line, I think it is irresponsible for us to be dealing with this important but divisive matter rather than attempting to get our campaign responsibilities as efficient and effective as possible these last 50 days. I have spent too much time reading all this stuff trying to sort through fact from hurt feelings, rather than on what I wanted to be doing to forward Jill and Arn's campaigns. At least the GP-PPR has managed to study ColoradoCare and to finally vote to endorse it. My phone banking hasn't happened, but we have held 3 honk and wave signings so far with signs for ARN and JILL and REGISTER GREEN-VOTE GREEN! It would be nice for there to be some reporting about how our efforts are going and how we are welcoming the Berners into the party.

This proposal looks as though it will fail, but either way the GPCO has already lost. Letting this vote continue simply proves that we didn't stumble, and instead are striding squarely into foolishness.

The newest members of this council suffer the most. Allowing the group to eat one of their own sets a bad precedent, and I didn't lend my talents to this party to be served up for dinner. This isn't how Greens behave toward one another, and someone has to start proving that point.

Some of our veteran members have given me hope that this party can recover quickly from this mob rule and lend their ample wisdom in restoring order to this great ship called the GPCO.

To those that fought for me to remain, thank you for your support during this storm. We may be able to recover from this conflict, but there are more to come. Remember that

leadership doesn't begin or end with a title, and a movement doesn't begin or end in a political party.

Though I will no longer serve as co-chair, I remain dedicated to the issues and communities that need representation. This council is losing it's ability to guide itself by the spirit of the 10KVs. When it has found it's way back to that spirit, I'll consider rejoining state leadership.

Let my walking away be a rallying cry to this council and our Colorado Greens that want to remain focused on issues and candidates rather than murmurs and accusations.

2. Title: Call for election of both state Co Chair positions.

3. Text of the proposal: The sponsors of this proposal believe it would be in the best interest of the Green Party of Colorado to suspend the bylaws and hold immediate elections for both Co-Chair positions for interim terms and a "cooling off" period and then hold elections at the next State Party meeting for full terms.

4. Background: The recent proposal to remove Bill Bartlett from his position as co-chair and his subsequent resignation have created a deep divide in the state party between council members who feel that the accusations against him were based on circumstantial evidence and hearsay and those who feel the accusations were justified and some who feel the accusations were not worthy of a recall. There has been a considerable amount of contention in the leadership of the GPCO between the co-chairs which appears to have led to the recall vote. The divide also seems to have created opposing factions between local chapters that could eventually become a deterrent to cooperation and consensus building within the party and has already become a major obstacle for volunteers attempting to help our candidates.

There are allegations regarding co-chair Andrea Merida Cuellar that remain unaddressed. However, the national election is 4 weeks away and this divide is causing an unacceptable level of distraction when our full attention is needed on the elections. Our senate candidate Arn Menconi is now without any co-chair support at the time he needs it the most. Andrea is now the paid regional coordinator for the Jill Stein presidential campaign and her full attention is needed there.

To illustrate the seriousness of the unaddressed allegations on one side of the divide, here is a brief summary. There has been a considerable amount of contention between co-chair Andrea Merida Cuellar and several party members, former Bernie Sanders supporters, former Democrats seeking to align themselves with the Green Party, Libertarians who support Jill Stein, and our U.S. Senate candidate, Arn Menconi. Some of these are documented in Facebook posts. There are allegations of expenses having been made without council approval including additional features of NationBuilder and hot spots. There are allegations that the website has been rebuilt by Andrea without collaboration with the website committee or the other co-chair. There is alleged at least the appearance of unprecedented control of the party by one person. There are facebook posts that appear to trivialize the intentions and beliefs of those who are not "working class" as an "academic exercise".

The sponsors of this proposal believe that continuing the blame game and creating further contention at this critical election time will do serious harm to the GPCO. We feel that it would be appropriate to start with a clean slate in regards to the office of co-chairs during a cooling off period and provide an opportunity to elect new and neutral leadership that could bridge the divide that has been created.

5. Justification/Goals: The sponsors of this proposal believe that the current situation is urgent. Volunteers have requested that this situation be resolved no later than 2 weeks prior to the 2016 U. S. general and presidential election, which would be October 25 (the election is November 8th). Therefore a discussion period of three days, and then a voting period of 4 days on this proposal is proposed; Then a nominating period of four days to begin if and when the proposal is passed. This would be followed by three days of voting using Instant Runoff Voting with the results tallied and posted on the Forum by the secretary. Any registered Green would be eligible to be nominated and all registered Greens could vote on the Forum. Andrea Merida-Cuellar and Bill Bartlett would be ineligible for the interim election but would be eligible for nomination at the next state meeting.

6. Pros: By holding new interim elections for both co chair positions the GPCO would have an opportunity to begin to heal the divide that has been created by electing, new, objective leadership who can give support to all Colorado candidates at this crucial time.

Cons: Not holding new co chair elections would perpetuate the current divide and opposing factions in the party and be an ongoing deterrent to the future progress of the GPCO.

7. Alternatives to the proposal: Eliminating the position of co-chairs and conduct the business of the GPCO entirely through the consensus of the state council.

My vote is No. Joseph Scardetta is correct in saying this proposal is about race.

In Denver, we have been organizing and adding new members from communities of color.

We offer them a safe place to talk about their life experiences dealing with white supremacy without fear of white people telling them that their feelings or experiences are illegitimate or saying to them that "All Lives Matter."

If they knew that there are white liberals in this party who are not fully intersectional with their struggles, Black Lives Matter, police violence on communities of color, Immigration and detention of families escaping violence in their home countries, LGBTQIA+ issues, especially queer and trans youth living on the street, income inequality between white people and communities of color, they would not be involved in the Denver Greens.

How dare the writers of this proposal fail to believe that Bill Bartlett physically threatened Andrea Mérida when I was there and had to stand in front of him so he couldn't take a swing at her. But the white-privileged proponents of this proposal couldn't believe it, because maybe you feel she had it coming? Do you feel that way about other women as well? Or is it just women of color? Shame on you.

These half-baked allegations are scurrilous lies at best and serve a racist, sexist, and classist agenda. There is a clear direction that the national party is taking after the Houston convention, which is to become intersectional and fight for the rights of oppressed communities.

Why is it that the 7 new chapters that have come/are coming online are made up of former Berners? Isn't this the very same outreach to Sanders supporters you're accusing Andrea of not doing? What is your part in that effort? How does that happen if she is "not welcoming?"

This proposal has no merit, no integrity, no truth, not compliant the bylaws or procedure, and is fulfilling a racist and sexist agenda that these so-called white liberals are upholding by failing to hold accountable those who show these behaviors. Whether or not you hold these ideals in your hearts, the outcome is the same.

Absolutely not. I find Andrea one of if not the most important member of our states party. Her interseccionality is second to none and I find that to be crucial. Also I don't much care what former Bernie supporters think, I supported him to some extent but I refuse to sit idly by while Bernie bots attack Andrea. Oddly enough when I say the same things as Andrea I don't get nearly the backlash (guess that happens as a white male). I'll say it one final time, I vote as strong of any vote as is possible.

As I stated earlier in another vote, I have to say that the accusations about Andrea are the opposite of what I have seen from her. Most of our members are former Berners, including myself. Although we have had disagreements on issues, she has been very knowledgeable and professional in all communications I have had with her. She is an amazingly passionate leader who has helped us constantly. A loss of Andrea to the party would be unfixable on so many levels. She is an asset to the Green Party.

I am against this proposal for the following reasons:

1. Andrea is very proactive, constantly finding ways to see us over here on the Western Slope and we are primarily made of Berners.
2. Without Andrea we wouldn't have near the support we have as a new chapter here in Grand Junction.
3. When it comes to the spending issue, Nation Builder is 100% necessary in doing the ground work we are all doing.
4. Who is going to be responsible in the 11 days listed on the proposal? We don't have 11 days to just throw away the election is in 20 days and whoever is elected Co Chairs aren't going to have enough time to acclimate and get everything together.
5. I heard from Andrea and Jason what happened that night, and what all the people saying it didn't are doing is called victim shaming. That was attempted assault and you are saying simply because he is your friend that he couldnt have done that. Isn't that the same thing rapists friends and family say? Very Anti- Green.
6. We are all adults, why are we wasting time focusing on this when we have so many other things to worry about? When you go to work and don't like a co-worker or your boss do you campaign to get them fired? NO. Leave it at the door. Your personal relationship has nothing to do with establishing a Party. Leave it at the door. Andrea is awesome and puts a lot of work into what she does.

I couldn't more wholeheartedly DISAGREE

Andrea has been vital in recruiting new members and fostering the development of this party in CO.

She does the work of over 100 people and she does it with spirit and gusto.

She also does the work 99% of us cant or wont do.

As a Latinx I find this very disheartening... seeing Andrea as a beacon of what a strong brown woman in leadership could be has been inspiring... till having to witness the utter BS that she is handed over and over again by quite frankly a bunch of whiney white people...

All this tells me is that when I am confident and assertive, I'll be construed as petty, argumentative and unable to get along with. From the one place I truly was expecting better. How sad.

I am disappointed in seeing this and having to respond but so be it.

Once again, strongly disagree.

DISAGREE

I blocked this proposal in the consensus-seeking stage for the following reasons, and I quote myself:

"I fully support Andrea Mérida Cuéllare. She has been an invaluable resource and mentor to me as a leader in our party. As I see it, she has done nothing that could be construed as inconsistent with the 10 Key Values. Her work as co-chair of both the state and national parties as well as within the Latinx caucus has greatly contributed to the recent successes of our party. She is the most politically intersectional person I know. As a Xicano, I feel that race is the primary motivation for this proposal."

Upon blocking, I was immediately accused of playing the "race card" and "crying wolf," which I honestly expected to happen. In our racist society wherein white people hold all institutional power, the burden of proof falls on us people of color. I don't need safe spaces to call out racism as I see it. Amen, I say to you: these are baseless accusations against Andrea.

1. Any money spent by Andrea did not exceed the amount allowed without Council approval; indeed, some of those funds came out of her own pocket.
2. Andrea did not propose the removal of Bill Bartlett, and as far as I know had nothing to do with it. And for the record, I was AGAINST removing Bill, as he too has been an invaluable resource to me in spearheading the Platte Valley Greens.

3. Andrea's public statements are in line with the 10 Key Values, and are intended to feed the debate among members of our own party. There is nothing contained within them that degrades the wealthy, white-collar, white-skinned, cisgender, heterosexual men and women who are airing concerns about having their privilege checked by this courageous and wise Latina.

On the contrary, I feel there is a concerted effort to depose Andrea because certain members feel uncomfortable with a religious woman of color leading our party, speaking truth to power, and calling out the injustices that have existed within our party for decades. I was at the convention in Houston this past summer. There is a loud cry for our Green Party to become more intersectional within our own ranks. There was also a very vocal minority spouting white supremacy and heteronormativity. I'm drawing a line with this proposal.

I am including a Dropbox link to a Word .doc file that includes several email chains that have been sent to me, which I find disturbing, as evidence to warrant my claims.

It is unfortunate that a few responses to this vote and the previous agreement-seeking proposal have immediately jumped to accusations of racism and more. The attempt to label anyone who votes to agree with this proposal as racist or sexist is incredibly hypocritical.

The authors of this proposal are not racist. They are caring individuals who are trying to heal a rift in the Colorado Green Party. Some have been in the Green Party for decades selflessly advocating for all of the ten key values back when that alone was a radical concept. They have reviewed prior allegations about Bill and unaddressed allegations about Andrea. They are not making any judgment with this proposal about whether any of the allegations are true or false or some gray area in the middle. They believe a cooling off period is needed and that after that period new candidates as well as both Bill and Andrea should be allowed to put their hat in the ring for GPCO Co-Chair. They also believe that during that period there needs to be a serious attempt to heal the wounds and find ways to disagree without jumping to accusations of racism and sexism and recalls and sanctions. They believe that could be one of the primary roles of the interim Co-Chairs.

Lets be clear: it is not racist to disagree with someone who is LGBTQ, black, hispanic, asian, or any other race just because the person who disagrees is believed by the accuser to be a white male. Disagreements are a normal part of discussion.

Regarding the allegation that Bill threatened Andrea, Andrea declined to give her side on a conference call which had the purpose of discussing the allegations. The only "witness" is Jason who happens to be Andrea's partner. Jason's version of the "incident" differs substantially from Bill's version. People who know Bill do not believe the accusation. The concept that women must always be believed is seriously flawed. Witnesses are generally the least reliable kind of evidence. It is therefore one of those incidents where there is no proof. Many people, and disproportionately people of color, have been convicted of crimes based on witness accounts and then proven innocent when scientific evidence later became available (DNA). Memories change and are influenced by so, so many things both conscious and sub-conscious. It is known that Andrea and Bill had disagreements on policy/administration in the past. Regardless, a better response could have been an attempt at conflict resolution. Other than Andrea, Bill, and Jason, the rest of us do not know with any sufficient degree of certainty what happened. That is not sufficient cause for a recall. The situation does, however, lead to the reasonable suspicion that something else is going on.

Bill was also accused of being sexist for using the word "girl" on a facebook post in the context of "...the girls not getting their way". He was complaining that posts were deleted on Facebook (the GPCO page?) because the moderator was not getting her way. Had it been the other way around, would there be an accusation of sexism? It would be nice if posts on facebook were well thought out and maybe slept on before posting, but that is not how facebook works. Failure to respond immediately often misses the opportunity to reply at all. The conversation will have moved on, and if a popular thread or page, have moved so far down the page as to make a well-thought out reply totally impractical if not impossible. That is one reason that many of us do not "do facebook".

There are also serious allegations about Andrea's posts. Here is one example:
 On Sept. 9, 2016 at 5:53, Andrea Mérida Cuéllar wrote: *"I am absolutely convinced that for the most part, the former Sanders supporter is not our target for recruitment into the Green Party. I just tabled at a "progressive" event in Albuquerque for the Green Party of New Mexico, and the people who were still waffling over whether to be a Green were NOT the two groups of working-class Latinas who are fighting neoliberal assaults on the community, with whom I had good, honest conversations.*
I qualify this by saying there is a difference between voting for Jill and becoming a registered Green Party member (where allowed). There are plenty of good people of good conscience who will be voting for Jill but at the end of the day are going to still "change the Democratic Party from within." All power to them, seriously.
Our party, however, must be built with the working class, for whom the stakes are higher and the damage from capitalism is imminent. It must be from the frontline communities who are the first to suffer environmental racism, police brutality, poverty and homelessness. For others, being a Green is an academic exercise. For the rest of us, it's life or death.
Let's be clear about the difference between simply voting for Jill and becoming a Green. There is a difference."

There are also complaints regarding how Andrea has responded to persons expressing a different opinion. Here is one example from an e-mail to the Stein campaign:
 Date: Wed, Sep 21, 2016 at 5:58 PM
 Subject: Concerns
 To: <jillstein2016co@gmail.com>

To Whom it May Concern,
I am writing today as a matter of conscience, and principle. I have found that typically there

is a sense, rightly felt, that it is dangerous to have opinions that differ from those opinions possessed by persons in power. I have found this to be true of my experience, and others with whom I am acquainted, have also had experiences when expressing opinions that differ from Miss Andrea Cuellar's personal paradigm.

Differing opinions held by party members should be regarded and considered by those in authority, and not thrown out and dismissed and the people expressing them put down and humiliated. Human opinion should be regarded, isn't that the whole point? No one person can know everything, and have all the answers. The Green Party as a party that supports the rights of whistle-blowers and opinions that dissent from the main stream should be inclusive. Members of the party should not have to be afraid of speaking out against Miss Andrea Cuellar. For having differing opinions they should not be harassed by her husband, or in other ways be retaliated against.

Me and several other Green Party members were considering leaving the party over Miss Andrea's hateful rhetoric on Facebook, and were only persuaded to stay in the party, because Mr. Bartlett took the time to be kind to us.

I believe that removing Mr. Bill Bartlett from his position would be detrimental to the social environment, and potential growth of the Green Party in Colorado. I believe this action is being taken in direct retaliation to what I perceive as his desire to heal the damage that exclusive rhetoric has had on the Party in state.

*Regards,
Elizabeth Thornton*

There is a disconnect between these words and what a few people are saying about all the support they have received from Andrea. Perhaps this warrants investigation.

There appear to be serious rifts in the GPCO about support for Bernie and about whether someone who does not spend all his/her time in support of racism and sexism issues in one particular way is a true "Green". There have been statements that essentially say that women can do no wrong and that persons of color cannot be racist - ever. The seriousness is underscored by the tone of the insults and accusations of racism and sexism. Keep in mind there are ten key values, not two. The Green Party has room for all of them. Like it or not, Andrea is in the middle of this. The sponsors of this proposal are very concerned and see the installation of interim co-chairs and a cooling-off period as a necessary step.

Since the rift in the GPCO is devolving into accusations about racism, it is probably a good time to consider the roots of the problem. Anthropologically speaking, humans have been fighting over resources and land since they crawled out of the trees, and other species do the same. There has historically been a demonization of "the other" as a justification for taking the resources of the other. The root problem is the sense of resource scarcity. A large part of that issue is the way in which money supply is created. Money is created out of thin air as debt owed, with interest, to the private entities that created it out of nothing. Paying back these debts requires an exponential expansion of economies whether there is an intrinsic need or not. When debt outpaces economic productivity, the result is an economic crash with the wealth of the poorest being transferred to the wealthiest. Thus the wealth gap increases. One solution, used historically, is violent revolution with power transferring to the next set of bullies. Another, advocated by the Green Party (using more words), is essentially to abolish the central banks. Then money becomes only what it should be - a medium of exchange, not a tool for extracting wealth. Public banking is a small step in that direction.

Absolutely not. Former Dem here and originally a Bernie supporter. I've followed the Greens carefully for about a decade but did not make the switch until after moving to Denver and working with Andrea. I have had nothing but support from her (I'm a white woman, former Dem, former Bernie supporter, so none of the allegations listed hold true in my experience). I have watched Andrea encourage persons of all sexual identities, racial identities and education levels to fit in where they can get in. I'm with the Green party now because I believe strongly that the only way this country gets better is if we get beyond this patriarchal white supremacist capitalist system (after all, that is what I've read in the platform). I've seen the "offending" conversations on Facebook. Andrea stays on point with these values. That appears to difficult for some (most often white liberals) to handle. Is it because she is a woman with convictions? Yes. Is it because she is a Latina speaking truth? Yes. Quite frankly, I don't think they are ready for this party if they can't reflect on this sort of feedback and move towards the vision outlined in the platform. If these are the people the party is seeking to work with, I won't be around long. I'm not interested in being part of Dems 2.0.

I'd first like to clarify the purpose of this proposal. The stated purpose - "call for election of both state Co Chair positions" - actually isn't possible, because we have an active co chair

Evidence

and regular elections won't be held till the Annual Meeting next year. If this is intended to be a recall proposal to remove Andrea from her position, it would require a vote of 75%, not the 60% listed in this proposal. Please reference the bylaws, section 5.9: "If any officer or national representative is found to be in contempt of the goals of the Green Party of Colorado, recall proceedings shall be invoked. A three fourths majority of voting members present at a state meeting and/or the Council is required to achieve the recall of an officer." Section 4.3, which is referenced in the proposal, actually doesn't apply to this situation, since this is not a vote on policy, finance, or objectives, and this is not a state meeting where we would have regular elections.

This proposal appears to be out of order. Can the sponsors or the facilitator clarify, please? If it is a recall, the title and text of the proposal should be updated to reference the recall and the 75% threshold.

In case this is in fact a recall proposal, I vote Disagree. In my mind, Andrea has done nothing to show contempt for the goals of the state party, and has in fact been directly responsible for a great deal of the growth and level of organization we have achieved over the last few months. Aside from the multiple new chapters she has directly rebooted or started (including my own in Arapahoe that is currently mostly made up of former berners), we've seen our registrations statewide up by 50% and we are engaging with frontline communities at a much higher level than before she became co-chair. I see nothing in any of the items listed in the proposal that suggests Andrea has done anything that would violate any of our key values.

Sean, when I asked for clarification when posting this proposal by the sponsors, I was told it is *not* a recall proposal, which is why I didn't reference Section 5.9 of the Bylaws. I referenced 4.3 because, since this is not a recall proposal, it was the next best fit. Any other clarification will have to come from the sponsors of the proposal. If you think you can do a better job as facilitator, be my guest.

I wasn't trying to imply anything about your job as facilitator, just looking for clarification on what the exact nature and intent of this proposal was.

That said, if this isn't a recall proposal, it should be retracted or significantly reworked by the sponsors. You can't call for elections for a position that is already filled. Andrea has not resigned from her position and cannot be removed except by recall. If a recall proposal were submitted and passed by 75%, then a call for nominations and elections would be appropriate. We need to follow our bylaws, especially with something as important as this.

In my experience, Andrea Mérida Cuéllar has been an invaluable asset as a leader of the State Party. While some locals were clamoring to support the candidacy of Bernie Sanders, Andrea was working to build a strong base to support The Green Party Presidential Candidate. In regards to Arn feeling unsupported, I'm not certain that he understands that

that effort by default, trickled down into his campaign by facilitating well attended campaign events where Arn was given a platform to speak to many voters at once. Andrea is a strong and highly effective leader, and we (Poudre Valley) would not be as strong as we are without her. She has helped us rebuild a local that was effectively dead by providing us with physical, intellectual, and historical resources, on a moments notice. She has driven up here to help us with events and participated in a few of our early reboot meetings.

Furthermore, I see the statement that you're citing as cause to remove Andrea from her post as one of the reasons that she is so effective. It actually proves that she is able to discern between a person that is moving to the Green Party to help us grow as opposed to a person who is moving to the party to protest DNC politics. There is a huge difference between these two types of people and it is important for our leadership to recognize that. In order to remake the society that we live in, we have got to get to work building an intersectional space where radical change can occur.

I believe that this proposal is lodged as retaliation for the recall against Bill. I would like to point out that that recall was proposed by Poudre Valley (Bill's local before Platte Valley was affiliated 2 weeks ago) and Arapahoe County, not Andrea. Worse, that you would try to conflate Nation Builder expenses and spending \$50 on a hotspot so that we could raise more than \$2,000 for our Presidential Candidate with referring to women as 'girls' and claiming that anti-white racism is real, is repulsive and inexcusable. Building this party is Andrea's job and that is exactly what she is doing. She is traveling the state and organizing at every level to make the Green Party a viable political organization for all people suffering under the boot of capitalism. I applaud Andrea for her strength and grace in the face of nearly constant adversity. Thank you for all you do Andrea Mérida Cuéllar.

To echo Sean's question, I wonder why the people who wrote this proposal chose to side step an actual recall vote?

I am glad that our party is finally becoming more inclusive and is actively supporting our most vulnerable communities. As far as the Facebook comments, I share her concerns that SOME former Berners may not be fully aligned with our 10 Key Values. This stems from several interactions where they have criticized Ajamu Baraka's past commentary on white supremacy, racist foreign policy, etc., and argued that he needs to "tone down his language" when it's really not up to them to tell the black community what language they should use to liberate themselves or to chastise them for their outrage when they have the right to be outraged. If racial justice is going to be a pillar of the Green Party platform, we need to ensure that we walk the walk and stand by our principles and that is why we had concerns that SOME former Dems might attempt to deradicalize us in an effort to make the Green Party "more viable" and "acceptable" to mainstream audiences (yes, some have suggested this). This does not mean that we should be unwelcoming, but rather, that we make sure that all members understand that our party is serious about challenging white supremacy,

capitalism, patriarchy, etc. Once again, this is not a generalization of all former Berners, but it is something that we need to address and discuss post-election. It IS possible to have these conversations while being 100% welcoming to those who share our values (we do it here in the Springs). Again, I disagree with the proposal and look forward to having a state-wide discussion with you all after November 8th.

AGREE

First of all this proposal is not erroneous and doesn't need to be retracted or reworked. Council members can propose anything they wish in a proposal from endorsements to bylaws changes and submit it to the state council for agreement seeking/voting. Of course this is about both policy and objectives. The proposal to remove Bill from office was called "Proposal to fill co chair vacancy" even though Bill hadn't been removed and hadn't resigned. This is a blatant double standard.

Proposal 07-16 was an attempt to heal a serious divide in the party by having interim co chairs who were not involved in the recent ugliness step in and transcend it in order to focus on the other more important issues like our candidates and A-69. The hypocrisy and double standards in some of these posts is staggering. This post by Ms. Garcia-Lock is unbelievable "We are all adults, why are we wasting time focusing on this when we have so many other things to worry about? When you go to work and don't like a co-worker or your boss do you campaign to get them fired? NO. Leave it at the door." Really?? Is this the approach that was taken with Bill Barlett? And as Bob Kinsey said today this entire episode starting with the proposal to remove Bill couldn't have waited until November 9th?

Mr. Justice. How dare you accuse the sponsors of this proposal of being white-privileged racists. I have been active in the GPCO and I have promoted the 10 key values for 10 years and I certainly don't need your validation. Donald Trump and David Duke are racists. The fact that you and others use the race card as a weapon against anyone who disagrees with you is despicable and you sir are awash in shame for using such a serious issue as a tool to achieve your nefarious goals. Your hypocrisy is stunning. Isn't racism at it's core about associating certain stereotypes and behaviors with an entire group of people or ethnic group? Yet it's OK for you to throw around terms like white-privileged, racist, and sexist about people you've never met or spoken with. You do a great disservice to your cause. And no one volunteers their time and energy to promote the Green Party and the 10KV as an "academic exercise" as Andrea has implied again assuming the motives of people because they happen to be Caucasian.

And as far as scurrilous lies are concerned you once again accuse Bill of something he didn't do. All of you who have jumped on this band wagon shame on you. Bill was asked if he threatened Andrea and he disputed the claim. You say you stepped in front of him before he had a chance to take a swing at Andrea. You could say that about anyone who was within three feet of her. How convenient that the main argument for removing Bill was an incident that can't be proven and is your word against his. The version that Bill related to me was that he was trying to help you take items to your car and talk to you but you were both hostile to him and he said that was f'ed up. I have known Bill for many years. I don't know you. Someone is lying. So I can only conclude you are lying. Anyone who wasn't

there has no right to assume you are telling the truth and Bill is lying. And as far as the conference call is concerned anyone who actually listens to it will hear that Bill and Andrea were both talking over each other as can happen in an intense conversation. There was an obvious lull where she had an opportunity to speak but she conveniently hung up so she didn't have to actually address the issue. For anyone to assert that Bill used "violent language" is absurd.

So here we are bickering like spoiled brats at this critical time. So much for trying to heal a wound and bridge the divide and pursue conflict resolution. It's time to get this out in the open.

Andrea Merida Cuellar is attempting to take control of the Green Party of Colorado. She has demonstrated a pattern of starting local chapters and hand picking state council reps who are in lock step with her. You only need to look at the history of the way the chapters she has created have voted. And she has also demonstrated time and time again a pattern of retaliating against people who disagree with her with hostile communications and accusations in emails, Facebook posts, and in social media. And this is undoubtedly why there was a proposal to remove Bill. Do the people who backed that proposal really expect us to believe that she wasn't pulling the strings behind the scenes? Nothing goes on in the GPCO without her involvement. Do you really think we can't see through the good cop/bad cop nonsense where she keeps her nose clean but sends out the attack dogs to do the dirty work? Please! Her M O is obvious. Create a power base and stack the deck against anyone and any local chapters that aren't in lock step. If she creates enough of a power base she can exercise total control of the party by means of a majority of people in her camp on the state council. Deny it.

Many former Bernie supporters and disgruntled Democrats have reached out to me about her hostility towards them and have related similar stories from other people they know. I'm sure every local is experiencing an influx of Berners and former Dems as is the Greater Boulder chapter. But the many examples of her propensity to alienate many of them is inexcusable. This is the greatest opportunity for growth the GPCO has ever seen and to alienate even one potentially active Green is incomprehensible! Our Green registration numbers are up despite her not because of her.

Every Colorado Green should be suspicious of Andrea's motives. Why did the proposal to remove Bill surface when it did (don't deny she was behind it). It has completely distracted the entire party from the elections. Why did she stifle the proposal to endorse A-69 when many chapters supported it as well as our amazing U.S. Senate candidate, Arn Menconi, and our presidential candidate Jill Stein? Why has she chosen to pick fights with Arn rather than find some kind of common ground? Why have council members from Boulder including our co chair Carolyn Brninski and council members from the Jeffco Greens not been able to get access to the Forum? Why have many new members been added to the state council without notifying our council facilitator Brittany Hoover? People have been voting without even an indication of what local they belong to which should disqualify their vote. Why did Andrea single-handedly redesign the state web site with no input from the web site committee or co chair? Why are the two domain names the GPCO owns on her private server and not on a state account accessible to the web site committee? Wake up people.

Anyone who tries to exercise control over a political party is toxic to that party. The position of co chair is not a position of authority and no one who serves in that position has a right to act unilaterally on any issue. The GPCO is in a state of total disfunction at this time and this will not change as long as Andrea is co chair. If she cares about the GPCO more than her own agenda she will step down like Bill did so that we can function as a political party instead of bunch of spoiled brats.

I wanted to address some of the allegations in the proposal, for everyone's information. I apologize that this post will be quite long.

WEBSITE

In 2014, the members of the website committee consisted of Bill, Harry Hempy and myself. Harry resigned to run for governor, and the committee was only Bill and myself. Keep in mind that I was not state co-chair then, and the responsibility of appointing new members was Bill's, not mine.

In 2015, Bill and I discussed moving the website to his hosting company and also tranferring the ownership of the domain "coloradogreenparty.org." The website up to that point was being paid for by Kevin Alumbaugh's wife, Liz Hamilton, as an unrecorded in-kind donation. Because we were not able to add email accounts and otherwise manage the website because we didn't have access to all the website controls, we decided to ask Liz to transfer ownership of the domain. Also, since the hosting was going to be more than \$100 a month, Bill and I agreed that that expense was too high, especially since both he and I have our own shared hosting spaces where we could host for free for the time being.

Bill and I discussed a few ideas, like setting up a shared hosting site where locals could have their hosting space together, splitting up the cost cooperatively. We decided that Bill should host the website on his hosting space. The first step was to ask Liz to transfer ownership of the domain.

After weeks of waiting for Bill to ask, I went ahead and asked Liz myself, but I asked her to transfer it directly to Bill, not to me. See the attached file "GPCO domain transfer" for those details.

Bill was still unresponsive, and I finally asked her to transfer the domain to me. That's why it's presently registered to me.

Bill was supposed to set up a hosting space on his own server for the website. He attempted to do so, but apparently it was not done correctly, and a crisis situation emerged, because the state party website was now down over an election weekend, and Bill had gone out of town and was incommunicado.

To rectify the situation, I went ahead and rebuilt the website on my hosting account, and that's where it still resides today. You can see documentation of that situation in the two attachments called "GPCO Website Login info."

Understand that at no point did I make any unilateral decisions, and at no point was Bill not apprised of the situation.

HOTSPOT

Because the Mercury Cafe in Denver does not have WiFi, and because we had to process donations through Jill's website, keeping in mind compliance directives from her campaign, I decided to get a mobile WiFi hotspot from Boost Mobile. The cost for the device itself was \$125, which I paid for, and the data plan for it was \$50 a month. The state party paid \$50 only for one month's service. I have continued to pay for subsequent months of service, though I have been using it for state party business where needed. As Dave Bell pointed out in a previous post, we raised more than \$2000 for the campaign because we were able to be connected to the internet.

Below is a link to a screen shot of the banking transactions for the last 90 days so that you can see there was only one charge of \$50 since getting the device in July.

(<https://drive.google.com/open?id=0ByNZ1Gqvs9d5Y0V3cEV2QjMtbDg>)

NATIONBUILDER

Laura Clark had been paying for Nationbuilder for over a year at a rate of \$28 a month. Bill had done some initial work, uploading a portion of the voter database for Greeley. Keep in mind that this account was launched before I became co-chair in May 2015. But Laura was paying for a database that was not being used.

Laura decided she was no longer going to pay for the account personally, and so the billing was transferred to the state party. You all voted to approve the expenditure of \$28 a month at the state meeting in May 2015, and a couple of you pledged to help pay for it, though those pledges have never materialized.

Later, after I became co-chair, Bill and I agreed to expand the capabilities of Nationbuilder so that we could send out more email blasts, robocalls and text blasts. Keep in mind also that Nationbuilder's cost expands with the number of records in your database, and we're approaching 15k contacts, and that we currently have more than 12, 000 registered Greens as of now. That cost is now \$108 a month, and with the expanded features, we have reached a few thousand Greens, created phone banking lists that many of you have used, including Boulder, Mesa, Denver and Poudre. We have used the robocall and text blast capabilities to announce Jill's event in Boulder; to announce chapter meetings and launches for Pueblo, Platte Valley, Mesa, Avon, Longmont, Adams, Pikes Peak and Denver.

We have to pay separately to run the robocalls, but it's always less than \$10 per shot. It's an infinitely cheaper way than even postcards to reach many, many voters in one fell swoop, and it helps party activists stretch out their time to focus on other things.

Below is a screen shot from Nationbuilder that shows the cost and some of the features.

The cost of Nationbuilder is currently being supported by donations.

(<https://drive.google.com/open?id=0ByNZ1Gqvs9d5aHFjUnhodzNNMFE>)

Going forward, my recommendation will be for us to pay up front for a whole year of service, which will reduce our cost to \$70.20 a month. Keep your eyes peeled for that proposal, because the bylaws only permit co-chairs to spend less than \$200 a month without council approval.

OTHER ISSUES

There seem to be quite a bit of distress around my personal opinion about finding the right prospects for partybuilding from among Sanders supporters. But just as Michael Haughey is apparently free to openly advocate for Green nomination of Bernie Sanders as late as the People's Fair in June (and within the Jeffco meetings), then I too can have an opinion about who really is the right prospect for us. Each of us have our own opinion, and I am entitled to mine as you are to yours. I have never offered that my opinion is the state party position, however.

Additionally, I want to call out the elephant in the room, and that's the distress over my personal opinion, which I have shared with many of you, about Amendment 69. I am on the record as personally being opposed. That is offensive to some of you. However, I have never represented my personal opinion as the state opinion, I have never blocked any proposal brought forward, nor have I ever coerced anyone to take on my opinion. Of note is that many of the people who disagree with this proposal are actually Amendment 69 supporters...and even more to the point, the co-sponsors of the previous recall petition include a chapter that has voted to endorse 69.

It would appear that some of you have vastly different opinions than me on at least a couple different material issues. I have not slandered any of you over it, however.

RACISM

There is an updated sociological definition of racism, that goes beyond an anthropological human trait or simple feelings or speech that is bigoted. Instead, racial justice activists recognize that **RACISM = BIGOTRY + POWER**. It's easier to understand it as "institutional racism." Here's an older article with some insight on this.

<http://everydayfeminism.com/2013/08/racist-against-white-people/>
(<http://everydayfeminism.com/2013/08/racist-against-white-people/>)

People who use bigoted speech are therefore not racists if they are people of color. Their speech cannot be used to curtail a white person's rights or access to jobs or positions. It is entirely possible for a person of color to be bigoted, however.

It is time to update our definition of what racism actually is and to begin to scrutinize whether we are creating a welcoming space for people of color (and all other oppressed communities) to come and build up electoral and movement power together in the Green Party. I can tell you that we don't have that yet. The hue and cry over my controversial (to some) opinions, which are not binding, is just an indicator. The fact that Kevin has assigned me superhuman mastermind powers over intelligent, free-thinking (largely white) individuals, without considering that they are actively anti-racist in their own right, is another. Yet another is the failure of the proposal proponents to afford me any due process at all.

It is very easy to uphold white supremacy, even as a person of color. There is more information on that here, and I invite you all to read and absorb. <http://www.alternet.org/civil-liberties/10-things-everyone-should-know-about-white-supremacy>
(<http://www.alternet.org/civil-liberties/10-things-everyone-should-know-about-white-supremacy>)

Several of us in the party are working on some workshops for our party that everyone will

be invited to participate. I hope that everyone on the state council takes the time to open their minds and learn a bit more about how to open up our party.

IN CLOSING

At the end of the day, you all need to hear that I am not going to resign, and except for issues with health or work, I intend to run for reelection. So that means that we're in this together, at least for several more months. It is true that I am a religious person; I am a practicing Roman Catholic, and that means that forgiveness is my mandate. What that means to you is that you will continue to be treated with respect, if not always docility. There is excellent roundabout critique here, and in response, my further commitment to you is that you will get more communication about the way things are happening, regardless of my wish to help others save face, and that you will get copies of bank statements posted here with explanation of expenditures, whether we have a treasurer or not. I will take on that responsibility.

We're in this together, folks. Let's try to make the best of it. You are right that we have an opportunity to bring on more members, and I intent to keep recruiting the best options from the former Sanders supporters, as well as continuing to bring on more and more recruits from oppressed communities. I continue to work hard fulfilling YOUR mandate from when I was elected co-chair, which was to build this into an electoral party and run candidates.

What's your commitment to this process?

Solidarity,

Andrea Merida Cuellar
Co-Chair

Post by: **Michael Haughey** on **October 22, 2016, 02:41:53 PM**

I can understand why so many folks are posting about how nice Andrea is. Just to be clear, I hold no malice toward Andrea. I do think her style of off-hand insults and un-truths is a serious problem (I worry that there is more than just that going on) – and before you get defensive, I will give a few personal examples. I do not know if it is intentional, or just one of those personality quirks that many of us have. For now I think it is a serious enough problem to warrant the cooling off period that this proposal advocates. I worked a couple shifts in the GPCO booth at the People's Fair on Sunday, June 5, 2016 in the hot sun, and one shift was with just Andrea. There were times when we had no visitors and we had pleasant conversations. We talked about how Bernie Sanders would make a great addition to the Green Party ticket. Andrea and I had been on different sides of that discussion, so it was good to hear that she was evolving. Then I read her post on this proposal for a cooling off period and she makes a side comment about me that seems innocuous on the surface:

"But just as Michael Haughey is apparently free to openly advocate for Green nomination of Bernie Sanders as late as the People's Fair in June (and within the Jeffco meetings), ..." but that is not the truth. We had only a private discussion. Her words give an image of a person running around the people's fair in a green party t-shirt and wearing co-chair button waving a Bernie sign with a Democratic party logo. That is simply not true. In any discussions with Greens I am very careful to frame my personal opinions as just that – personal opinions. It seems minor and silly by itself, but it does not stand alone as I'll get to shortly. Not only that, notice the insinuation *"as late as the People's Fair in June"*. The Green Party convention was August 5 – 7, so Jill was not even the official candidate until August 7, a full two months later. Prior to the People's Fair (this "discussion" started in

early 2015) there was a "movement" in the GPCO including Andrea and others to try to outlaw any co-chair taking any position in favor of Bernie even in their own personal conversations having nothing to do with the GreenParty. That opinion was aggressively put forth in our local chapter meetings by at least one individual who vehemently denied that Jill had made any overture to Bernie. I stood up to that as much on principle as anything else. No-one gets to tell me what to think. Period. What happened? Look at bylaws amendment proposal 008-15, which passed. It was mis-leadingly titled "*Chapter Accreditation*". It included, under items a "*Green Local must agree to*": "*Openly support only the national candidates selected by Green convention, state level candidates nominated at a Green Party of Colorado nominating convention, and local candidates selected with the criteria specified in sections 4.5.4 and 4.5.5 of these bylaws.*" It seems innocent enough, but look at what is happening now (as I predicted in my disagree vote). I am accused of "open support..." (for Bernie).

As it turns out in this particular discussion (about asking Bernie to join the Green ticket) I am vindicated – Jill Stein invited Bernie to join the Green Party presidential ticket and even offered him the top position on the ticket. For me it goes much, much deeper. I began my liberalization and understanding that the "system" has serious problems back in the 1960's before I was even a teenager. I've been an environmentalist and advocate for equality and more ever since. In all those years we couldn't even dream of a candidate as good as Bernie, and then he gradually emerged and was courted by the Greens in previous elections. He declined then and he declined now, but he is still Bernie. I am sad that he is stumping for the corporate candidate, but perhaps I'll get over that in time.

There is more. In a recent e-mail that Andrea sent to another member of the JC Greens (forwarded to me by that person) she included "*I have bent over backward to assist you, communicate, loop you in when Michael would not.*" and "*You might start by advocating for democracy within the Jeffco chapter and calling for co-chair elections as you committed to do.*" That is two digs that are not true. I have not kept this person "out of the loop". In fact I was never included in whatever "loop" to which Andrea might have been referring. I have been very pro-active in including any information I have in the monthly meeting e-mail invites and more. The second one about elections is even more perplexing. I agreed to keep the Adams-Jeffco Greens alive by becoming the chair starting in January 2012 when literally NO-ONE else would. I was nominated, and I was elected unanimously at the next meeting. It was me or the chapter dies. Simple as that. We have had an election for chair and then later co-chair every year. We followed that process every year, sending out a plea for individuals to volunteer and to run for a position. Each year there were NO OTHER CANDIDATES and I was elected unanimously with no abstentions. On November 17, 2014 Larry Dunn volunteered (put up by Andrea) to re-join the Adams-Jeffco Chapter and become a co-chair, and he expressed his opinion at that time that eventually Adams and JeffCo would need to be split up. In retrospect, that is now very interesting (and yes – I have e-mail documentation). Since we were barely scraping by as one chapter, a split would have been difficult at that time, which Larry and I both acknowledged. Larry did not show up at the next meeting, in December 2014. In fact he did not show up for over a year (no judgement here – he had good personal reasons). During that time we had discussions about our chapter bylaws (which took quite some time to find). Rachel served as our Secretary for part of that time. We updated and adopted bylaws revisions on January 12, 2015, and that included provisions for a co-chair, but still no volunteer for the position. Larry next came to a meeting on March 9, 2015 and was welcomed with open arms. Larry offered again to be co-chair prior to the June meeting and was elected unanimously as a co-chair on June 8, 2015. At our June 13, 2016 meeting Larry made a motion to split and form an Adams chapter. That motion was unanimously approved with no abstentions. So where did this rumor start that the AJ Greens/JC Greens are not having elections?

I still hold no ill-will toward Andrea, although she is making that difficult. I don't know her motives, if any. But I re-iterate that the GPCO has a serious problem as a result of her words and actions. I think some conflict-resolution during the proposed cooling off period

could be beneficial.

At least one statement in Andreas post need to be corrected, and it is serious because of our limited funds and that fact that the GPCO is supposed to be a democracy: the statement that a co-chair has authorization to spend up to \$200. This is what the bylaws say:

"4.2.3. The Council sets the agenda for the state meetings, decides on issues needing expedient attention between state meetings, handles administrative tasks, and acts as representative to the press on state issues, as well as representing the Green Party of Colorado to groups interested in establishing locals where none exist. The Council can make appropriations from the GPCO bank account of \$200 per item or less by a 60% vote of the Council, in consultation with the Treasurer to insure availability of funds. Expenditures above \$200 per item require consensus of the Council or a 60% vote at a state meeting."

The council, not the co-chair, can approve expenditures on consultation with the treasurer and upon a vote for items less than \$200. More than \$200 requires consensus or a vote of the membership at a state meeting. No co-chair, no one person, has this authority. If there is a good reason to make an expense, make a case to the council and run it by the treasurer to confirm the impact on our funds (they are VERY limited). That is how this democracy works.

If there are other statements that need correcting, hopefully someone else will post to correct them.

The opinion on the definition of racism is an interesting intellectual discussion, but far from reality. The justification is that *"racial justice activists recognize that RACISM = BIGOTRY + POWER."* "Racial justice advocates"? This view seems really convenient. A person of color can now be racist but is immune from being called racist because of his/her race status? And because of that ONLY whites can be racist? Sorry – don't buy it. It has too many flaws. For just one, not only whites are in position of power. For another, to fear or denigrate all whites because of a mistaken belief that they all hold power is itself racist and incorrect. Not only that – it is incredibly insulting and libelous to those of us who have advocated, fought, and put ourselves at personal and professional risk (and lost jobs, friends, loved ones, and opportunities) BECAUSE of our advocacy for equality. Regardless, using the term racist as a weapon against anyone who disagrees, to call someone a racist for agreeing to this proposal, is disgraceful. Andrea's statement in her post that all of us who are white are *"actively anti-racist in their own right"* is absurd and anything but healing. That is treating us with respect???

All it takes for bad ideas to triumph is for good people to remain silent.

Michael, let me quote the bylaws for you, even though you did vote no on this:

Quote

III. Membership
3.1 A Green Local must agree to:
* Accept the Ten Key Values and to manage the chapter in accordance with those values.
* Abide by the bylaws of the Green Party of Colorado.
* Openly support only the national candidates selected by Green convention, state level candidates nominated at a

Evidence

Page 44

Green Party of Colorado nominating convention, and local candidates selected with the criteria specified in sections 4.5.4 and 4.5.5 of these bylaws.

- * Make a good faith effort, where reasonable, to increase the number of Green voter registrations within the boundaries of their chapter.
- * Make a good faith effort to run state and local candidates.
- * Make a good faith effort to increase the number of qualified voting members within their chapter.
- * Make a good faith effort to fundraise for the operation of their chapter and to assist in the operation of the Green Party of Colorado.
- * Demonstrate evidence of commitment to, and good faith efforts to achieve, gender balance in party leadership and representation.
- * Demonstrate evidence of good faith efforts to empower individuals and groups from oppressed communities, through, for example, leadership responsibilities, identity caucuses and alliances with community-based organizations, and endorsements of issues and policies.

Chapter officers and council representatives must not have been registered as a member of a political party other than the Green Party of Colorado for at least thirty days before nomination and must maintain registration as a Green Party of Colorado voter throughout the duration of the officer's/representative's term.

A Green local must present its proposed bylaws for approval, and be approved by 60% of the voting Greens at a state party meeting, or by the state council.

So this isn't a question of my evolution. It's a question of being faithful to the bylaws, as well as to our requirements for accreditation with GPUS.

This is a fundamental issue: **is the Green Party an autonomous, independent electoral party separate from the Democratic Party, or not?** If so, then we should not be concerned with other parties' nominees.

My position is not changed. Neither has yours. And I understand you have a different opinion on this.

It is my position as well that if your loyalties are split, then there is no way you can grow your own local.

But this isn't material to the proposal on the floor. It's an important discussion that we're going to have later, however.

Now you are just being insulting. I read the amendment. I object to the vague and open-to-interpretation "Demonstrate evidence of" and the long list of chapter requirements that are impossible for a small chapter. There was no "agreement-seeking" in the sense of making good faith efforts to find consensus in the wording. My objections were simply ignored. And I did vote. My vote was "Do not agree as worded". My full post was:

"Do not agree as worded. Too much micro-managing. All the good faith efforts require time that some chapter volunteers/officers do not have. Also, the statement to support "only..." could be interpreted to apply to issues as well. It also does not address supporting other party candidates when there is no Green Party candidate for a particular office. I think it needs work before voting. As worded I would vote no.

No, I don't mean to be insulting at all. I'm simply recognizing that you were not in support, and when you say "do not agree as worded," and given that you did not present an
Evidence

amendment, I have to conclude that you didn't agree.

If I misread your intention from your words, I apologize.

this brouhaha seems very confusing for chapters far from the front range. instead of a forum for voting, this thread appears to be a forum for presenting opposing sides of a rift in the party. and the accusations of racism against those who are in favor of the proposal seems to make it a losing proposition however one votes.

so, san miguel greens abstain on this proposal for now.

Last post didn't format correctly. One thing is for sure: there is a huge rift in this party. I too hold no malice or ill-will towards Andrea but I do see an increase in anger and emotionally filled comments from her, including a message she sent to me that was insulting and disparaging to my character. However, passion is not always a bad thing, if directed properly. I understand that Andrea is passionate about racial and social equality. Any number of comments on Facebook, emails, conference calls, or personal meetings will attest to that. However, it is not the only issue our party holds dear and it's not the only issue that deserves our focus. We have people who are passionate about the environment, passionate about peace and ending the endless wars, passionate about animal cruelty, passionate about feeding the homeless every Friday night in Denver, etc. The big difference is that nobody else is using their passion as weapons against their own party members or to those that would like to join our party. This is what's happening right now.

Using racial epithets against others is a slippery slope and almost always ends any rational discussion thereafter. Also, using the same weapon over and over again only dulls that weapon to uselessness. Words matter and if you continually use those words for everything or everyone you disagree with, eventually those words will lose all meaning. It seems to me there are many out there more interested in labeling others in their own party than having a discussion about it. How ironic for a party that espouses community building, openness, and equality. Fight for your passion but not at the expense of your own party members or at the behest of one of the party members you look up to. Be a teacher not a preacher. Don't go so far left that you end up on the right which I feel is what is happening. Please don't turn this into a Green version of McCarthyism. What makes the Green Party different is that members think critically and deeply to make their own decision, not emotionally and blindly to another person's agenda. That's why I joined because it's the only place I've found that I can have amazingly deep and cogent conversations, be politically active, and be a part of something bigger than myself.

I'll give credit to Andrea for taking a lead position and attempting to build our party, which was our mandate as a party. However, quantity should not be the most important measurement. We have many new members who have been recruited by Andrea and share her passion for racial and social equality as the number one issue, the majority of them in newly formed chapters. What surprises me is that the majority of these same individuals, ones who haven't been in our party for more than a year, decided to recall a long time champion of Green Party values, the majority without explanation! So you join a political party after disliking the previous establishment one, join hands with one co-chair and then go after the other? This very much feels like a coterie led by Andrea. Maybe it's not, but it

sure is suspicious when the recall could have waited until after the election.

I don't feel comfortable with the new direction of the party by only focusing on one or two key values and then using them against their own party members. There has to be some discussion on our focus, mission, sensitivity to others, and racism. I don't believe electing interim co-chairs will solve this or bridge us to that point. I prefer no co-chairs until out next annual meeting. Personally I wish Andrea will consider stepping down so we can begin a healing process and then decide later who we want to lead us. Reading her previous comments I understand this is unlikely to happen. However, I believe it is the right move and Agree with this proposal.

I don't want to circumvent the process here but it looks pretty certain that this proposal will not pass and if I'm not mistaken the week of voting will be over after tomorrow. Can we call a truce in the interest of a get out the vote effort since the election is only two weeks away? I would like to revive the nomination process for the co chair vacancy as well and I have nominated Arn Menconi on the private council discussion page.

Andrea can we get an update on Jill's campaign since you're the Southwest campaign manager? Are there any events in the works for Jill's campaign or for our Colorado candidates? Can we get calling lists from Nationbuilder? Myself, Carolyn Bninski, Susan Hall, and Tom Hall have done phone banking recently and I'm sure we would all be willing to make more calls if we could get new lists.

Thank you.

The Green Party in Colorado has devolved into a power struggle for nothing while the issues for Coloradans to increase minimum wage, universal healthcare, antifracking measures and candidates like [Robert Lee Worthey](#) [Jenice JJ Dove](#) and myself go undressed.

I've seen this happen before in politics and we've seen it with Debbie Wasserman Schultz and Hillary. The Colorado Green Party's Co Chair will come after me next through other people who have no clue what is happening.

I'll stand by what I've done to further the cause. All anyone has to do is look at what hasn't happened to growing the Green Party, working for Progressive ballot initiatives and candidates while wanting to recall a Co Chair instead of working for truth and justice.

After this election is over I'll be [#GreenExit](#) ing and continuing to do the work that I've stood by for the past 25 years for voices that aren't being heard.

If you don't like the job I've done as a candidate regarding what is really happening in our country as to how we are being lied to death by endless wars, global warming, inequality gap, racial injustice through the hands of the Global Corporate Mafia, I'll step down now and continue the fight for Jeffrey Sterling who's dying in a jail.

I'm certainly imperfect but as I've taught SOS kids, "don't let your imperfections stop you from fighting for others."

The silence speaks volumes. I can't fight for many with others who are fighting each day, but I won't fight for those that are fighting for themselves.

Now I'm going back to the few hours left I have for my kids before I don't have them for two week.

Remember to fight for Truth Justice and I forgot the third one:)

Evan R. Herzoff That co-chair you mentioned, and a couple of that co-chair's cohorts, are the only reason I've been so reluctant to support the Green Party in recent years. I think what you are doing by speaking up is a brave step

toward real integrity, a demonstration of accountability and therefore the opposite of irresponsible, and it has been needed for a long time. The co-chair mentioned has alienated the working masses in Colorado far more than allowing the truth to be known. It isn't factional infighting nor sectarianism, it is an expression of true commitment to building a better alternative to the two corporate parties, a building process that has long been obstructed by that particular co-chair. A genuinely accountable alternative is a better alternative. A bogus facade of unity won't win the true support of the masses, a display of integrity and commitment to accountability will. After all, bogus displays of unity has been the Democrats' disingenuous tactic in duping the working class and the oppressed into voting our way into the graveyard of social movements for decades. A left third party can't afford to make that same mistake.

Hey there...I see there's a proposal to recall me on the council forum. Did you vote to support that in the Jeffco meeting?

October 18

Andrea Mérida Cuéllar

I'll take the non-response as a yes.

10/18, 2:58pm

Scott Lupo

Hi Andrea,

Our chapter did decide to sponsor the proposal after some long discussions, including potential consequences. It was convincing to me that attempting to recall Bill was ill advised and now has caused a schism in the party. Censure would have been appropriate in my mind and then have discussions about recall/elections on co-chairs after the election. But that's done. Now, of course, the spotlight will fall on the other co-chair, that being you. To be honest, I do not like the direction our state party is going and it is time to re-evaluate what our goals and mission are because it's gone off the rails during this election season. Our leadership has been lacking in internal communication, cooperation, messaging to the world, onboarding new Green members, and fostering a sense of community. This last one being one of the most important, especially for me. Don't get me wrong, I know everybody is human and squabbles are going to happen but it's out of control with name calling and outrageous accusations built on hyperbole and scant evidence. Here we are 20 days out and the Colorado Green Party is lost. It is convincing to me that we should have no co-chairs at this time and rely on direct democracy instead of representative democracy until we get our affairs in order. I guess that can be called a recall, but mostly it's just necessary.

10/18, 3:11pm

Andrea Mérida Cuéllar

Here's the problem. The proposal to recall Bill was not mine. Neither did Denver co-sponsor. If you preferred censure, why didn't you ask for that amendment within agreement seeking?

What exactly about the direction don't you like? I have bent over backward to assist you, communicate, loop you in when Michael would not. And what exactly does the onboarding process for new members actually look like in Jeffco?

Do you realize that of the 7 new and in-formation chapters, 6 have been directly developed by me, and they include nearly all former Sanders supporters? What kind of outreach are you looking for, exactly?

I have done nothing but support you and treat you with respect. You didn't extend me the same courtesy. You have accepted accusations and hyperbole about me without even asking me if any were true...in fact, there have never been any specific accusations! And I have to say, the fact that you would show up to a BLM rally in January and then sidestep racist and sexist speech is hypocritical. You personally have endorsed such behavior by your actions, and you have therefore also said it's ok for a man to physically threaten a woman.

So I guess if that's the direction you're looking for, then you're right. We do need a change. You might start by advocating for democracy within the Jeffco chapter and calling for co-chair elections as you committed to do.

You blame me for all the things that you refuse to hold Bill accountable for, you sideswipe all the bigoted things he has said and done just in the examples provided, and you don't even give me the respect of asking me what happened.

Why is that? I can only arrive at one conclusion.

Title: **Elephant in the Room #1: ColoradoCare**

Post by: **Harry Hempy** on **December 24, 2016, 12:38:10 PM**

Quote from: Andrea Mérida Cuéllar on October 21, 2016, 02:44:15 PM

I want to call out the elephant in the room, and that's the distress over my personal opinion, which I have shared with many of you, about Amendment 69. I am on the record as personally being opposed. That is offensive to some of you. However, I have never represented my personal opinion as the state opinion, I have never blocked any proposal brought forward, nor have I ever coerced anyone to take on my opinion.

ColoradoCare has, indeed, become an elephant in the room that cannot be ignored. I am understanding that the issue won't go away (we won't have forgiveness and reconciliation) until it is recognized and understood.

[CENSORSHIP in GPCO and the MY GIRL meme are also elephants in the room. To avoid conflating issues, I won't address these elephants in this topic.]

I acknowledge (and confess) that ColoradoCare became a state party issue only because of my actions. Andrea and I have had a personal falling out ever since. She has restricted (not just blocked; restricted) my ability to even read any post she makes on Facebook, does not respond to my emails, and hangs up the phone when I call her.

When I read the misinformation about ColoradoCare in the July 2015 issue of the Denver Green Party newsletter, I immediately asked the newsletter editor [Andrea] to print a correction in the next newsletter. Andrea ignored the request. She has been covering up her misstatements about ColoradoCare ever since and has not yet acknowledged the errors in that newsletter. For example, Andrea still claims that, under ColoradoCare, employees would have to pay more in health care taxes than their employers. See details at <http://gpco.fullydefiant.com/forum/index.php?topic=306.msg1536#msg1536> (<http://gpco.fullydefiant.com/forum/index.php?topic=306.msg1536#msg1536>).

As to Andrea's claims:

Quote from: Andrea Mérida Cuéllar on October 21, 2016, 02:44:15 PM

I have never represented my personal opinion as the state opinion

True. But Andrea represented her personal opinion as the Denver Green Party position in the July 2015 issue of the Denver Green Party newsletter and in the Denver Green Party 2016 Ballot Question Positions document, dated October 23, three days after GPCO Council endorsed Amendment 69.

Quote from: Andrea Mérida Cuéllar on October 21, 2016, 02:44:15 PM

True. And I thank Andrea for that. Council agreed to Proposal 003-16 to endorse Amendment 69 ColoradoCare on October 20, 2016. However, co-chairs [Andrea and Dave Bell], council facilitator [Andrea], and administrator [Andrea] have yet to acknowledge council's agreement to endorse.

Quote from: Andrea Mérida Cuéllar on October 21, 2016, 02:44:15 PM

nor have I ever coerced anyone to take on my opinion.

This is questionable. I felt coerced to drop my resolution to endorse ColoradoCare at the 2015 annual meeting, in an attempt to appease Andrea and produce the appearance of unity at the meeting. I am sorry I acquiesced. Here we are, 18 months later, with an elephant in

the room.

I was OK with Andrea's suggestion, dated September 9, to present balanced pro and con arguments and let the voters decide:

Quote

let's issue a **pro/con** document that will help voters decide.

So I felt betrayed when I read Andrea's hatchet job against ColoradoCare in the Denver Green Party's voter guide for 2016 ballot initiatives. The article contained two con arguments and no pro arguments. The con arguments from the July 2015 Denver Green Party newsletter disappeared without explanation and were replaced by two new con arguments, as follows:

Quote

public funding for abortions is not covered

and

Quote

there is too much potential for unintended consequences with the fact that the oversight board cannot be recalled

These con arguments should be rejected.

To argue that ColoradoCare should be opposed because the state constitution (since 1984) forbids use of public funds for abortions makes as much sense as arguing that public funds should not be used for abortions because of Roman Catholic dogma proscribing abortions and artificial birth control. If we don't like the state constitution's ban on public funds for abortions, let's change that provision of the constitution. Taking it out on ColoradoCare is ridiculous.

The argument that 'the oversight board cannot be recalled' is a holdover from the initial misunderstandings at the June 2015 Denver Green Party meeting. Specifically, Denver Greens were told that ColoradoCare elections would be held under the auspices of the Colorado Secretary of State. This is not true and Andrea has never advised Denver Green Party members of this untruth.

If ColoradoCare had passed, Coloradans would have had the opportunity to create an election system open to all adult residents, not just electors registered with the secretary of state, featuring ranked choice voting and single transferable vote protocol that would produce a modicum of proportional representation (given that ColoradoCare districts would each have three representatives) on the governing board. There would have been potential for Greens to be elected. The secretary of state would have had no authority to derail the system.

ColoradoCare would have been a win for oppressed people in Colorado. *Comparing ColoradoCare - An Analysis of Health Care Costs for Latino and Immigrant Coloradans*, is a detailed intersectional analysis from the Colorado Fiscal Institute, dated June 2016. The study concluded that Hispanic households in Colorado will see large gains from ColoradoCare. We missed a great opportunity to improve the health care that ethnic minorities, women, children, and low-wage employees receive in Colorado. This was a missed opportunity for Latinx outreach.

As a Roman Catholic, Andrea surely understands that forgiveness is part of a process that includes confession, penitence, and reconciliation. Every religion and self-help program has the same process in one form or another. One characterization is, "No justice? No peace!"

To move forward, for justice with peace, Andrea must acknowledge her actions vis a vis ColoradoCare, as follows:

1. Andrea attempted to cover up her misstatements about ColoradoCare made at the June 2015 Denver chapter meeting.
2. Andrea attempted to cover up her misstatements about ColoradoCare made in the July 2015 Denver chapter newsletter.
3. Andrea retaliated against Harry's post of pro ColoradoCare points by banning him from the state website, without notifying Harry, without consulting with the steering committee, without consulting with council, and in violation of state party bylaws on due process for members.
4. Andrea attempted to cover up her action against Harry by secretly restoring Harry's access to the website (on November 23, 2016), without notifying Harry, the steering committee, or council.

When Andrea acknowledges these actions, I will be able to forgive and move on toward reconciliation and party unity.

Harry, I am writing to address some of the last few posts and comments you have added to the forum recently.

The current forum Code of Conduct states, "Refrain from using ALL CAPS (shouting), profanity, belittling, accusations, and threats." On a recent post, you responded using profanity and an extremely irritable tone.

The code also states, "Personal attacks will not be tolerated. Report personal attacks for moderation. Do not allow personal attacks to escalate."

Your recent posts focused on one individual are excessive and now are at the level of personal attacks. This type of personal attack will not be tolerated. Therefore, they will be deleted, as they are unrelated to any current or pending state council business. Any further breaches of the Code of Conduct will result in a suspension of your privileges for using the forum.

Title: **Elephant in the Room #2: MY GIRL Meme**

Post by: **Harry Hempy** on **January 03, 2017, 05:41:31 PM**

Elephant in the Room #2: MY GIRL Meme

Andrea Merida's failure to acknowledge her misstatements about ColoradoCare in June 2015 and her subsequent efforts to cover up her misstatements are addressed in Elephant in the Room #1: ColoradoCare. <http://gpcO.fullydefiant.com/forum/index.php?topic=311.0>

But there is an older and larger elephant in the room that is dividing the Green Party of Colorado along demographic lines. Unknown to almost all Colorado Greens, the accusations of sexist and racist attitudes that are tearing the state party originated in discussion of the MY GIRL meme in early 2015. (Ref 1)

To get to the crux of the party's divisions, GPCO needs to understand we have been in a shit fight over FEMINISM ever since Andrea took the position that

Quote

Men have no right to inject their opinions in Green discussions of feminism.

and told the men to "butt out".

Andrea's interpretation of the Green Party's eighth key value, Feminism and Gender Equality, to exclude males from discussions is mind-blowing. Andrea has never explained how she can interpret our values of FEMINISM and Gender Equality to exclude people of a certain gender. She has never even acknowledged she made the statement.

The party must resist exclusionary practices, such as banning men from discussing FEMINISM.

Ref 1: MY GIRL Meme:

Discussion of the MY GIRL meme on the GPUS discussion group on Facebook in early 2015 spawned a fight in the Green Party of Colorado that continues to this day, including calls to impeach both state co-chairs based on mutual accusations of sexual and racial bigotry. The fight has been studiously ignored by the state party. It is time to expose the issues raised by the MY GIRL meme.

It was early 2015. Greens were reviewing a series of memes on the GPUS Facebook discussion group for potential use in the Jill Stein campaign for President. One meme was a great picture of Dr. Stein with a short quote and the words "MY GIRL" in bold type across the bottom of the meme.

A Green from New York, I think, commented that referring to Jill as a girl was marginalizing. The predominant reaction was negative, on the basis that the meme could easily be attacked as sexist.

I commented that I liked the meme because it had high production values, was attention getting in its simplicity, and thought provoking.

Andrea Merida also liked the MY GIRL meme. She commented that calling a woman "girl" was just fine in her community; "girl" was used as a term of endearment.

Two or three Greens, who happened to be male, challenged Andrea's position and Andrea then responded with this startling interpretation of the eighth key value, Feminism and Gender Equality:

Quote

I respectfully request the males to butt out of this discussion. Men have no right to inject their opinions in Green discussions of feminism.

The discussion quickly devolved into an profane barrage of sexist and racist accusations and counter accusations. Colorado Greens Andrea Merida, myself, and state co-chair Bill Bartlett participated in this shit fight. The discussion was such an embarrassment to the party that Facebook administrator, Starlene Rankin, promptly removed the entire discussion.

Title: **Due process for revoking Harry Hempy's right to participate on party website**
Post by: **Harry Hempy** on **November 03, 2016, 04:06:04 AM**

On October 30, 2016 I was unable to access the ColoradoGreenParty.org website.

On November 1 I phoned the registered tech support number for ColoradoGreenParty.org and was told the Green Party of Colorado had revoked my right to participate on ColoradoGreenParty.org because I habitually troll the website.

I contest this characterization as a troller (whatever that means) on ColoradoGreenParty.org or any party-owned social media.

Paragraph 3.3 of the party bylaws guarantees due process to every individual in the party before being kicked out, including at least 3 weeks notice of the potential punitive action. I received no notification before my access was cut off.

After the election is over I will solicit from GPCO Council a written notification of the revocation of my rights of participation on party's website and the party's justification for taking this action. I want an opportunity to speak in my defense at the earliest feasible date.

My access was revoked by the Administrator of the GPCO Website ColoradoGreenParty.org. According to the GPCO Forum member list and Whois.com the administrator of record is Andrea Merida. If it was not Andrea, that site has been hacked.

I received no complaints about my behavior as a Green from GPCO Council, so on Nov. 30, I submitted a proposal to Council for drafting and discussion (hidden from general party members) to prevent Andrea Merida from abusing her position as website administrator in

the future.

The text:

Quote

WHEREAS,
The Green Party of Colorado has revoked Harry Hempy's access to ColoradoGreenParty.org, the official public website of the Green Party of Colorado,

THEREFORE,
GPCO Council takes the following actions:

1. GPCO Co-chair, Secretary, and Treasurer positions are declared vacated, effective immediately and will remain vacant until party elections are held at the 2017 Annual Meeting.
2. GPCO Council will form a select committee, charged with planning and conducting the 2017 GPCO Annual Meeting, within 15 days of adoption of this proposal. The annual meeting will occur between February 1 and March 26, 2017.
3. Accusations that Harry Hempy has misused GPCO social media, described in **4. Background** of this proposal, are dismissed. Harry's access to ColoradoGreenParty.org and all GPCO social media shall be restored, effective immediately.

Andrea UNblocked me from the state party website immediately after I posted this proposal. That is the good news.

Unfortunately, Council did not address the due process issues and bylaws violations issues raised in the proposal.

I remain concerned that Council was silent regarding Andrea's dominant position over the Green Party of Colorado, which enables her to secretly block anybody's access to party assets with no justification and no accountability to Council.

Council, I invite your critique of this draft proposal and your suggestions for improvement before it is submitted for agreement-seeking. Thanks for your input, Harry
(303-459-0172)

1. Basic Info:

Date proposed: November 23, 2016
Name of the sponsor(s): Harry Hempy, TBD

2. Title: Resolution of **403: Forbidden** error on ColoradoGreenParty.org

3. Text of the actual proposal:

WHEREAS,
The Green Party of Colorado has revoked Harry Hempy's access to ColoradoGreenParty.org, the official public website of the Green Party of Colorado,

THEREFORE,
GPCO Council takes the following actions:

1. GPCO Co-chair, Secretary, and Treasurer positions are declared vacated, effective immediately and will remain vacant until party elections are held at the 2017 Annual Meeting.
2. GPCO Council will form a select committee, charged with planning and conducting the 2017 GPCO Annual Meeting, within 15 days of adoption of this proposal. The annual meeting will occur between February 1 and March 26, 2017.
3. Accusations that Harry Hempy has misused GPCO social media, described in **4. Background** of this proposal, are dismissed. Harry's access to ColoradoGreenParty.org and all GPCO social media shall be restored, effective immediately.

4. Background:

On October 30, 2016 I, Harry Hempy, was unable to access the ColoradoGreenParty.org website. I received a **403: Forbidden** error from HostGator, the company hosting ColoradoGreenParty.org.^{Ref. 1} The HostGator customer service representative told me the site was operating normally and gave me the registered tech support number for problems on ColoradoGreenParty.org.

On November 1 I phoned tech support for ColoradoGreenParty.org and was told the Green Party of Colorado had revoked my right to participate on ColoradoGreenParty.org because I habitually troll the website.

On November 9 I asked all Council members for evidence they may have of trolling behavior by me. I received 2 responses:

Quote

This is the first I'm hearing of this. I have no specific examples of anything you have done wrong. You should be reinstated immediately.

Quote

I have been trying to keep up-to-date on new posts and I have NOT seen ANY trolling by you. Trolling is not just following, but posting harmful items repeatedly. Someone in an admin position is seriously abusing this system.

I also searched my mail log, going back to May 1, 2013 when I affiliated with the Green Party of Colorado. There is only one mention of trolling, in this email from a Co-chair of the Denver Green Party:

Subject: Re: Denver Green Party Meeting Notes for June 2015 - ColoradoCare

Harry, I want to let you know that I deleted your pro-Initiative 20 comment from the Denver Greens page.

You know, from reading our notes, that we are contemplating a no position. Yet, you chose to impose your opinion on our chapter, now twice today.

You have already been asked to not insert yourself into the workings of our chapter. Your posting of a comment is disrespectful to our process, and it is conduct that should not happen between co-chairs. I will thank you for refraining to overstep your bounds and inserting yourself into our chapter business in this way.

I need to let you know that if you continue to impose your will (**aka troll**) on our page, I will ban you from the page.

You and I have already discussed that our position was going to be different from yours, and as you will notice, I have not posted anti-Initiative 20 remarks on your social media.

I am taken aback by your repeated disregard for the collaborative nature in which I have always interacted with you. Please respect my wishes and stay in your lane.

As this email says I "imposed by opinion" twice. First, I sent a reply to the Denver Greens Newsletter editor, to point out errors in the discussion of Initiative 20 (aka, ColoradoCare and Amendment 69) at the June 2015 meeting of the Denver Greens.

Quote

The discussion of Initiative 20 in the July 2015 issue of the Denver Greens newsletter has several errors. Please publish a correction in the next newsletter. My corrections are in **bold type**.

Quote

Initiative 20: ColoradoCare
A proposed ballot initiative to create an elected board of 21 to oversee implementation of the Affordable Care act. The work of this implementation will be paid for by both employee and employer payroll taxes, with the weight borne more by the employee. **WRONG: 2/3 is paid by the employer**. The interim board will be appointed by Governor Hickenlooper, **WRONG: 5 people appoint the interim board**. and presumably, candidates will be subject to campaign finance limits and regulations required by the Secretary of State. **WRONG: The state does not control ColoradoCare elections**.

I phoned the Denver Greens Newsletter editor and it was immediately obvious that no retraction would be published. So I posted this comment on the Denver Greens Facebook page, which the administrator promptly deleted:

Quote

Initiative 20 would establish a people's cooperative named ColoradoCare to provide comprehensive, universal health care coverage in Colorado. Main features:

- Comprehensive health care financing for ALL Colorado residents (not just US citizens).
- Eliminates the need for private health insurance; puts people's health before corporate profits.
- Saves Coloradans \$5B per year in health care costs.
- The tax structure is progressive, because unearned income is taxed.
- A 15-member interim board, appointed by the 2 CO House leaders, 2 CO Senate leaders and the governor, will define a non-partisan election system, not subject to CO election statutes, for an elected ColoradoCare Board of Trustees.

5. Justification/Goals:

1. Justification for restoring Harry's access to ColoradoGreenParty.org.

- To claim that Harry's post on the Denver Greens Facebook page represents a failure to adhere to the purpose and methods of the Green Party of Colorado, is laughable. The claim should be rejected out of hand.

2. Justification for declaring GPCO Co-chair, Secretary, and Treasurer positions to be vacated:

- Under the current leadership, Council has not acted on the party's strategic projects and needs for the 2016 election cycle.

Quote

The following projects and needs were identified at the 2015 GPCO Annual Meeting:^{Ref 2}

Strategic Projects:

- Create a tactical committee to collect and analyze data for "vulnerable" state-wide and local elected positions make recommendations to Council.
- Revise mission statement in the bylaws with a clear and succinct statement of our purpose mission.
- Use NationBuilder as a centralized database of registered Greens in Colorado to facilitate better coordination and support between the state party and local chapters.

Identified needs:

- Budget for 2016 election cycle and fund-raising
- Political director
- Campaign manager(s)
- Brain trust of Greens who have served in public office or run for public office who can support new candidates

- GPCO Committees and Working Groups have done nothing since the 2015 Annual Meeting.
- Authority and participation in GPCO is too centralized.

Since the 2015 Annual Meeting, participation in party governance has contracted. The following Green Party positions in Colorado are all held by the same person:

- GPCO Co-chair
- ColoradoGreenParty.org Website Administrator
- ColoradoGreenParty.org Website Tech Support
- GPCO Council Facilitator
- Denver Greens Co-chair
- Denver Greens Newsletter editor
- Denver Greens Administrator

- GPCO officers are not acting in an accountable manner.
 - A GPCO officers have taken punitive actions against other party officers and party members without consulting Council and in violation of bylaws paragraph 3.3.
 - Revoking Harry's access to ColoradoGreenParty.org is an example of rogue action by a GPCO Co-chair.

3. Justification for forming a select committee to plan and conduct the 2017 GPCO Annual Meeting, to be held between February 1 and March 26, 2017.

- GPCO typically forms a committee to prepare for an annual meeting.
- The 2016 election cycle is finished. Now is the time to start the 2018 cycle, beginning with the 2017 Annual Meeting. The purpose of this annual meeting of the general membership is to elect new state party officers and adopt a strategic plan for the 2018 cycle.
- The 2017 Annual Meeting should be held as early is feasible to get a good start

on the 2018 cycle. Democrats and Republicans hold their meetings in February or March; the Green Party should do the same. Delaying the odd-year annual meeting to August, as the party has been doing in recent years, puts the party six months behind.

6. Pros and Cons:

Andrea Merida has apparently had it in for me since July 16, 2016 when I pointed out the misinformation about ColoradoCare that was presented as fact at the June 2015 meeting of the Denver chapter.

She neither retracted nor corrected the misinformation at any meeting of the Denver chapter or in the Denver Greens Newsletter.

People need to be accountable for their actions. Andrea has never acknowledged her early misunderstanding of ColoradoCare.

7. Alternatives to the proposal:

Initiate the process of revoking Harry Hempy's right of participation as a member of the Green Party of Colorado.

Per bylaws paragraph 3.3, the process begins with notifying Harry of the potential revocation of his rights of participation at least three weeks prior to the vote. Revocation of the rights of participation must be based on failure of the individual to adhere to the purpose and methods of the Green Party of Colorado.

Title: Proposal 002-17: Amend GPCO Bylaws to Clarify Two Year Term of Office
Post by: Andrea Mérida Cuéllar on March 12, 2017, 02:25:05 PM

Please read the proposal and keep comments on the topic of the proposal only. This proposal is moderated, and the GPCO Code of Conduct will apply (located here: <http://gpco.fullydefiant.com/forum/index.php?topic=28.0>).

Designate your vote by using the following terms: AGREE, BLOCK, or STAND ASIDE. Any blocks will require a vote of the council.

Per Section 3.1 of the GPCO Bylaws, "A Green local must present its proposed bylaws for approval, and be approved by 60% of the voting Greens at a state party meeting, or by the state council."

There are currently twelve (12) active voting chapters in the Green Party of Colorado. Adoption of this proposal requires an AGREE of at least 60% of all votes cast and also requires a minimum quorum of at least one response from seven (7) chapters.

Active Chapters
Jefferson County
Adams County
Arapahoe County
Denver
Douglas County
Greater Boulder
Pikes Peak
Poudre Valley
Mesa
San Miguel
Platte Valley

The floor is now open for one week of Agreement Seeking, ending March 19, 2017 at 11.59 pm.

1. Basic Info

Date proposed: March 12, 2017
Name of the sponsors: Greater Boulder Green Party

2. Title:

Amend GPCO Bylaws to Clarify Two Year Term of Office

3. Text of the actual Proposal:

To clarify officers term of office and remove obsolete material, the Bylaws of the Green Party of Colorado shall be amended as follows.

Replace Section 5.1 which currently reads, "In order to serve the growth of the GPCO and to communicate our message, platform and values to the public, the GPCO will elect two state co-chairs to two year terms. Every effort shall be made to reach gender and geographic diversity." with the following text:

Quote

Officers shall be chosen at each annual state meeting held in odd number years to two year terms. The term of office begins immediately upon election and ends with the election of officers at the next odd year annual meeting. Every effort shall be made to reach gender and geographic diversity.

Delete Section 5.7 in its entirety. The section currently reads, "Co-chairs shall be chosen at each annual state meeting and other officers in odd number years to serve two year terms in office." This section is obsolete because co-chairs now serve two year terms.

4. Background:

Greater Boulder Green Party seeks to clarify the length of service of the co-chairs.

5. Justification/Goals:

Historically, terms of GPCO officers have run from annual meeting to annual meeting. This amendment simply codifies past practice, going back at least to 2007. An explicit reference to the co-chair term in the minutes from the state meeting in 2007 can be found at <http://coloradogreenparty.org/about/history/gpco-2007-state-meeting-minutes/>.

The meeting was held June 23-24, 2007, in Carbondale, Colorado. On Saturday, June 23, after a decision to change the co-chair terms from two years (which they were at that time) to one year, the following is found in the meeting minutes.

Quote

11:15 a.m. Election of new state officers and national delegates and selection of webmaster and e-list manager Tom Kelly of the Arapahoe Greens and Dave Chandler of the Adams-Jefferson Greens volunteered to become co-chairs for the 07-08 term.

Agreement seeking resulted in a consensus for Kelly and Chandler as state co-chairs for approximately one year, beginning June 23 and until the next annual state meeting.

Dan Sage of the Arapahoe Greens volunteered to continue as state treasurer for the 07-09 term.

Agreement seeking resulted in a consensus for Sage as treasurer for approximately two years, beginning June 23 and until the annual state meeting of 2009.

Eric Fried of the Poudre Valley Greens volunteered to become state secretary for the 07-09 term.

Agreement seeking resulted in a consensus for Fried as secretary for approximately two years, beginning June 23 and until the annual state meeting of 2009.

This is an explicit description of a one-year term being approximately one year from the date of the election to the date of the following year's meeting. It is also an explicit description of a two-year term being approximately two years from the date of the election to the date of the meeting two years hence. Although the co-chair terms were reduced from two years to one year, the other offices continued with two-year terms, so both the one-year term and the two-year term are described in the minutes. The description of the term length is repeated for each office, so it does not seem to be a typo.

The 2008 meeting was held on May 3, so the nominal one-year term from the 2007 meeting (June 23) to the 2008 meeting (May 3) was approximately ten and a half months. The 2009 meeting was held in July by teleconference, no specific date available on the history page, so the nominal two-year term from the 2007 meeting (June 23) to the 2009 meeting

(sometime in July) was several weeks longer than two years.

6. Pros and Cons:

Pros: There is no precedent for setting the annual meeting date based on the date the current officers were elected. Delaying the annual meeting, so as to put the desire of an officer to serve 24 months ahead of the needs of the party to organize for the 2018 election cycle, hurts the party's prospects for the 2018 election.

Cons:

7. Alternatives to the proposal:

Ok, now that this proposal has been blocked, I have moved it to the Voting page, here: <http://gpcoco.fullydefiant.com/forum/index.php?topic=322.0>

Please note that any votes cast here will not be counted. They must be cast at the link above.

I will be turning off comments here if there is confusion.

Thanks.

Per Section 3.1 of the GPCO Bylaws, "A Green **local** must present its proposed bylaws for approval, and be approved by 60% of the voting Greens at a state party meeting, or by the state council."

Isn't this a clarification of the state by-laws, not a local chapter's by-laws?

Andrea,

There is definitely confusion, on a couple levels.

1. The content of bylaws section 5.7 is unclear. According to proposal 007-15 the text
Evidence

should be

Quote

5.7 Officers shall be chosen in odd numbered years to serve two-year terms in office.

But the copy of the bylaws on the GPCO website reads

Quote

5.7 Co-chairs shall be chosen at each annual state meeting and other officers in odd number years to serve two year terms in office.

2. The proposal you posted here is different from the proposal on the Proposal Drafting board that GBGP agreed to sponsor. You summarily censored the background section that explained the reason for the proposal. I'm confused that you think you have the authority to censor other people's proposals.

For these reasons, I propose an amendment to this proposal to replace the entire Text of the proposal with the following:

Quote

5.7 Officers shall be chosen at each odd-year annual meeting to serve two-year terms, ending at the next odd-year annual meeting.

This change to 5.7 will resolve the confusion about the wording of 5.7 in the current bylaws and clearly establish that officers terms run from odd year annual meeting to odd-year annual meeting.

Larry,

I would ask you to reconsider your block.

Bylaws section 5.7 clearly states

Quote

5.7 Co-chairs shall be chosen at each annual state meeting

This is obviously wrong because Co-chairs serve two-year terms, per section 5.1.

If you don't like my wording for fixing section 5.7:

Quote

5.7 Officers shall be chosen at each odd-year annual meeting to serve two-year terms, ending at the next odd-year annual meeting.

please propose an alternative sentence that makes it clear that officer elections occur only in odd numbered years.

Post by: **Andrea Mérida Cuéllar** on **March 13, 2017, 11:54:34 AM**

I can see what part of the issue is, here. The bylaws were never updated to reflect the change from the passage of Proposal 007-15, which was actually passed before I became co-chair and before Sean Friend became secretary.

<http://gpcoco.fullydefiant.com/forum/index.php?topic=251.0>

The bylaws now say the following:

V. Officers

5.1 In order to serve the growth of the GPCO and to communicate our message, platform and values to the public, the GPCO will elect two state co-chairs to two-year terms.

Every effort shall be made to reach gender and geographic diversity.

5.7 Officers shall be chosen in odd numbered years to serve two year terms in office.

This reflects your amendment back then too.

And given the above reply by Andrea, I will keep my block in place. The language disagreement at issue here seems to have been cleared up by Proposal 007-15, and I therefore see no reason to reconsider my block.

Post by: Andrea Mérida Cuéllar on March 12, 2017, 02:41:09 PM

Please read the proposal and keep comments on the topic of the proposal only. This proposal is moderated, and the GPCO Code of Conduct will apply (located here: <http://gpco.fullydefiant.com/forum/index.php?topic=28.0>).

From the Bylaws, "4.3 All decisions concerning policy, finance, and objectives shall require consensus or a vote of at least 60% of the membership present at a state meeting and/or the Council."

As Agreement Seeking has failed and a BLOCK was communicated, please designate your vote by using the following terms: **YES or NO**.

There are currently twelve (12) active voting chapters in the Green Party of Colorado. Adoption of this proposal requires an AGREE of at least 60% of all votes cast and also requires a minimum quorum of at least one yes or no response from seven (7) chapters.

1. Basic Info

Date proposed: March 12, 2017
Name of the sponsors: Greater Boulder Green Party

2. Title:

Amend GPCO Bylaws to Clarify Two Year Term of Office

3. Text of the actual Proposal:

To clarify officers term of office and remove obsolete material, the Bylaws of the Green Party of Colorado shall be amended as follows.

Replace Section 5.1 which currently reads, "In order to serve the growth of the GPCO and to

communicate our message, platform and values to the public, the GPCO will elect two state co-chairs to two year terms. Every effort shall be made to reach gender and geographic diversity." with the following text:

Quote

Officers shall be chosen at each annual state meeting held in odd number years to two year terms. The term of office begins immediately upon election and ends with the election of officers at the next odd year annual meeting. Every effort shall be made to reach gender and geographic diversity.

Delete Section 5.7 in its entirety. The section currently reads, "Co-chairs shall be chosen at each annual state meeting and other officers in odd number years to serve two year terms in office." This section is obsolete because co-chairs now serve two year terms.

4. Background:

Greater Boulder Green Party seeks to clarify the length of service of the co-chairs.

5. Justification/Goals:

Historically, terms of GPCO officers have run from annual meeting to annual meeting. This amendment simply codifies past practice, going back at least to 2007. An explicit reference to the co-chair term in the minutes from the state meeting in 2007 can be found at <http://coloradogreenparty.org/about/history/gpco-2007-state-meeting-minutes/>.

The meeting was held June 23-24, 2007, in Carbondale, Colorado. On Saturday, June 23, after a decision to change the co-chair terms from two years (which they were at that time) to one year, the following is found in the meeting minutes.

Quote

11:15 a.m. Election of new state officers and national delegates and selection of webmaster and e-list manager Tom Kelly of the Arapahoe Greens and Dave Chandler of the Adams-Jefferson Greens volunteered to become co-chairs for the 07-08 term.

Agreement seeking resulted in a consensus for Kelly and Chandler as state co-chairs for approximately one year, beginning June 23 and until the next annual state meeting.

Dan Sage of the Arapahoe Greens volunteered to continue as state treasurer for the 07-09 term.

Agreement seeking resulted in a consensus for Sage as treasurer for approximately two years, beginning June 23 and until the annual state meeting of 2009.

Eric Fried of the Poudre Valley Greens volunteered to become state secretary for the 07-09 term.

Agreement seeking resulted in a consensus for Fried as secretary for approximately two years, beginning June 23 and until the annual state meeting of 2009.

This is an explicit description of a one-year term being approximately one year from the date of the election to the date of the following year's meeting. It is also an explicit description of a two-year term being approximately two years from the date of the election to the date of the meeting two years hence. Although the co-chair terms were reduced from two years to one year, the other offices continued with two-year terms, so both the one-year term and the two-year term are described in the minutes. The description of the term length is repeated for each office, so it does not seem to be a typo.

The 2008 meeting was held on May 3, so the nominal one-year term from the 2007 meeting (June 23) to the 2008 meeting (May 3) was approximately ten and a half months. The 2009 meeting was held in July by teleconference, no specific date available on the history page, so the nominal two-year term from the 2007 meeting (June 23) to the 2009 meeting (sometime in July) was several weeks longer than two years.

6. Pros and Cons:

Pros: There is no precedent for setting the annual meeting date based on the date the current officers were elected. Delaying the annual meeting, so as to put the desire of an officer to serve 24 months ahead of the needs of the party to organize for the 2018 election cycle, hurts the party's prospects for the 2018 election.

Cons:

7. Alternatives to the proposal:

Voting on this proposal is premature.

The proposal needs to be amended because bylaws changes passed in proposal 007-15 never got put into the bylaws correctly. Section 5.7 currently reads

Quote

5.7 Co-chairs shall be chosen at each annual state meeting . . .

This is obviously incorrect.

Refer to <http://gpcoco.fullydefiant.com/forum/index.php?topic=321.msg1708#msg1708> for the amendment to fix section 5.7.

Andrea, you were able to fix the part about the relevant section and the local versus state, after I pointed it out. Perhaps you can change the wording of the proposal to clear up this additional confusion that has surfaced. Considering the level of interest in this proposal, I think it is bound to end up in voting no matter what the wording is, so perhaps we should work on getting it right in this folder.

I'll modify the proposal in voting with your text. I simply took what you originally submitted.

EDIT: I've modified the bylaws to reflect the change ratified with 007-15. I will not modify the proposal language, because it contains hyperbole.

To be clear, this is my text:

Quote from: Harry Hempy on March 13, 2017, 04:13:12 AM

5.7 Officers shall be chosen at each odd-year annual meeting to serve two-year terms, ending at the next odd-year annual meeting.

OK. I see the newly published bylaws on the website. I agree that the changes from proposal 007-15 are incorporated correctly and that sections 5.1 and 5.7 no longer conflict. So there is no need for changes to section 5.1.

But now the words "at each annual state meeting" are missing from section 5.7 and need to be reinserted. This is because proposal 007-15 inadvertently deleted the part about state party officers being chosen at annual meetings. I take full responsibility for the mistake because I submitted the wording for section 5.7 and accidentally deleted too many words.

This is the text to be voted on:

Quote

5.7 Officers shall be chosen at each odd-year annual meeting to serve two-year terms, ending at the next odd-year annual meeting.

Post by: **Andrea Mérida Cuéllar** on **March 13, 2017, 03:58:56 PM**

Harry, here's what I understand that you want this proposal to say:

Quote

3. Text of the actual Proposal:

To clarify officers term of office and remove obsolete material, the Bylaws of the Green Party of Colorado shall be amended as follows.

Replace Section 5.1 which currently reads, "In order to serve the growth of the GPCO and to communicate our message, platform and values to the public, the GPCO will elect two state co-chairs to two year terms. Every effort shall be made to reach gender and geographic diversity." with the following text:

Officers shall be chosen at each annual state meeting held in odd number years to two year terms. The term of office begins immediately upon election and ends with the election of officers at the next odd year annual meeting. Every effort shall be made to reach gender and geographic diversity.

Delete Section 5.7 in its entirety. The section currently reads, "Co-chairs shall be chosen at each annual state meeting and other officers in odd number years to serve two year terms in office." This section is obsolete because co-chairs now serve two year terms.

If this is true, then this has been captured accurately in the proposal that is now in Voting, and Larry's block stands.

If this is not true, then I'm very sorry, you will have to submit another proposal, and I suggest you withdraw this proposal altogether. We cannot keep massaging the substantive parts of your proposal midstream during voting.

Please advise.

Andrea, Read your own post and my response at <http://gpco.fullydefiant.com/forum/index.php?topic=322.msg1720#msg1720> That is our understanding.

Reneging on your commitment, less than 6 hours old, to modify the proposal for voting is a highly objectionable action. I don't call what you are doing 'facilitation'. But if your intent is to sabotage this proposal by changing bylaws section 5.7 in the middle of voting, making

the text of the proposal obsolete, you are doing an excellent job.

Given the new bylaws, published today, the proposal to be voted on is simply to amend section 5.7 to read:

Quote

5.7 Officers shall be chosen at each odd-year annual meeting to serve two-year terms, ending at the next odd-year annual meeting.

But you have no problem making a substantial change to section 5.7 of the bylaws, the very section to be amended by this proposal, on the first day of voting?

With today's publication of the bylaws on the website, our bylaws no longer require an annual meeting to elect officers. Passage of this amendment simply restores this important requirement.

So my vote is YES, to amend bylaws section 5.7 to read:

Quote

5.7 Officers shall be chosen at each odd-year annual meeting to serve two-year terms, ending at the next odd-year annual meeting.

Veronique,

I respect your decision not to participate in this vote. As a member of the newest local chapter you don't have personal experience to understand the background and motivation for this proposal.

And the proposal itself doesn't give you any background information to explain why the proposal is being presented. Andrea Merida, acting as facilitator for the proposal, censored the background information out of the proposal submitted by the Greater Boulder Green Party (GBGP) because she could not see its relevance.

Here is the censored portion of the GBGP proposal:

Quote

4. Background:

Since the co-chair wars in October 2016 Co-chair Andrea Merida has claimed she is entitled to 24 months in office. Andrea is using her position as council facilitator to block all proposals to have the 2017 annual meeting before she gets her full 24 months in. So now, four months after the 2016 election, GPCO Council is unable to set a date for the meeting because we have not agreed on when our officers' terms expire. All other political parties will have held their annual state meeting by the end of March.

Anyway, the bylaws published Monday (in section 5.7) don't require state party officers to be elected at annual meetings and don't guarantee Green Party affiliates in Colorado a vote for the state party officers. Earlier published bylaws required state officers to be elected at annual meetings, open to all registered Greens in Colorado. This is a clear deficiency in the newly published bylaws.

Passing this proposal to amend section 5.7 to read,

Quote

5.7 Officers shall be chosen **at each odd-year annual meeting** to serve two-year terms, ending at the next odd-year annual meeting.

would restore the original meaning of the section. I think it is important.

Please read the proposal and keep comments on the topic of the proposal only. This proposal is moderated, and the GPCO Code of Conduct will apply (located here: <http://gpcoco.fullydefiant.com/forum/index.php?topic=28.0>). Comments with hyperbolic statements or personal attacks will be edited or deleted.

Designate your vote by using the following terms: **AGREE, BLOCK, or STAND ASIDE**. Any blocks will require a vote of the council.

Per Section 4.3 of the GPCO Bylaws, "4.3 All decisions concerning policy, finance, and objectives shall require consensus or a vote of at least 60% of the membership present at a state meeting and/or the Council."

There are currently twelve (12) active voting chapters in the Green Party of Colorado. Adoption of this proposal requires an AGREE of at least 60% of all votes cast and also requires a minimum quorum of at least one response from seven (7) chapters.

Date proposed: April 7, 2017

Name of the sponsor(s): Poudre Valley Green Party, Adams County Green Party, Mesa County Green Party, Longmont Green Party, Arapahoe County Green Party, Denver Green Party.

2. Title: REGISTRATION REQUIREMENTS FOR VOTING AT GPCO STATE MEETINGS

3. Text of the actual Proposal: **Change section 4.1.1 of the GPCO bylaws to read**

4.1.1. In order for official decisions to be made at a state meeting, a quorum of at least

60% of local chapters must be represented, with a minimum number of voting participants (registered in the Green Party of Colorado not less than 90 days) equal to twice the number of local chapters represented. Exceptions apply to persons who have: become eligible to vote via new citizenship; or have been released from parole and have been re-granted their right to vote; or have recently reached voting age and have subsequently registered with the Green Party within the 90 day window.

For example, at a minimum, if there are 10 official Green Party chapters in Colorado, 6 chapters must be present at the state meeting, totaling 12 individuals.

After the 2017 state meeting, amend Section 4.1.1 to read

4.1.1. In order for official decisions to be made at a state meeting, a quorum of at least 60% of local chapters must be represented, with a minimum number of voting participants (registered in the Green Party of Colorado not less than 180 days) equal to twice the number of local chapters represented. Exceptions apply to persons who have: become eligible to vote via new citizenship; or have been released from parole and have been re-granted their right to vote; or have recently reached voting age and have subsequently registered with the Green Party within the 90 day window.

4. Background: Though never specified in the bylaws or Procedures and Guidelines, tradition has held that a person could register Green on site at the state meeting and be eligible to vote at the meeting that day. This proposal brings order to the situation and provides locals with windows of organizing opportunity to reach out to new registered Greens and conduct orientation as they are able.

Additionally, given the passage of Proposition 108, even with the opt-out clause that parties can choose state assemblies as opposed to primaries for nominations, a lack of clarity around that new law could possibly draw unaffiliated voters to our state nomination conventions. We must ensure the integrity of our Green Party processes, and a minimum of 90 day registration (at first) and later 180 days registration after the 2017 GPCO state meeting, gives local parties a window to reach out to new voters and to provide orientation. The end result would be that our nominations and state party processes would more likely continue to be carried out according to Green values.

5. Justification/Goals: To maintain the integrity of Green values in our party processes.

6. Pros and Cons: A con could be that locals feel pressure to provide orientation for new Greens, but the state party can collaborate with locals to put together periodic webinars, etc. to relieve that pressure.

7. Alternatives to the proposal: No action. This action needs to be decided democratically, as opposed to an ad-hoc rule on site at a state meeting.

8. References: Currently, Section 4.1.1 reads, "4.1.1. In order for official decisions to be made at a state meeting, a quorum of at least 60% of local chapters must be represented, with a minimum number of voting participants (registered in the Green Party of Colorado) equal to twice the number of local chapters represented."

Title: **Re: Proposal 003-17: REGISTRATION REQUIREMENTS FOR VOTING AT GPCO STATE MEETINGS**

Post by: **Kevin Alumbaugh** on **April 09, 2017, 03:38:18 PM**

I'm sorry but I don't see the urgency in this registration requirement especially as it relates to Prop 108. Prop 108 allows unaffiliated voters to vote in party primaries and the GPCO has never had a primary. I don't see how 108 makes it any more likely that unaffiliated voters would try to influence or disrupt our nominating conventions. It has not been a problem in the past. I don't see how this registration requirement brings "order to the situation" or even what that means. There is a credentialing process at every meeting and I can't see how it would be any more orderly with this requirement. I cannot see how this proposal brings more "integrity to Green Party process" and which processes are being referred to. I also cannot see how these requirements make it more likely that our "nominations and state party processes would be more likely continued to be carried out according to Green values."

Would the sponsors of this proposal please elaborate on this and also what is meant by "windows of organizing opportunity."

Thank you.

as a veteran of government for the past 20 years, i think too much regulation can strangle operations.

why not allow a situation to develop in the future where a large voter drive before a state meeting brings in a wave of new members and they begin with an immediate voice in our party? yes, there is a danger of vote-packing by intra-party factions. but i think a permissive attitude to give new party members the franchise -- so long as they have a valid document from their county clerk as to their registration as a Green -- is a wiser course of action.

Two friendly amendments:

1. In this text,

Quote

There are currently twelve (12) active voting chapters in the Green Party of Colorado. Adoption of this proposal requires an AGREE of at least 60% of all votes cast and also requires a minimum quorum of at least one response from seven (7) chapters.

change "seven (7)" to "eight (8).

2. In this text,

Quote

After the 2017 state meeting, amend Section 4.1.1 to read

4.1.1. In order for official decisions to be made at a state meeting, a quorum of at least 60% of local chapters must be represented, with a minimum number of voting participants (registered in the Green Party of Colorado not less than 180 days) equal to twice the number of local chapters represented. Exceptions apply to persons who have: become eligible to vote via new citizenship; or have been released from parole and have been re-granted their right to vote; or have recently reached voting age and have subsequently registered with the Green Party within the 90 day window.

change "90" to "180".

Post by: **Harry Hempy** on **April 14, 2017, 05:09:16 PM**

I have a couple problems with this proposal to create a six-month waiting period for new Greens before voting in state party meetings.

Image: If Council adopts this proposal the Green Party will become the only political party in Colorado to impose voting restrictions on members based on time in the party. This is a terrible image for a party that claims to be a grassroots democracy where everyone has a vote.

Green Registrations: In the years since I affiliated with the Green Party on May Day 2013, GPCO's primary goal has been to grow the number of registered Greens in Colorado. Dave Bell was elected co-chair last fall on a platform of 50,000+ Green Party registrations in two years. (there are currently around 12,000 registered Greens in Colorado)

How will future registration drives turn out when prospective party members are told, "We are a grassroots party; come join us; OH, but you won't get voting rights for six months"? As Art mentioned earlier, annual meetings are an opportunity to bring new people into the party; not turn them away. This is especially true of nominating meetings, where much of the attendance is from candidates' supporters.

In my view, this proposal will damage GPCO's ability to attract new members and function as a grassroots democracy. I would ask the new chapters to consider carefully before taking the party down this path.

BLOCK

The word "block" has a number of meanings, including:

Normal: In organizations that use a consensus process (think of Occupy) a person blocks to force discussion of proposals that they believe are contrary to organization's fundamental mission.

GPCO: In the GPCO agreement seeking process, the word "BLOCK" has been perverted to mean "end discussion". In our process any council member can shut down agreement seeking and end discussion of any proposal.

I posted my reasons for not agreeing with this proposal on April 14. And I cannot bring myself to stand aside and watch the party become more exclusive, more protective of its ideological purity, and more paranoid. The remaining option is to block.

There are currently twelve (12) active voting chapters in the Green Party of Colorado. Adoption of this proposal requires an AGREE of at least 60% of all votes cast and also requires a minimum quorum of at least one response from seven (7) chapters.

1. Basic Info

Date proposed: April 15, 2017

Name of the sponsor(s): Poudre Valley Green Party, Adams County Green Party, Mesa County Green Party, Longmont Green Party, Arapahoe County Green Party, Denver Green Party.

2. Title: REGISTRATION REQUIREMENTS FOR VOTING AT GPCO STATE MEETINGS

3. Text of the actual Proposal: Change section 4.1.1 of the GPCO bylaws to read

4.1.1. In order for official decisions to be made at a state meeting, a quorum of at least 60% of local chapters must be represented, with a minimum number of voting participants (registered in the Green Party of Colorado not less than 90 days) equal to twice the number

of local chapters represented. Exceptions apply to persons who have: become eligible to vote via new citizenship; or have been released from parole and have been re-granted their right to vote; or have recently reached voting age and have subsequently registered with the Green Party within the 90 day window.

For example, at a minimum, if there are 10 official Green Party chapters in Colorado, 6 chapters must be present at the state meeting, totaling 12 individuals.

After the 2017 state meeting, amend Section 4.1.1 to read

4.1.1. In order for official decisions to be made at a state meeting, a quorum of at least 60% of local chapters must be represented, with a minimum number of voting participants (registered in the Green Party of Colorado not less than 180 days) equal to twice the number of local chapters represented. Exceptions apply to persons who have: become eligible to vote via new citizenship; or have been released from parole and have been re-granted their right to vote; or have recently reached voting age and have subsequently registered with the Green Party within the 180 day window.

4. Background: Though never specified in the bylaws or Procedures and Guidelines, tradition has held that a person could register Green on site at the state meeting and be eligible to vote at the meeting that day. This proposal brings order to the situation and provides locals with windows of organizing opportunity to reach out to new registered Greens and conduct orientation as they are able.

Additionally, given the passage of Proposition 108, even with the opt-out clause that parties can choose state assemblies as opposed to primaries for nominations, a lack of clarity around that new law could possibly draw unaffiliated voters to our state nomination conventions. We must ensure the integrity of our Green Party processes, and a minimum of 90 day registration (at first) and later 180 days registration after the 2017 GPCO state meeting, gives local parties a window to reach out to new voters and to provide orientation. The end result would be that our nominations and state party processes would more likely continue to be carried out according to Green values.

5. Justification/Goals: To maintain the integrity of Green values in our party processes.

6. Pros and Cons: A con could be that locals feel pressure to provide orientation for new Greens, but the state party can collaborate with locals to put together periodic webinars, etc. to relieve that pressure.

7. Alternatives to the proposal: No action. This action needs to be decided democratically, as opposed to an ad-hoc rule on site at a state meeting.

8. References: Currently, Section 4.1.1 reads, "4.1.1. In order for official decisions to be made at a state meeting, a quorum of at least 60% of local chapters must be represented, with a minimum number of voting participants (registered in the Green Party of Colorado) equal to twice the number of local chapters represented."

BLOCK

There are a number of defects in this proposal. The first two were introduced by the facilitator when moving the proposal from Agreement Seeking to Proposal Voting. The last two existed in the Agreement Seeking version of the proposal and are carried over in the Proposal Voting version. Friendly amendments were offered during Agreement Seeking to fix the last two defects. (see <http://gpcos.fullydefiant.com/forum/index.php?topic=332.msg1838#msg1838>). The sponsors of this proposal did not act on either amendment.

1. "Proposal 003-17" is missing from the topic title.
2. The voting instructions are wrong. The voting options on the Proposal Voting board are Yes, No, and Abstain; not AGREE, STAND ASIDE, AND BLOCK.
3. The quorum requirement is wrong. I believe Judy Harrington's analysis which was censored out of the discussion is correct (see attachment). Adoption of this proposal requires a Yes or No vote by at least one representative from 75% of the chapters, i.e., 9 chapters (Procedures and Guidelines section 3.5.6).
4. There is a typographical error in the text of the proposal. "90" needs to be changed to "180" in the following text:

Quote

After the 2017 state meeting, amend Section 4.1.1 to read

4.1.1. In order for official decisions to be made at a state meeting, a quorum of at least 60% of local chapters must be represented, with a minimum number of voting participants (registered in the Green Party of Colorado not less than 180 days) equal to twice the number of local chapters represented. Exceptions apply to persons who have: become eligible to vote via new citizenship; or have been released from parole and have been re-granted their right to vote; or have recently reached voting age and have subsequently registered with the Green Party within the 90 day window.

I will remove my block when these defects are fixed.

Disagree

This is moving the Colorado Green Party toward being a most un-welcoming party. It also sets a double standard: 90 days now to apply only for the current "administration", 180 days after the state meeting. Going from same day registration to 180 days is a drastic move that will have negative consequences.

While over 8 chapters have weighed in, The wording must be changed to reflect the fact that a quorum is a MINIMUM of 60%. 7 chapters is 58.33% and does not meet the minimum. Therefore a quorum requires 8 chapters.

The "Exceptions" have not been defined. What are the excepted groups allowed to do, or how are they counted. What is the purpose?

I would ask the sponsors to temporarily withdraw proposal 004-17 and resubmit when agreement seeking/voting has been completed on proposal 003-17.

Our Procedures and guidelines discourage simultaneous votes on proposals. The complexity caused from running simultaneous proposals can be confusing to Council members and lead to mistakes.

We don't want to repeat the debacle Council had in September, 2016.

Proposal 003-16 was in agreement seeking when proposals 004-16 and 005-16 were submitted. Bob Kinsey mistakenly blocked ColoradoCare when he intended to block Bill's recall. Here is the sequence of events:

8/31: Proposal 003-16 to endorse ColoradoCare Amendment 69, sponsored by Bill Bartlett

and Susan Hall, began agreement seeking.

9/1: Adams County Greens adopted bylaws to separate from the Adams/Jefferson chapter.

9/5 to 9/8: Proposal 004-16 to recognize Adams County, sponsored by Andrea Merida, was submitted and agreed to.

9/22: Proposal 005-16 to recall Bill Bartlett, sponsored by Poudre Valley and Arapahoe chapters, was submitted.

9/23: Bob Kinsey blocked proposal 003-16 (ColoradoCare) by accident. He had intended to block proposal 005-16. It took until October 20 to discover the mistake and realize GPCO had agreed to endorse ColoradoCare!

We should also wait to consider 004-17 until 003-17 is done because the length of the waiting period for new members (003-17) will affect how soon the annual meeting can be held (004-17).

By the way, it would be good to state a policy on sequencing proposals through agreement seeking. First-come-first-served?

Art, the lion's share of members live in the Front Range. It's more environmentally sound for us to bring a few folks into the Front Range than in having 100 people travel to the Western Slope. This also would have the potential to drastically cut down on participation because of the distance.

thank you, andrea. i have no problem with the state meeting being on the front range,
Evidence

although for the 19 years i've been a party member, geographic balance was an important focus and policy, so that we tried to alternate where we met.

but i'm concerned about a frank and open discussion among council members on where and when.

to that end, i'm confused why you chose to remove this post from one of our members without an explanation, other than your personal belief that it was off-topic. referring us to previous discussions of the time and place would seem to me to be on topic for this proposal. it's hard to participate in an agreement-seeking process when removal of comments rather than discussion of comments occurs. please explain.

i must respectfully disagree.

we are in agreement-seeking to confirm a date and place for the state meeting, and harry's post is about exactly that -- the date and place of the meeting. while you may not agree with his comment or post, it is not appropriate to censor his post so other council members cannot read it.

I am noting that you disagree. The fact remains that members should take their own initiative to keep up to date with the discussions here. All these posts have been

announced via email, and to confuse this discussion with a completely different one is disruptive.

This date is closer to the two-year mark for elections.

What is your concern about this date?

Our chapter is also in agreement on this proposal. My vote is Agree.

As a side note, I don't see a problem with running the two proposals at once. While there was some confusion last fall related to two different proposals, there's certainly precedence for having multiple proposals running consecutively without issue.

I am surprised to see that the location will be in the Denver metropolitan area. At a Poudre Valley Greens meeting in January, we were discussing the advisability of holding the annual meeting on the Western Slope in Grand Junction and Dave Bell himself assured us that "plans are already underway" at the state level for holding the annual meeting in Grand Junction.

Title: **Re: Proposal 004-17: Date and Agenda Setting of 2017 State Meeting**

Post by: **Kevin Alumbaugh** on **April 11, 2017, 11:37:02 AM**

In the opening paragraph of this proposal the following excerpts fro the bylaws were included:

Per Section 4.1 of the GPCO bylaws, "State meetings will be held yearly or more frequently at a location agreed upon by the members at the previous meeting, or by a special call of the Council at its discretion.

Also per section 4.2.3. of the GPCO bylaws, "The Council sets the agenda for the state meetings..."

I did not see any discussion on the state council as to the specific date of the state meeting. It has been customary in the past to have a discussion of the date of the state meeting in the proposal drafting stage with several possible dates considered so that council members can weigh in on what dates work for them in an effort to ensure that a date is determined that works for as many council members as possible. August 12th is virtually

the only date over the summer that I cannot attend due to a long-planned vacation/reunion.

I also did not see any council discussion of the agenda. The text of the proposal lists the agenda as "tentative." Does this mean that it is still open for discussion? If so I move that this proposal be moved to the proposal drafting board so that both items can be discussed further.

Also I did not see Council Facilitator listed in list of officers to be elected at the meeting. Was this an oversight?

Thank you.

Kevin, the agenda is in fact listed here as "tentative," because the process for finalization is delineated in the proposal:

"The agenda will be finalized via friendly amendments offered at a forum workgroup to be created, entitled "2017 Annual Meeting Workgroup."

I'm happy to entertain your friendly amendment regarding the date. What is your suggestion?

If you are not able to attend, I would suggest that GBGP adopt some sort of proxy arrangement and ratify it in your bylaws, so that your voice can be heard.

There is a calculation error in the introductory material of this proposal. With 12 chapters, adoption of this proposal requires a vote from eight chapters; not seven chapters.

I would ask the facilitator to update/amend the proposal accordingly.

It would be disastrous to allow each chapter to make up their own proxy rules for state meetings. The Greater Boulder Green Party, or any chapter, could show up at annual meeting with hundreds of proxies from Greens living in the chapter's boundaries.

GPCO Bylaws are silent on the subject of using proxies at annual meetings. Maybe we need a bylaws change to explicitly disallow proxy voting at state level general membership meetings. But for now for proposal 004-17, I offer this friendly amendment:

Add the following note to the tentative agenda: **Members may attend the 2017 annual meeting in person or remotely. There will be no voting by proxy.**

Post by: **Andrea Mérida Cuéllar** on **April 13, 2017, 08:38:07 AM**

GBGP could restrict proxies to only council delegates.

I would prefer to handle the matter of proxies outside of this proposal, in the same way the issue of length of time as a registered Green is being handled by a separate proposal.

This proposal only deals with one meeting, so it would be inappropriate for such a change here.

Besides, decentralization. If GBGP wants proxies, they can have them for their council members if they wish.

The suggestion about proxies on April 11 -

Clarifying question: Who made this statement? Council Facilitator? Forum Moderator? A Co-chair? Someone with a personal opinion?

There is no basis in state bylaws for proxies.

. . .

The Greater Boulder Green Party has always suggested the odd-year annual meeting be held as early in the election cycle as feasible. That is still our position.

All other political parties in Colorado have already had their annual state party meetings and have elected officers. The Green Party is still figuring out a date.

In early February the Greater Boulder Green Party proposed an annual meeting in May in the following letter to GPCO co-chairs. The goal of the proposal is for the Green Party of Colorado to plan and organize for the 2018 election cycle sooner (18 months before the 2018 general election), rather than later.

The GBGP proposal, dated February 9, should have been presented to Council in February. The GBGP proposal should also have been presented to Council before proposal 004-17, dated April 7.

Dear GPCO Co-chairs, Andrea Merida and Dave Bell,

Please begin the agreement-seeking process for the following proposal. . . .

Harry Hempy, Co-chair, Greater Boulder Greens

Set Date and Location of 2017 GPCO Annual Meeting

This is proposal 00?-17 to set a date and location for the 2017 GPCO Annual Meeting.

Please read the proposal and keep comments on the topic of the proposal only. Please suggest any amendments or additions for discussion.

Designate your vote by using the following terms: AGREE, BLOCK, or STAND ASIDE. Any blocks will require a vote of the council.

A quorum of 60% requires at least one response from (7) chapters. There are currently 11 active voting chapters in the Green Party of Colorado:

Adams
Jefferson
Arapahoe County
Denver
Douglas
Greater Boulder
Mesa
Pikes Peak
Platte Valley
Poudre Valley
San Miguel

The floor is now open for one week of Agreement Seeking (??/??/17 to ??/??/17).

1. Date Proposed: 02/09/17

2. Title: Set Date and Location of 2017 GPCO Annual Meeting

Sponsors: Harry Hempy, Judy Harrington, Kevin Alumbaugh, Scott Lupo, Susan Hall, Tom Hall, Carolyn Brinski

3. Text: As a result of discussion of the **History of GPCO Annual Meeting Dates and Locations** at <http://gpco.fullydefiant.com/forum/index.php?topic=308.0> (<http://gpco.fullydefiant.com/forum/index.php?topic=308.0>) Council hereby sets the date of 2017 GPCO Annual meeting to be May 6, 2017 and the location to be Grand Junction, Colorado.

4. Background: From Dec. 3, 2016 to Jan 20, 2017 several members of GPCO discussed the location and date of the 2017 GPCO Annual Meeting. Conclusions from that discussion are as follows:

- Location: Preference is for a location with an active chapter. Grand Junction was suggested as a western slope location with a new chapter. Mesa Greens would be happy to host, per Andrew Hamilton.
- Date: Strong preference is for May. Snow was a concern for March and April.
- Term of Office: Andrea Merida's claim that she is entitled to a 24-month term as co-chair was discussed, without a resolution. This question will be the subject of a vote at the annual meeting.

You can read the full conversation in the topic **History of GPCO Annual Meeting Dates and Locations** at <http://gpco.fullydefiant.com/forum/index.php?topic=308.0> (<http://gpco.fullydefiant.com/forum/index.php?topic=308.0>)

Dave Bell is completing the term of Bill Bartlett.

5. Goals/Justification: The purpose of the odd-year annual meeting is to adopt plans and elect officers for the 2018 election cycle. Republicans, Democrats, and Libertarians are all having their annual meetings in March.

The goal of this proposal is for the Green Party of Colorado to plan and organize for the 2018 election cycle sooner (18 months before the 2018 general election), rather than later.

This proposal complies with bylaws section 4.2.3 on Council responsibilities.

6. Alternatives to the proposal:

May 13 or May 20 would be acceptable alternative dates.

Holding a two-day meeting, say from noon Saturday to afternoon Sunday, would be an acceptable alternative.

How do GPCO co-chairs justify ignoring proposals from Council members and chapters, for months at a time, and then jumping their own proposals to the top of the list?

Regarding paragraph 3.5.3 of the procedures,

"3.5.3. The Council will discuss via email issues raised among its representatives or by any Green Party member who participates. Any councilmember or Committee may submit a proposal to the convener or facilitator for discussion. Appointed state representatives of local chapters will have the ability to make proposals to the State Council directly under the following conditions:"

There are two paths for submitting proposals. One path is to submit the proposal to the convener/facilitator. There are no conditions attached to this path. The other path is to submit the proposal to the State Council directly, and this path has conditions attached to it. Five councilmembers have submitted a proposal to the facilitator for discussion. Will the Colorado Green Party follow its own rules and put the proposal up for discussion?

Post by: **Andrea Mérida Cuéllar** on **February 09, 2017, 11:57:47 PM**

Judy, the material part of 3.5.3 is the following, which I have bolded for emphasis:

3.5.3. The Council will discuss via email issues raised among its representatives or by any Green Party member who participates. Any councilmember or Committee may submit a proposal to the convener or facilitator for discussion. Appointed state representatives of local chapters will have the ability to make proposals to the State Council directly under the following conditions:
1. That the proposal be made by the representative and two more members of the

**local chapter,
one of those members being an elected or appointed officer of that local chapter.**

The proposal is out of order, and as I have instructed the presenters of the proposal, you can resubmit once you meet that threshold.

The entire document is here, for everyone's perusal: <http://coloradogreenparty.org/wp-content/uploads/2007/10/PG-20041.pdf>

Thank you.

Title: **Re: State meeting will be late July or August 2017**

Post by: **judyh** on **February 10, 2017, 10:01:25 AM**

The material part is who can submit via what channel and whether there are conditions attached. There are no conditions attached to councilmembers submitting a proposal to the facilitator. The conditions are attached to appointed state representatives making a proposal directly to the state council.

Five councilmembers have submitted a proposal to the facilitator for discussion. This is the channel that has no conditions attached.

Title: **Re: State meeting will be late July or August 2017**

Post by: **Andrea Mérida Cuéllar** on **February 10, 2017, 10:07:52 AM**

"Five members" refers to proposals for the state meeting. At that point, five separate members could bring a proposal.

Because you are attempting to bring a proposal within the council, however, 3.5.3, item 1, applies.

Again, one your proposal has reached the 3.5.3 threshold, you all may resubmit.

Thanks.

Title: **Re: State meeting will be late July or August 2017**

Post by: **judyh** on **February 10, 2017, 10:39:16 AM**

Thank you for pointing out a potential point of confusion. I did not intend the "five councilmembers" to refer to anything except the number of councilmembers who have signed on as co-sponsors.

3.5.3 does not specify any particular number of councilmembers (beyond one) who may submit a proposal to the facilitator for discussion. The wording "any councilmember" is structured to allow one (obviously the minimum number) councilmember to submit. I assume that two, three, four, five, or any number in addition to one would not invalidate the submission. In this case there are five co-sponsors. I do not intend any additional significance to the number.

Item 1 is attached by a colon to proposals that are made to the state council directly, without the involvement of the facilitator. Proposals submitted to the facilitator are not conditioned upon item 1. Note the period at the end of the sentence describing submission to the facilitator, in contrast to the colon that connects the conditions to the pathway of direct presentation.

Andrea,

I will resubmit our proposal for the annual meeting to be held on May 6 with more co-signers, as you request.

But I am baffled by your ruling that the proposal, with five co-sponsors, is out of order. Please reread Judy's comments about rule 3.5.3 carefully.

Rules section 3.5.3 has NEVER been used to require three members from the same chapter to co-sponsor a proposal. Of the 17 proposals considered in 2015 and 2016, only 2 proposals, 005-16 and 007-16, met that requirement.

Do you, as Council Facilitator, intend to start enforcing rule 3.5.3 consistently?

Title: History of GPCO Annual Meeting Dates and Locations
Post by: Harry Hempy on December 03, 2016, 08:03:40 PM

Quote from: judyh on December 02, 2016, 11:23:31 AM

Harry, is there some history about why the meeting has been held in August in recent years? How long has it been since the meeting was held earlier? What month was the meeting held before the change to August?

Before 2013, organization meetings (odd-year annual meetings) were held in June or early July. In 2013 and 2015 the meetings were six to eight weeks later -- the last week of August.

The 2013 meeting was late because the Annual Meeting 2013 Working Group, formed on March 19, 2013, just didn't get around to it. The same for the 2015 meeting.

Here are the dates and locations of GPCO annual meetings since 2004.

Election Cycle	Organization Meeting		Nomination Meeting	
	Date	Location	Date	Location
2004			4/24/04	Fort Collins
2006	7/9/05	Frisco	5/13/06	Denver
2008	6/23/07	Carbondale	5/3/08	Littleton
2010	7/?/09	Teleconference	5/1/10	Florence
2012	6/25-26/11	Longmont	3/31/12	Carbondale
2014	8/24/13	Highlands Ranch	3/22/14	Denver
2016	8/29/15	Denver	4/3/16	Centennial

Major parties typically have their odd-year annual meetings in March to get organized for the new election cycle.

I'd like the GPCO 2017 Annual Meeting to be in February, while people still remember the 2016 election, before the spring snows.

It will be in August or September. There can be separate meeting to take care of any nominations for office, but we co-chairs and other officers were elected on August 29, 2015, and the co-chair positions are for two years.

That's bullshit, Andrea. Your term is from the 2015 Annual Meeting until the 2017 Annual Meeting.

Your interpretation of "two-year term" as meaning 24-months can't be right. Have you

considered the implications?

When you argue that the 2017 Annual meeting must be in August or later, because the 2015 Annual Meeting was held in August, the implication is that all subsequent odd-year annual meetings must be held in August or later. After a few election cycles we would be meeting on New Year's Eve.

The annual meeting in 2015 (and 2013) wasn't late by design; the party just didn't get around to it. This has worked against the interests of the party.

Its time to get our annual meetings back in sync with the election cycle. Odd-year annual meetings, to organize the party around goals and a strategic plan for the new election cycle, should be held as early as feasible.

For the record: You announced the 2017 GPCO Annual Meeting will be held around late August on the official party website on Nov. 18, 2016. You did this without Council's agreement (and without even notifying Council of your intention). Under state party bylaws, you do not have authority to decide the timing of annual meetings. That authority is reserved to Council.

Andrea, by your logic we can never hold a meeting earlier than the previous meeting at which a co-chair was elected. That is of course silly.

A good first start to selecting a meeting date is for chapters to volunteer to host the meeting, and propose a location and date. Then council can select amongst those.

Here are some good reasons (from 2015) for holding the odd-year annual meeting as early as feasible.

Re: GPCO Reorganization Meeting Date
Feb. 9, 2015

Folks, if I may, we need to consider that the objective might be our plans for 2015's work. That's the theme of Boulder's upcoming meeting, and they will need to get the state party's commitment to support those plans...sooner rather than later.

Denver wants to play on a team with the rest of the state and not dominate the agenda going forward. I would much rather know what position we're to play, instead of going off on our own tangent.

Further, Jill Stein has launched an exploratory committee for 2016. Whoever the nominee is, Colorado needs to be ready with a game plan to support.

We need to be spending 2015 building the machine. Therefore, May is too late in the year.

March, please. We can work on adding a Skype capability for the meeting if travel is a hassle.

Hello, colleagues. There is a Denver county independent, Elet Valentine, who may be seeking the Denver Greens' nomination for state house, district 7, to run against incumbent Democrat Angela Williams, who never met a bankster she didn't like (sorry, I digress).

Per state rules, she wouldn't be able to switch to Green at this point, but I wonder if the Denver Greens would be prevented for some reason from endorsing her, should we vote to do so.

Any ideas?

Good question!

There is nothing that would prevent the Denver Greens from making such an endorsement. We could post that press release to the GPCO website and FB to make it known.

Not sure if we would run with that at the state level, unless we also considered endorsing other candidates..?

Does that answer your question?

It does; thanks. In this case, she would be running against a known bankster who has facilitated legislation to impact foreclosures all over the state. It might make sense to have the state consider endorsing her, which would help her from a fundraising perspective. Let me know how we could clarify whether this would be a state option. Thanks.

Title: **Elephant in the Room #1: ColoradoCare**

Post by: **Harry Hempy** on **December 24, 2016, 12:38:10 PM**

Quote from: Andrea Mérida Cuéllar on October 21, 2016, 02:44:15 PM

I want to call out the elephant in the room, and that's the distress over my personal opinion, which I have shared with many of you, about Amendment 69. I am on the record as personally being opposed. That is offensive to some of you. However, I have never represented my personal opinion as the state opinion, I have never blocked any proposal brought forward, nor have I ever coerced anyone to take on my opinion.

ColoradoCare has, indeed, become an elephant in the room that cannot be ignored. I am understanding that the issue won't go away (we won't have forgiveness and reconciliation) until it is recognized and understood.

[CENSORSHIP in GPCO and the MY GIRL meme are also elephants in the room. To avoid conflating issues, I won't address these elephants in this topic.]

I acknowledge (and confess) that ColoradoCare became a state party issue only because of my actions. Andrea and I have had a personal falling out ever since. She has restricted (not just blocked; restricted) my ability to even read any post she makes on Facebook, does not respond to my emails, and hangs up the phone when I call her.

When I read the misinformation about ColoradoCare in the July 2015 issue of the Denver Green Party newsletter, I immediately asked the newsletter editor [Andrea] to print a correction in the next newsletter. Andrea ignored the request. She has been covering up her misstatements about ColoradoCare ever since and has not yet acknowledged the errors in that newsletter. For example, Andrea still claims that, under ColoradoCare, employees would have to pay more in health care taxes than their employers. See details at <http://gpcoco.fullydefiant.com/forum/index.php?topic=306.msg1536#msg1536> (<http://gpcoco.fullydefiant.com/forum/index.php?topic=306.msg1536#msg1536>).

As to Andrea's claims:

Quote from: Andrea Mérida Cuéllar on October 21, 2016, 02:44:15 PM

I have never represented my personal opinion as the state opinion

True. But Andrea represented her personal opinion as the Denver Green Party position in the July 2015 issue of the Denver Green Party newsletter and in the Denver Green Party 2016 Ballot Question Positions document, dated October 23, three days after GPCO Council endorsed Amendment 69.

Quote from: Andrea Mérida Cuéllar on October 21, 2016, 02:44:15 PM

I have never blocked any proposal brought forward

True. And I thank Andrea for that. Council agreed to Proposal 003-16 to endorse Amendment 69 ColoradoCare on October 20, 2016. However, co-chairs [Andrea and Dave Bell], council facilitator [Andrea], and administrator [Andrea] have yet to acknowledge council's agreement to endorse.

Quote from: Andrea Mérida Cuéllar on October 21, 2016, 02:44:15 PM

nor have I ever coerced anyone to take on my opinion.

This is questionable. I felt coerced to drop my resolution to endorse ColoradoCare at the 2015 annual meeting, in an attempt to appease Andrea and produce the appearance of unity at the meeting. I am sorry I acquiesced. Here we are, 18 months later, with an elephant in

the room.

I was OK with Andrea's suggestion, dated September 9, to present balanced pro and con arguments and let the voters decide:

Quote

let's issue a **pro/con** document that will help voters decide.

So I felt betrayed when I read Andrea's hatchet job against ColoradoCare in the Denver Green Party's voter guide for 2016 ballot initiatives. The article contained two con arguments and no pro arguments. The con arguments from the July 2015 Denver Green Party newsletter disappeared without explanation and were replaced by two new con arguments, as follows:

Quote

public funding for abortions is not covered

and

Quote

there is too much potential for unintended consequences with the fact that the oversight board cannot be recalled

These con arguments should be rejected.

To argue that ColoradoCare should be opposed because the state constitution (since 1984) forbids use of public funds for abortions makes as much sense as arguing that public funds should not be used for abortions because of Roman Catholic dogma proscribing abortions and artificial birth control. If we don't like the state constitution's ban on public funds for abortions, let's change that provision of the constitution. Taking it out on ColoradoCare is ridiculous.

The argument that 'the oversight board cannot be recalled' is a holdover from the initial misunderstandings at the June 2015 Denver Green Party meeting. Specifically, Denver Greens were told that ColoradoCare elections would be held under the auspices of the Colorado Secretary of State. This is not true and Andrea has never advised Denver Green Party members of this untruth.

If ColoradoCare had passed, Coloradans would have had the opportunity to create an election system open to all adult residents, not just electors registered with the secretary of state, featuring ranked choice voting and single transferable vote protocol that would produce a modicum of proportional representation (given that ColoradoCare districts would each have three representatives) on the governing board. There would have been potential for Greens to be elected. The secretary of state would have had no authority to derail the system.

ColoradoCare would have been a win for oppressed people in Colorado. *Comparing ColoradoCare - An Analysis of Health Care Costs for Latino and Immigrant Coloradans*, is a detailed intersectional analysis from the Colorado Fiscal Institute, dated June 2016. The study concluded that Hispanic households in Colorado will see large gains from ColoradoCare. We missed a great opportunity to improve the health care that ethnic minorities, women, children, and low-wage employees receive in Colorado. This was a missed opportunity for Latinx outreach.

As a Roman Catholic, Andrea surely understands that forgiveness is part of a process that includes confession, penitence, and reconciliation. Every religion and self-help program has the same process in one form or another. One characterization is, "No justice? No peace!"

To move forward, for justice with peace, Andrea must acknowledge her actions vis a vis ColoradoCare, as follows:

1. Andrea attempted to cover up her misstatements about ColoradoCare made at the June 2015 Denver chapter meeting.
2. Andrea attempted to cover up her misstatements about ColoradoCare made in the July 2015 Denver chapter newsletter.
3. Andrea retaliated against Harry's post of pro ColoradoCare points by banning him from the state website, without notifying Harry, without consulting with the steering committee, without consulting with council, and in violation of state party bylaws on due process for members.
4. Andrea attempted to cover up her action against Harry by secretly restoring Harry's access to the website (on November 23, 2016), without notifying Harry, the steering committee, or council.

When Andrea acknowledges these actions, I will be able to forgive and move on toward reconciliation and party unity.

Harry, I am writing to address some of the last few posts and comments you have added to the forum recently.

The current forum Code of Conduct states, "Refrain from using ALL CAPS (shouting), profanity, belittling, accusations, and threats." On a recent post, you responded using profanity and an extremely irritable tone.

The code also states, "Personal attacks will not be tolerated. Report personal attacks for moderation. Do not allow personal attacks to escalate."

Your recent posts focused on one individual are excessive and now are at the level of personal attacks. This type of personal attack will not be tolerated. Therefore, they will be deleted, as they are unrelated to any current or pending state council business. Any further breaches of the Code of Conduct will result in a suspension of your privileges for using the forum.

Title: **Call for Treasurer Nominations**

Post by: **Sean Friend** on **October 04, 2016, 12:43:30 PM**

Good afternoon,

As Tom Hall has resigned from his position as treasurer via an email dated October 1, I'd like to invite nominations for the position of state party treasurer. I'd suggest that the nomination period be 30 days from today and that Ranked Choice Voting among the Council be used to select from the nominees. Nominees can be from any chapter and a member in good standing, accept the Ten Key Values and abide by the guidelines as listed in the bylaws. Thank you,

I realize that everybody has been busy with the national election, making the 30-day nomination period perhaps unrealistic, but has there been any progress on this topic? Since the request is for nominations for a position that is open to all members in good standing, not merely council members, would it be more appropriate to post this in a forum that all members can read? I do not see any nominations here. This forum is private, open only to council members. We might receive some nominations if more people could see that there is a position available for which nominations are being accepted. Has this vacancy been filled by some other process? Has there been a decision not to fill the vacancy?

Is a second to a nomination required? I recall that Robert Lee Worthey's name appeared in the list of candidates for co-chair although I did not see a second to his nomination. The nominations of the other two candidates were seconded. What rules apply here?

Can any Colorado Green second a nomination? Since this process is being carried out on a private thread to which the majority of party members do not have access, it may be difficult for chapter members to know that a nomination has been made or to second a nomination that has been made. Must all nominations be made by council members and seconded by council members? Are local chapter members supposed to submit their input to council members who then pass it on to the private thread?

HOW ANDREA MERIDA GAINED CONTROL OF THE GREEN PARTY OF COLORADO

Andrea Merida holds the following positions in the Green Party of Colorado:

- GPCO Co-chair
- GPCO Treasurer
- GPCO Forum Administrator
- GPCO Council Facilitator
- GPCO Forum Moderator
- GPCO Website owner/editor/webmaster
- GPCO Facebook administrator
- GPCO Twitter administrator

Sean Friend is GPCO Secretary, elected at annual meeting on Aug. 29, 2015.

Dave Bell is interim GPCO Co-chair, nominated by Andrea Merida on October 6, 2016.

How did this happen?

Timeline:

August 2015: Andrea became a **GPCO Forum Administrator** 'Temporarily' to prepare for 2015 Annual Meeting, by private agreement with Administrator Bill Bartlett.

August 29, 2015: Andrea elected **GPCO Co-chair**, running as a 'slate' with incumbent Chair Bill Bartlett.

August 31, 2016: Proposal 003-16 to endorse Amendment 69 ColoradoCare, was sponsored by Co-Chair Bill Bartlett and Council Representative Susan Hall.

September 5, 2016: Proposal 004-18 to recognize Adams County as a new chapter, splitting off from Adams/Jefferson chapter, was sponsored by Co-chair Andrea Merida.

September 22, 2016: Proposal 005-16 to declare one of the co-chair positions vacant was submitted by Secretary Sean Friend (usurping Facilitator Brittany Hoover's role as Facilitator). Sponsored by Arapahoe County (Sean Friend) and Poudre Valley (Dave Bell) chapters.

September 28, 2016: Proposal 006-18 to recognize Platte Valley as a new chapter was sponsored by Bill Bartlett and Joseph Scardetta.

October 1, 2016: Treasurer Tom Hall resigned due to unauthorized expenditures by Co-chair Andrea Merida.

October 2, 2016: Co-chair Bill Bartlett resigned.

October 4, 2016: Call for nominations for Co-chair to replace Bill Bartlett was posted in Private Council Discussion by Secretary Sean Friend.

October 4, 2016: Call for nominations for Treasurer to replace Tom Hall was posted in Private Council Discussion by Secretary Sean Friend.

October 6, 2016: Chair Andrea Merida nominates Dave Bell to be GPCO Co-chair.

November 18, 2016: Facilitator Brittany Hoover resigned, saying, "the responsibility of mediating the recent divide within the party has become too much".

November 19, 2016: Harry Hempy nominated himself "to serve as Council Facilitator. After 40 years working at IBM I have lots of experience following rules and facilitating processes. Outside of my employment I have facilitated numerous organizations, including the Parent-Teacher organization of the Tucson Unified School District, consisting of about 90 members, representing 184 schools. I commit to facilitate fairly and in compliance with party bylaws, rules and procedures." Bob Kinsey and Michael Haughey seconded the nomination.

November 20, 2016: Co-chair Andrea Merida appointed herself to be **GPCO Council Facilitator**, replacing Brittany Hoover.

November 23, 2016: Dave Bell was appointed interim co-chair until the next state meeting.

December 5, 2016: Harry Hempy nominated himself to serve as GPCO Treasurer. To date (4/27/17) no action has been taken to replace the Treasurer. The Co-chairs have assumed the position of **GPCO Treasurer**.

[Since becoming Andrea's, co-chair Dave Bell has contributed only one post on GPCO Forum:]

Proposal Drafting / Re: Amend Bylaws to Clarify Two Year Term of Office

« on: March 11, 2017, 08:05:00 PM »

Harry -

A few thoughts.

First, can you please dial back the rhetoric in this proposal? Your continued personal attacks against Andrea are in my opinion, baseless and petty. Your insistence that a personal disagreement represents a larger rift in the GPCO seems a bit narcissistic. In addition, your reference to "the co-chair wars in October 2016" is at the very least wildly hyperbolic. I understand that we went through a tumultuous period but I would hardly call it a war. Second, as I would normally find concern for the growth and health of the GPCO to be an admirable trait, I can't help but feel like this concern, coming from you, at this time, in this way, feels disingenuous. To qualify that, since your return to the Green Party, I have seen utterly nothing except attacks on Andrea from you.

All of this leads me to believe that your motives in this and your previous proposal have nothing to do with the stability or growth of the Green Party of Colorado. If your concern is in fact genuine, I would like to ask why it was so important to support Bernie Sanders in the Democratic Primaries that you abandoned your duty as a GP officer? Why did you spend so much energy trying to primary Jared Polis when you could have been working to support the candidacy of Green Party of Colorado Congressional Candidate Cliff Willmeng in the very

county that you were elected to represent?

Furthermore, when we needed to be working together to build this party, you were off being a democrat. That is unacceptable and I will not abide your flimsy, wishy washy, disloyal inability to commit to the independence of the Green Party. I certainly will not reward your infidelity with influence and authority. I also will not stand by and allow you to sit out when it matters, and then attack the people who were on the front lines doing the work after the dust settles. So Mr. Glass House, put down the stones and get to work or kindly step aside!

March 28, 2017

To: GBGP Steering Committee:

Our proposal to define "two-year term" for state party officers in GPCO Bylaws as being from odd-year annual meeting to the next odd-year annual meeting failed due to lack of a voting quorum.

Andrea Merida refused our request for an impartial facilitator. She appointed herself to facilitate and, as facilitator, killed the proposal in 25 hours and 33 minutes. The following report details the facilitator's actions.

I am ready to submit our second proposal, to set the date and location of the 2017 annual meeting. However, the second proposal will meet the same fate as the first proposal if Andrea Merida (or Dave Bell) facilitate it. Their conflict of interest is clear.

I would like to explicitly demand an impartial facilitator for the second proposal, based on our experience with the first proposal. There is no point to seeking agreement if Andrea Merida facilitates it.

What would you think of requesting Art Goodtimes to facilitate? Art is the highest ranking Green elected official in the state, the Green Party member with the longest tenure in GPCO, and a person of unquestioned integrity. He has served as GPCO Forum administrator in years past and did an excellent job.

Please respond by end of day, Thursday, March 30.

Thank you,

Harry Hempy

GPCO Council Representative

Report on Facilitation of GPCO proposal 002-17

March 28, 2017

Greater Boulder Green Party:

Greater Boulder Green Party (GBGP) passed a resolution on March 11, 2017 to submit two proposals (to clarify state officers' term of office and set the date of the 2017 state annual meeting) to GPCO Council and request a special facilitator for the proposals who does not have a personal stake in the outcome.

This is a report on the outcome of the first proposal.

At 2:01 pm on March 12 I submitted the proposal for agreement seeking with a request for an impartial facilitator who does not have a stake in the outcome. See

<http://gpco.fullydefiant.com/forum/index.php?topic=317.msg1694#msg1694>

At 2:04 pm Andrea Merida denied the request by GBGP for an impartial facilitator without explanation. She appointed herself as facilitator without consulting Council or any state party officers. Facilitation of the proposal was irregular in several respects, all of which worked to the disadvantage of the proposal.

At 2:25 pm an altered version of the GBGP proposal was posted as **Proposal 002-17: Amend GPCO Bylaws to Clarify Two Year Term of Office** for one week of agreement seeking. The facilitator made the following changes to the proposal, without consultation or consent from the proposal's sponsors, before posting it.

- a) Added the text, "Per Section 3.1 of the GPCO Bylaws, "A Green local must present its proposed bylaws for approval, and be approved by 60% of the voting Greens at a state party meeting, or by the state council." This text is not relevant to the proposal but its presence in the proposal generated comments and confusion that interfered with agreement seeking.
- b) Removed the entire Background section of the proposal; namely, "Since the co-chair wars in October 2016 Co-chair Andrea Merida has claimed she is entitled to 24 months in office. Andrea is using her position as council facilitator to block all proposals to have the 2017 annual meeting before she gets her full 24 months in. So now, four months after the 2016 election, GPCO Council is unable to set a date for the meeting because we have not agreed on when our officers' terms expire. All other political parties will have held their annual state meeting by the end of March." By censoring this background, Andrea hid the whole rationale for the proposal from Council.
- c) Added this, so-called, Moderator Note, "**Moderator Note: This issue has already been corrected via Proposal 007-15: length of co-chair term** (<http://gpco.fullydefiant.com/forum/index.php?topic=251.0>). " The Moderator's note is incorrect. Proposal 007-15 did not define officers "two-year term" to be from odd-year annual meeting to odd-year annual meeting, which is the point of the proposal.

The facilitator terminated the agreement seeking process 22 minutes after posting the proposal. Larry Dunn immediately BLOCK'ed the proposal, based on the misleading Moderator Note, inappropriately inserted into GBGP's proposal. Larry wrote, "And given the above reply by Andrea, I will keep my block in place. The language disagreement at issue here seems to have been cleared up by Proposal

007-15, and I therefore see no reason to reconsider my block.” Larry did not understand that Proposal 007-15 actually created the problem that the GBGP proposal is intended to fix. The facilitator made absolutely no attempt to facilitate Council's discussion or agreement on the proposal.

At 2:41 pm the facilitator posted the proposal for voting.

The following morning, March 13 I requested the proposal be removed (stop voting process) because I had just discovered section 5.7 of the published bylaws on the website was obsolete, due to passage of proposal 007-15. The facilitator ignored this request and ordered the voting to proceed.

At the same time Andrea Merida, acting as state co-chair, website administrator or state secretary, updated the GPCO Bylaws on the state party website, changing section 5.7 and making the text of the proposal being voted on obsolete. This threw the voting process into chaos. During the voting the facilitator wrote, “you will have to submit another proposal, and I suggest you withdraw this proposal altogether.” and “You need a new proposal.” After being thus told by the facilitator that the proposal was dead, not enough Council members voted to reach quorum. The proposal failed because the facilitator effectively stopped the voting on March 13 at 3:58 pm.

So, the facilitator rushed the proposal through agreement seeking and voting in a grand total of 25 hours, 33 minutes (a record) before most Council members even had a chance to read it.

This facilitation was not a democratic process.

Respectfully submitted,

Harry Hempy, Co-chair
Greater Boulder Green Party

Elephant in the Room #2: MY GIRL Meme

Andrea Merida's failure to acknowledge her misstatements about ColoradoCare in June 2015 and her subsequent efforts to cover up her misstatements are addressed in Elephant in the Room #1: ColoradoCare. <http://gpcO.fullydefiant.com/forum/index.php?topic=311.0>

But there is an older and larger elephant in the room that is dividing the Green Party of Colorado along demographic lines. Unknown to almost all Colorado Greens, the accusations of sexist and racist attitudes that are tearing the state party originated in discussion of the MY GIRL meme in early 2015. (Ref 1)

To get to the crux of the party's divisions, GPCO needs to understand we have been in a shit fight over FEMINISM ever since Andrea took the position that

Quote

Men have no right to inject their opinions in Green discussions of feminism.

and told the men to "butt out".

Andrea's interpretation of the Green Party's eighth key value, Feminism and Gender Equality, to exclude males from discussions is mind-blowing. Andrea has never explained how she can interpret our values of FEMINISM and Gender Equality to exclude people of a certain gender. She has never even acknowledged she made the statement.

The party must resist exclusionary practices, such as banning men from discussing FEMINISM.

Ref 1: MY GIRL Meme:

Discussion of the MY GIRL meme on the GPUS discussion group on Facebook in early 2015 spawned a fight in the Green Party of Colorado that continues to this day, including calls to impeach both state co-chairs based on mutual accusations of sexual and racial bigotry. The fight has been studiously ignored by the state party. It is time to expose the issues raised by the MY GIRL meme.

It was early 2015. Greens were reviewing a series of memes on the GPUS Facebook discussion group for potential use in the Jill Stein campaign for President. One meme was a great picture of Dr. Stein with a short quote and the words "MY GIRL" in bold type across the bottom of the meme.

A Green from New York, I think, commented that referring to Jill as a girl was marginalizing. The predominant reaction was negative, on the basis that the meme could easily be attacked as sexist.

I commented that I liked the meme because it had high production values, was attention getting in its simplicity, and thought provoking.

Andrea Merida also liked the MY GIRL meme. She commented that calling a woman "girl" was just fine in her community; "girl" was used as a term of endearment.

Two or three Greens, who happened to be male, challenged Andrea's position and Andrea then responded with this startling interpretation of the eighth key value, Feminism and Gender Equality:

Quote

I respectfully request the males to butt out of this discussion. Men have no right to inject their opinions in Green discussions of feminism.

The discussion quickly devolved into an profane barrage of sexist and racist accusations and counter accusations. Colorado Greens Andrea Merida, myself, and state co-chair Bill Bartlett participated in this shit fight. The discussion was such an embarrassment to the party that Facebook administrator, Starlene Rankin, promptly removed the entire discussion.

Harry, I am writing to address some of the last few posts and comments you have added to the forum recently.

The current forum Code of Conduct states, "Refrain from using ALL CAPS (shouting), profanity, belittling, accusations, and threats." On a recent post, you responded using profanity and an extremely irritable tone.

The code also states, "Personal attacks will not be tolerated. Report personal attacks for moderation. Do not allow personal attacks to escalate."

Your recent posts focused on one individual are excessive and now are at the level of personal attacks. This type of personal attack will not be tolerated. Therefore, they will be deleted, as they are unrelated to any current or pending state council business. Any further breaches of the Code of Conduct will result in a suspension of your privileges for using the forum.

Please refer to the code of conduct for more information, here: <http://gpco.fullydefiant.com/forum/index.php?topic=28.0>

I am deleting this post in a couple days, to give you a chance to see this message.

Thank you.

Intersectionality and the Green Party

In the aftermath of the 2016 elections, pundits and political party leaders have filled the airwaves speaking about identity politics. Someone figured out that Hillary Clinton and Donald Trump spent just 10% of their campaign effort on issues and policy. They spent 90% of their time appealing to certain unhappy, oppressed sections of the electorate and scapegoating the “others” as deplorables.

U.S. political campaigns have increasingly used identity politics in divisive, basically dishonest, ways for 30+ years. But campaign theorists, particularly in the Democratic Party, are now having second thoughts about dividing voters along identity lines (race, gender, wealth, etc).

Professor Kimberle Crenshaw developed the theory of intersectionality in the 1980's. The feminist movement was in full swing but the movement was divided on racial lines. Black people were marginalized and systematically excluded from decision making and leadership positions. Intersectionality is the study of how different power structures interact in the lives of minorities, specifically black women. Her name and her work has become an introductory point for feminists of all stripes.

Today intersectionality is a powerful tool, used to understand the interaction of power structures on minorities on a multi-dimensional basis, including a person's race, gender, sexual orientation, family of origin, community environment, education, wealth, age, ability, skin color, hair color, height, weight, etc, etc.

There is also growing recognition that these intersectional characteristics are not binary. There are more than two genders; more than two sexual orientations; more than black and white; more than blonde and brunette; more than fat and skinny. Just to pick an example, the oppression of white homosexuals may be much more severe for people between 5' 10” and 5' 11”. Granular intersectional data can be used to discover systematically oppressed sections of people that would not otherwise be obvious.

As with any powerful technology, we must use intersectionality with care. In my view, there is no redeeming value in using intersectional data to fine tune an election campaign strategy to divide (and conquer) the electorate. Using intersectional data to track trends toward less oppression is a good thing, though.

Intersectionality and identity politics has been a prominent topic of conversation in the Green Party of Colorado and the Green Party, nationally, in recent months.

This is a call for balance in the Green Party. Understanding and resisting oppression in all sections of society is critically important. But so is unity, solidarity, and common purpose. The party's ability to survive depends on our unity, not our divisions.

With the Trump victory, for the first time in my life, I am truly fearful for the future of the United States, and democratic governments around the world. People must become united in solidarity if we are to have a chance of resisting the Trump administration that is shaping to be very reactionary.

I urge all Greens to embrace solidarity with all peoples; don't be divided; find the love.

Dec. 1, 2016

Good Morning,

My friends and I have made phone calls, made posters, and helped at every Denver event. We've been to town halls and gatherings at restaurants and bars. We spent hours at a vigil outside a federal prison; we went to see Jill twice. We went to Ajamu's town hall. There has been no support from local party officials for persons wishing to canvass, hold small events or even obtain materials for Jill Stein. People are making up their own campaign materials using their own printers because there is nothing available from the party. We and many others have been extremely active in supporting Arn Menconi and Jill Stein at every single event in the Denver metro area since we chose to DemExit.

An materials order finally came to my home on Friday and my daughter and I spent over 15 hours during the past two days dividing them into packets, creating door hangers by attaching rubber bands or stapling them so they could easily be distributed. We are truly interested in being part of the Green Party because the party values so closely align with our own. We were fortunate to be able to meet Jill and feel strongly about her platform. She is our best hope, and is the only candidate who speaks truth to power.

I am very concerned because the Co-Chair of the Green Party, Andrea Mérida Cuéllar has been posting extremely insulting and inflammatory rhetoric regarding Bernie supporters who chose to move to the Green Party. When my daughter asked for clarification, Andrea and her friends flamed her. Every dissenting opinion has been shot down because Andrea deletes them. She and her friends have spent over 30 hours attacking the integrity and dedication of Bernie supporters.

My daughter and I are currently the only ones distributing campaign materials to the local Greens. Many frustrated people who want to help Jill's campaign are met with silence when they reach out to leadership here. How can the Green Party EVER powerful enough to make the changes in American politics that we need, if their elitist attitudes refuse to allow others to participate.

On Sept. 9, 2016 at 5:53, Andrea Mérida Cuéllar wrote: *'I am absolutely convinced that for the most part, the former Sanders supporter is not our target for recruitment into the Green Party. I just tabled at a "progressive" event in Albuquerque for the Green Party of New Mexico, and the people who were still waffling over whether to be a Green were NOT the two groups of working-class Latinas who are fighting neoliberal assaults on the community, with whom I had good, honest conversations.*

I qualify this by saying there is a difference between voting for Jill and becoming a registered Green Party member (where allowed). There are plenty of good people of good conscience who will be voting for Jill but at the end of the day are going to still "change the Democratic Party from within." All power to them, seriously.

Our party, however, must be built with the working class, for whom the stakes are higher and the damage from capitalism is imminent. It must be from the frontline communities who are the first to suffer environmental racism, police brutality, poverty and homelessness. For others, being a Green is an academic exercise. For the rest of us, it's life or death.

Let's be clear about the difference between simply voting for Jill and becoming a Green. There is a difference.'

Andrea Mérida Cuéllar is very vocal about her elevated status in the Green Party. Does this woman speak for the Party? She makes assumptions about our motivations and class, questions our ethics and insults us. Her comments about race and gender identification in the feed are disturbing for a Party that claims to be inclusive. IS this how the Green Party really feels about bringing other people into the party? Are all our efforts and dedication worthless to the Green Party if we're white, hetero and working class?

After 38 years as a Dem, I left the party; it wasn't a hard decision after seeing their abuse and corruption first hand. I hoped to find a place with the Green Party but the leadership here in Colorado is so dysfunctional that it will be difficult to stay. Please note the screen shots from Andrea Mérida Cuéllar's Facebook page below, as they are most disturbing coming from a National Co-chair.

 **Ed Montemayor** I agree with the difference between voting for Jill and becoming a member of the Green Party. But propose that the criteria for who belongs in the Green Party should be based on 2 factors: [1] Agreement with the GP's philosophy (platform, values, pillars); and [2] Willingness to work for helping the GP grow and develop into a successful organization when it comes to pushing progressive public policies and programs, and when it comes to nominating AND supporting winning candidates for elected office. Subject: Unaffiliating from Denver Green Party

I don't know why the messenger doesn't work on here, I tried messaging numerous members with admin responsibilities. I have changed to unaffiliated, the Green Party is not focused on the planet, so I am not focusing on this party. I joined for the Planet and to help it. Instead I have only wasted several months and been mislabeled by an interim county co-chair [Andrea Merida] that's only platform for the past several months has been about helping the homeless only.

I am not a sexist, I don't appreciate being labelled as a sexist by anyone because I am loud and assertive to anyone that implies that I am lazy or mislabels me. My co-chair doesn't have a job that's why she can spend more time than me, but to say I do nothing, while working two jobs and still spending what free time I can to the party's agenda that is never even discussed at our local meetings is not worth my time.

I am done with this party until it grows up and uses science and knowledge for the future forward. So good luck but whoever has control, delete all my information and my posts because for now I am not going to be involved until drastic changes are made at every level and the focus turns back to the PLANET first.

Greens Speak Out on Recount and Our Commitment to an Independent Party

Posted by Margaret Flowers 230sc on November 28, 2016

Like, Share & Tweet[Tweet](#)

We write to reaffirm our commitment to building a Green Party that has a radical analysis of the society in which we live, and promotes bold solutions to transform our society and address the root causes of those crises; a Green Party that is independent of the two money-dominated parties.

There is a deep social crisis in the US. This crisis manifests in countless ways. One of its central manifestations is through the political system. People have legitimate concerns about the electoral system, which is manipulated through wholesale voter disenfranchisement, massive voter suppression and the racist and undemocratic historical logic of the Electoral College. In all fifty states, voters from poor and marginalized communities, especially Black people and other communities of color, have their votes suppressed and are excluded from participation through various practices.

The Green Party cannot build the political power necessary for the transformative changes we need by allying with two capitalist parties that serve the interests of the wealthy. That is why it is imperative that the Green Party is independent of those parties. We stay independent to give people an alternative

to the corruption of two money-based parties. Greens reject donations from corporations and their political action committees to ensure we are accountable to the people and so that the people's agenda is not superseded by the corporate agenda.

There are significant electoral reforms needed to make elections more democratic and more representative of the people. While we support electoral reforms, including how the vote is counted, we do not support the current recount being undertaken by Jill Stein.

The decision to pursue a recount was not made in a democratic or a strategic way, nor did it respect the established decision making processes and structures of the Green Party of the United States (GPUS). The recount has created confusion about the relationship between the Green and Democratic parties because the states chosen for the recount are only states in which Hillary Clinton lost. There were close races in other states such as New Hampshire and Minnesota where Clinton won, but which were not part of the recount. And this recount does not address the disenfranchisement of voters; it recounts votes that were already counted rather than restoring the suffrage of voters who were prevented from voting.

As a candidate, Dr. Stein has the right to call for a recount. However, we urge the GPUS to distance itself from any appearance of support for either Democrats or Republicans. We are well aware of the undemocratic actions taken during the primaries by the DNC and the Clinton campaign. Greens cannot be perceived to be allied with such a party.

We remain committed to the Green Party's four pillars and ten key values, which have at their foundation grassroots democracy. We urge the GPUS to prioritize its efforts on building our party from the bottom up, working and organizing in direct solidarity with our state and local parties and alongside and in defense of the rights of those most affected by the injustices of a capitalist, white supremacist and undemocratic system. This includes support for local efforts to prevent the disenfranchisement of people of color via voter suppression or because of felony convictions and to be more inclusive and participatory in our decision-making processes and work.

Title: Coordinator needed for March for Science in April
Post by: Andrea Mérida Cuéllar on February 23, 2017, 01:13:32 PM

Colleagues, I got the following email, and I'm asking one or more of you to step forward to coordinate our activities:

Quote

Dear Chairwoman Merida:

My name is Kevin Hennegan with the March for Science Denver. I am contacting you on behalf of the Outreach, Diversity and Inclusion committee with the hope of finding a way for the Colorado Green Party to participate in our event. The March for Science is a celebration of our passion for science and a call to support and safeguard the scientific community. The march will take place on April 22, 2017, in conjunction with hundreds of other marches around the country and the world, including Washington D.C.

We abide by the mission of "Science, Not Silence." As an organization, we are a non-partisan voice for evidence-based policy, scientific research, science education, open access to information and public discussion and debate. This march is for scientists and science enthusiasts, of all races, religions, gender identities, sexual orientations, abilities, socioeconomic backgrounds, political perspectives, and nationalities--united by a love of science and an insatiable curiosity.

There are numerous ways to get involved and we would be happy to give you more information to find a place at this event to suit your organization's interests and constraints. Additional information about the march is available at www.marchforsciencedenver.org.

Could you please let us know if we can count on your party's participation at the march? I can be reached at this email address with any questions you may have. We look forward to hearing from you and working together for this movement.

Sincerely,
Kevin Hennegan

Hennegan's email is kennegan19@gmail.com. Who wants to step forward and coordinate?

Thanks.

I've been planning to do the March for Science in Denver for some time now and I'd be glad to coordinate with Kevin Hennegan on behalf of GPCO. It will truly be a nationwide event.

I'd like one or two people from other chapters "co-coordinate" (if that is a word) with me. Volunteers?

Andrea,

We are on it. Details about the March will be posted at <http://marchforsciencedenver.org/> as they develop.

At this point we have corresponded with Kevin and the Green Party of Colorado will be listed as an official sponsor of the March for Science in Denver on April 22.

We are looking forward to a conference call with March organizers. We will discuss opportunities for tabling and speaking and ask about other venues for the march in Colorado that would be close to chapters located far from Denver.

We will produce promotional material, with logistics for gathering, for publication on the state party website, Facebook and Twitter.

I would think late March or early April will be the right time for publicity to go out. Does the party have deadlines for submitting articles for a monthly newsletter or other publications?

More later,
Harry

An announcement of the March for Science was sent to chapters today.

Evidence

For people attending the march in Denver: The march in Denver will start and end at Denver Civic Center Park. Events include the march, teach-ins and speakers, beginning at 10:00 am. Colorado Greens will assemble just to the west of the Greek Auditorium on the south side of the park. Look for the big Green Party banner. Bring your signs and banners!

To Chapters of the Green Party of Colorado:

The Green Party of Colorado has joined with March for Science (<https://www.marchforscience.com/>) to support a nationwide March for Science event on Earth Day, April 22, 2017. Marches will be held in Washington, D.C., around the country and around the world.

In Colorado, March for Science events are planned in Aspen, Avon, Breckenridge, Carbondale, Colorado Springs, Denver, Estes Park, Fort Collins, Grand Junction and Gunnison. Detailed information about the events in each city is at <https://www.marchforscience.com/satellite-marches/?state=Colorado>

The party's statement of support for the Denver march is at <http://marchforsciencedenver.org/blog/march-for-science-denver-supporter-statement>

Please announce the March for Science at your next chapter meeting and plan to participate in a city near you.

Denver: The march in Denver will start and end at Denver Civic Center Park. Events include the march, teach-ins and speakers, beginning at 10:00 am.

Colorado Greens will assemble just to the west of the Greek Auditorium on the south side of the park. Look for the big Green Party banner. Bring your signs and banners!

March for Science – Denver:

Mission Statement:

The March for Science champions publicly funded and publicly communicated science as a pillar of human freedom and prosperity. We unite as a diverse, nonpartisan group to call for science that upholds the common good and for policymakers to enact evidence-based policies in the public interest.

Diversity:

Scientists have voiced concern over many issues - gag orders for government science agencies, funding freezes and reversing science based policies. We recognize that these changes will differently and disproportionately affect minority scientists, science advocates and the global communities impacted by these changes in American policies. Addressing these issues is imperative in understanding how recent developments will affect all people.

We must work to make science available to everyone and encourage individuals of all backgrounds to pursue science careers. A diverse group of scientists produces increasingly diverse research, which broadens, strengthens and enriches scientific inquiry, and therefore, our understanding of the world.

We had planned to order tee-shirts with a Green Party for Science design for sale (donations) to Greens around the state to have for the march. Proceeds from the shirts would have been added to the state coffers. This will not happen because, per Veronique's discussion with Andrea on March 27, the state coffers are not sufficient to front the money to order any shirts.

Scott and I have signed up as volunteers with March for Science Denver to assist during the day and clean up the park after the march.

Title: **Re: Coordinator needed for March for Science in April**
Post by: **Andrea Mérida Cuéllar** on **April 04, 2017, 11:27:43 PM**

So...Linda Templin sent me the following note the March for Science organizers sent her:

Quote

Due to the nature of the Denver March for Science, we cannot back any political party.

However, we are assembling a "Meet Your Representative" table where we would be happy to host Green Party elected officials. This table will encourage representatives to meet with the public and discuss the importance of science and scientific backed policies in politics. There will be representatives from the Democratic party and we are continuing our outreach efforts to get elected Republicans and Libertarians at this table. We have been in contact with other members from the Green Party (Harry Hempy, Scott Lupo, and Veronique Bellamy) and they have offered to facilitate getting Green Party leadership/elected officials at this table.

Even though they invited us, and given the nature of their sensitivity, I don't think we should bend over backward to participate in this.

Title: **Re: Coordinator needed for March for Science in April**

Post by: **Harry Hempy** on **April 05, 2017, 03:58:08 PM**

I am delighted that March for Science Denver has decided to have a Meet Your Representatives table to discuss the importance of science and scientific backed policies in politics. This was a result of our queries about speaking and tabling opportunities at the march and, I would assume, similar queries from Democratic electeds who, also, signed the March for Science support statement.

And delighted that Greens will be participating visibly and on an equal footing with Democrats. It is not clear, yet, whether there will be any Republican, Libertarian or American Constitution party representatives willing to speak up for science.

This is an opportunity for thousands of Coloradans to see the Green Party at work. This call for participation was just sent to all chapter co-chairs. Responses are requested by Friday, April 14.

March for Science - April 22 - Call for Green Scientists

To Chapters of the Green Party of Colorado:

The March for Science in Denver Civic Center Park will have a "Meet Your Representatives" table to encourage representatives to meet with the public and discuss the importance of science and scientific backed policies in politics.

There will be representatives from the Green Party and the Democratic party. March organizers are trying to get elected Republicans and Libertarians to participate as well.

We need to staff the table with Greens that have recognized scientific credentials from 10:00am to 2:00 pm on April 22. It would be ideal to have four scientist volunteers, each taking an hour at the "Meet Your Representatives" table.

This is an opportunity for Greens to be visible, side by side with Colorado's elected officials. I believe the Green Party will stack up just fine.

Please reply to this note by 4/14 to nominate Greens from your chapter who are willing to take an hour to represent the Green Party with a science-based message (ecological wisdom, sustainability, the precautionary principle, population pressure and exponential growth, etc, etc).

Title: **Re: Coordinator needed for March for Science in April**

The March for Science was the biggest march in Denver since the Women's March the day after Donald Trump was inaugurated. See Denver Post photos at <http://www.denverpost.com/2017/04/22/photos-march-for-science-rally-draws-a-huge->

crowd-to-downtown-denver/

Thanks to everyone who worked to coordinate GPCO's participation in the march, marched with the Green Party, and volunteered with March for Science Denver.

This is Kevin Alumbaugh's account of the march:

Quote

It was a pretty impressive turnout. Apparently the lead marchers were returning to Civic Center Park before the end of the line had left. Begs the question how many potential Green voters were among the tens of thousands of enthusiastic and very concerned citizens that attended?

Scott Lupo and I carried the Green Party banner and talked to some folks. There was a woman and her kids behind us representing federal employees who told us that Trump was investigating federally-employed scientists who were attending this and other events and had the authority to fire them if they participated. Lots of cameras along the route so we speculated about facial recognition technology being used.

A quality line up of speakers (Harry was stuck at the Science and Policy table) in the amphitheater and enthusiastic crowd. And the weather cooperated too! When Gov Hick got up to speak the anti-fracking folks took to the steps and got in front of him and began chanting and nearly blocked him off with their signs. You could hardly hear him at times. He actually handled it pretty well-talked louder into the mic and paused a few times but it was a pretty short speech. Surprisingly no security reaction. A great morning all around!

Candidate Recruiting: I found two people who may be interested in running for office as Greens. One is receiving a PhD in environmental studies at CU Boulder this year. The other is a young, articulate person from Denver.

I'll send them the link to the GPUS online candidate training and copy the appropriate chapter co-chairs, by way of introduction. These "potential" candidates have made no commitment to run; but are interested.

Yours,
Harry

What are these folks names?

Have you forwarded this information to the Political Director, Youth Coordinator, or the Executive body of the State party? There are a few reasons other rank and file Greens would want to know this as well since in the past we have fielded candidates who wanted to force women of color receiving state assistance to be sterilized etc, I think it's ok for us to know who they are and to check them out.

Title: **Re: Coordinator needed for March for Science in April**

Out of respect for the privacy of the individuals involved, I don't intend to publish their names or contact information publicly or to Council. They have contact information for their chapter co-chairs and can make contact when/if they want to get involved.

The last thing I want is for random Greens to descend on them when factions of the party are talking about throwing bricks and punching people in the face.

Dear Andrea,

Certainly. My apologies for any confusion. The MFS is a political event, and as such, the participation of political parties and elected officials is welcome, even vital. However, as an organization, we are committed to a non-partisan approach. To support this principle, the MFS-DEN organizing committee decided not to permit individual political parties or politicians to host tables at the teach in. While there was a strong consensus on this decision, some members of the committee, myself included, felt that this approach would have the unintended consequence of taking us too far away from the political engagement we are trying to encourage in the scientific community. So, this past week, the committee decided to sponsor a "Meet Your Representative" table where elected officials from any party could meet and interact with march attendees. To again support our non-partisan approach, the committee decided to invite a representative from political parties who do not currently host at the Colorado General Assembly or the Colorado federal delegation, but have expressed interest and support for the march, to participate at this table.

I hope this clarifies the current plans for the march. The March for Science Denver organizers thank you for your understanding, and hope to see a large contingent from the Green Party at the march! If you have any additional questions, please do not hesitate to write or call. My cell number is 720-933-3435.

Best regards,

Kevin

Folks, this is not a candidate recruitment situation. Given the way the GPCO has been deliberated, which has been skewed toward the Dems, there should be no candidate recruitment.

These will not be the 'droids we're looking for.

All that we're being offered is to share a table with other electeds and candidates. We don't have a table and our electeds are in far-flung areas of the state and won't be at this event.

Keep in mind that the responsibility of recruiting candidates belongs to the locals, per the bylaws.

Additionally, I am aware of some groups on the political left who were extended an offer to give a presentation and that invitation was just retracted.

This entire event is one big Demfest.

Therefore, if you all want to still march as individuals, you are free to do so, but given the potential for conflict with the resources, please only represent yourselves as individuals and not as a contingent of the GPCO.

I'm open to ideas about doing our own event, however. Since we will be at the People's Fair, per the schedule, and time, where we won't be buried by Dem machinations.

Jeremy Layton It is? Point me to some of this 'swift follow-up violence'.

Fascism: an authoritarian and nationalistic right-wing system of government and social organization.

I don't think that by protecting this man's right to speak his mind (despite him being maniacal), that's I'm aiding the growth of an authoritarian system of government. In fact, that, right there is the hypocritical idiocy of this "let's punch the Nazi" idea.

YOU - YES YOU - are making it so a random person isn't allowed to speak their mind. It doesn't matter WHAT he has to say, he legitimately has the right to say it. And you have no authority to visit violence upon him for him saying it.

This is not a 'lofty liberal idea'. This is basic fucking human decency. It's either on or off for everybody. You don't get to pick and choose. Either you get to punch Nazis in the face, and I get to punch whomever I want in the face (I pick... blonde girls, blonde girls are the /worst/). Jeremy Layton You literally have no idea what you're talking about. The execution of military action is much more blood and sinew than the unction of bureaucratic policy.

I helped enable communication between groups of people so they could form an alliance against local national extremists. Take your inflated sense of understanding and shove it up your hypocritical asshole.

You seriously can't seem to see it, can you? Hitting someone for what they say is lawlessness, it is the abandonment of due process. It strips them of their right to free speech. You can't seem to perform the mental gymnastics to see what it would be like if the roles were reversed, or even slightly altered.

Jeremy Layton You literally have no idea what you're talking about. The execution of military action is much more blood and sinew than the unction of bureaucratic policy.

I helped enable communication between groups of people so they could form an alliance against local national extremists. Take your inflated sense of understanding and shove it up your hypocritical asshole.

I'll quote myself from above, because you obviously missed the point:

"Why do I get to punch the Nazi in the face, and not the conservative religious woman that hates me because I have a husband? Why don't I get to punch the random white guy in the face because he called me a faggot? Why don't I get to kill them? Where is the line drawn? How many punches do I get? How heavy the brick?"

Evidence Group Appendix H: Hijacking State Meeting

Facebook post by Jason Justice with Cliff Willmeng and 69 others. 19 hrs · 🌐

I'm not a tagger, but this is a call for revolutionary action. And my partner is much to good a person to put me up to this. So...

Comrades. Are you a registered Green? We need your help and solidarity here. There is a faction within the Colorado Green Party, this REVOLUTIONARY party, of white men who spend their time acting as a barrier to our commitment to communities under the boot of capitalism. And just as heinous and counter-revolutionary as these contrarian and privileged white men are, they for sure don't like an uppity brown woman in the form of my partner Andrea Merida organizing to help POC, veterans, the homeless, the disabled, and the working class. I need to ask a huge favor. Our state meeting is Saturday, August 12th from 9am to 4:30. I am asking you to come support your Comrade, Andrea Merida, who is the State Co-Chair and up for re-election. Her detractors are men who, on top of lacking any honor and solidarity with the working class, are trying hard to solidify their "right" to not fight for the people, not work to organize, and be contrarian to the ideals of revolution and intersectionality. My ask is this-

1. If you are registered Green, come to the State meeting. This is the right fight, this is the right time. We in Denver are working to get our Comrade Julie Banuelos elected to the Denver School Board in an at large position which would strike a blow against the establishment. We are hoping to start working to get the camping ban lifted in Denver. And we are working to establish a weekly anti-war protest in downtown Denver.
2. If you aren't a registered Green- Register as a Green today and stay registered until after the State Meeting. Some of my friends are Dems, Independents, and Anarchists. The forces of racism and white supremacy are reluctant to let go of their hold on any movement that may upset their privilege. You don't have to

The forces of racism and white supremacy are reluctant to let go of their hold on any movement that may upset their privilege. You don't have to stay a Green (although that would be hip) but it's a tangible place to win against the forces of white supremacy and mediocrity. Locally and nationally, the Green Party has embraced the ideas of eco socialism, anti fascism, and anti capitalism. In the words of Che Guevara- Above all, always be capable of feeling deeply any injustice committed against anyone, anywhere in the world. This is the most beautiful quality in a revolutionary.

Come for the revolution, stay for the Party!

Here is the kicker, you have to be registered as a Green 90 days before the meeting. That means by at least Friday May 12th. We have made it impossible to do same day registration at the meeting for voting purposes because there have been many attempts to take over Green locals around the country by white folks who aren't down for the struggle. I can't let that happen here in Colorado. So go to the link at the bottom here and register as a Green. The Green Party of Denver, Colorado, and the USA want to be the revolutionary electoral option you want and need us to be. The reason that we are poised to do so on every level is your Comrade and my partner Andrea Merida. Is always there for you. Be there for her. (plus it will be a great opportunity to make some sorry-ass white dudes suck their thumbs).

Title: **Proposal 008-15: Amendment to the Bylaws: Chapter Accreditation**
Post by: **Brittany Hoover** on **August 23, 2015, 10:30:49 PM**

This is Proposal 008-15: Amendment to the Bylaws: Chapter Accreditation

Please read the proposal and keep comments on the topic of the proposal only.

Designate your vote by using the following terms: AGREE, BLOCK, or STAND ASIDE. Any blocks will require a vote of the council

Per Section 4.3 of the GPCO Bylaws, "All decisions concerning policy, finance, and objectives shall require consensus or a vote of at least 60% of the membership present at a state meeting and/or the Council".

There are currently eight (8) active voting chapters in the Green Party of Colorado. A vote of at least 60% quorum requires at least one response from five (5) chapters.

Active Chapters
Adams/Jefferson
Arapahoe County
Denver
Douglas
Greater Boulder
Pikes Peak
San Miguel
Southwest

The floor is now open for one week of Agreement Seeking (August 31st, 2015).

Thank You,
Brittany Hoover, Council Facilitator

1. Basic Info:

Date proposed: August 23, 2015
Name of the sponsor(s): Andrea Merida, Bill Bartlett

2. Title: Amendment to the Bylaws: Chapter Accreditation

3. Text of the actual Proposal:

Article III, section 1 of the bylaws shall be amended to read:

A Green Local must agree to:

- * Accept the Ten Key Values and to manage the chapter in accordance with those values.
- * Abide by the bylaws of the Green Party of Colorado.
- * Openly support only the national candidates selected by Green convention, state level candidates nominated at a Green Party of Colorado nominating convention, and local

candidates selected with the criteria specified in sections 4.5.4 and 4.5.5 of these bylaws.

- * Make a good faith effort, where reasonable, to increase the number of Green voter registrations within the boundaries of their chapter.

- * Make a good faith effort to run state and local candidates.

- * Make a good faith effort to increase the number of qualified voting members within their chapter.

- * Make a good faith effort to fundraise for the operation of their chapter and to assist in the operation of the Green Party of Colorado.

- * Demonstrate evidence of commitment to, and good faith efforts to achieve, gender balance in party leadership and representation.

- * Demonstrate evidence of good faith efforts to empower individuals and groups from oppressed communities, through, for example, leadership responsibilities, identity caucuses and alliances with community-based organizations, and endorsements of issues and policies.

Chapter officers and council representatives must not have been registered as a member of a political party other than the Green Party of Colorado for at least thirty days before nomination and must maintain registration as a Green Party of Colorado voter throughout the duration of the officer's/representative's term.

A Green local must present its proposed bylaws for approval, and be approved by 60% of the voting Greens at a state party meeting, or by the state council.

4. Background: At present, our bylaws language places more party affiliation requirements on candidates seeking nomination than on the chapter itself. This language is intended to align the two issues.

5. Justification/Goals: To provide some guidelines and standards for Green Locals and Officers.

6. Pros and Cons: These changes give some guidance to present and future Green Locals about how they are expected to operate, benchmarks for success, and standards for maintaining their affiliation with the Green Party of Colorado. There are drawbacks to some of this language; some people may be less interested in being an Officer knowing they cannot change their affiliation to participate in other party's electoral processes.

7. Alternatives to the proposal: Take no action, remove the Officer party registration constraints.

8. References: See the GPCO Bylaws.

Do not agree as worded. Too much micro-managing. All the good faith efforts require time that some chapter volunteers/officers do not have. Also, the statement to support "only..." could be interpreted to apply to issues as well. It also does not address supporting other party candidates when there is no Green Party candidate for a particular office.

I think it needs work before voting. As worded I would vote no.

Michael,

Can you clarify your vote? As stated in the proposal: agree, stand aside, and block are acceptable forms of voting. A blocking vote from you will halt agreement seeking and move the proposal to a vote instead. A stand aside vote will keep the proposal here until enough "agree" votes have been reached.

Title: **Re: Proposal 008-15: Amendment to the Bylaws: Chapter Accreditation**
Post by: **Bill Bartlett** on **August 26, 2015, 09:50:42 PM**

Agree.

I was a little hesitant about making these changes, but we need some ways for the state to at least give guidance to new (and existing) local chapters about how they operate and how they might be expected to perform.

The reason we used the phrase "good faith effort" is to keep it open to interpretation. We could play with the language but the intent is that we would like local chapters to be doing their best at things like increasing voter registration, doing fundraisers, supporting candidates, maintaining balance in leadership roles, etc..

My position is BLOCK.

At this point only three chapters are in agreement with the proposal (Denver, Douglas, and Pikes Peak). I think the general membership should be allowed to vote on this proposal at the annual meeting. Failing that, I call on the sponsors of this proposal to withdraw it.

GPCO Procedures say

Quote

3.5.4 Proposals for ACTION will be called by the current convener/facilitator, who will announce a week period of Consensus discussion of a proposal. . . . If, at the end of the first week, we have reached quorum and have had full support and no proposed amendments or blocking concerns, the proposal will be accepted by consensus. . . .

Full support means unanimous to me. I'll respect the facilitator's interpretation, of course.

I can totally understand where you're coming from. For me, we know that an individual can block, and they don't have to wait for a chapter to block. It should follow that individuals then vote on their own.

I don't know what it means for 'a chapter to block', but more to the point:

I am maintaining my BLOCK position on proposal 008 because I want Colorado Greens to discuss it tomorrow without a position from Council. Council exists to maintain communications with chapters and take action between annual meetings. Council is not charged with steering policy. That role belongs to the members of the Green Party at its annual meeting.

"Council is not charged with steering policy. That role belongs to the members of the Green Party at its annual meeting."

Could you explain this statement Harry?

Title: **Re: Proposal 008-15: Amendment to the Bylaws: Chapter Accreditation**

Post by: **Harry Hempy** on **August 28, 2015, 04:30:07 PM**

Council's role is defined in these sections of GPCO bylaws:

Quote

4.2.2. The Council will meet and make decisions between state meetings by means determined by council.

4.2.3. The Council sets the agenda for the state meetings, decides on issues needing expedient attention between state meetings, handles administrative tasks, and acts as representative to the press on state issues, as well as representing the Green Party of Colorado to groups interested in establishing locals where none exist. The Council can make appropriations from the GPCO bank account of \$200 per item or less by a 60% vote of the Council, in consultation with the Treasurer to insure availability of funds. Expenditures above \$200 per item require consensus of the Council or a 60% vote at a state meeting.

There is nothing about "steering". Grassroots party members steer the Council; not the other way around.

That is an interesting interpretation, if somewhat abstract.

My vote was not a stand aside. I would have said that if that is what I intended. I was advising that the proposal needs revision.

The "best efforts" reasoning goes beyond the "good faith efforts" and is un-definable. For volunteers, best efforts are unreasonable. We should be grateful for any efforts.

Encourage, not require and mandate.

I just responded to you on the vote thread. Long story short, I agree that this is about encouraging, and the chapter needs to set its own manageable goals.

The intent is to keep moving forward in party building.

Michael it's clearly stated in the original post to designate your vote as agree stad aside or block. Your vote of a "no" is not an appropriate response. Please respond appropriately in the future to avoid confusion and avoid unnecessary delays such as with this thread.
Thanks.

Evidence Group Appendix J: GPCO Bylaws

I. Name

The name of this Political Organization is The Green Party of Colorado.

II. Purpose and Values

2.1 The purpose of this organization is to work towards a “Green” society as represented by the **10 Key Values** of The Green Party of the United States.

The aforementioned values are as follows:

Ecological Wisdom

Social Justice

Grassroots Democracy

Nonviolence

Decentralization

Community-Based Economics

Feminism

Respect for Diversity

Personal and Global Responsibility

Future Focus

2.2 This political organization may use any and all **nonviolent methods** to affect social change, including, but not restricted to: ballot initiatives, electoral campaigns, community organizing, and educational forums.

2.3 The Green Party of Colorado (GPCO) is the **affiliate** of the Green Party of the United States for the State of Colorado.

III. Membership

3.1 A **Green Local** must agree to:

* Accept the Ten Key Values and to manage the chapter in accordance with those values.

* Abide by the bylaws of the Green Party of Colorado.

- * Openly support only the national candidates selected by Green convention, state level candidates nominated at a Green Party of Colorado nominating convention, and local candidates selected with the criteria specified in sections 4.5.4 and 4.5.5 of these bylaws.
- * Make a good faith effort, where reasonable, to increase the number of Green voter registrations within the boundaries of their chapter.
- * Make a good faith effort to run state and local candidates.
- * Make a good faith effort to increase the number of qualified voting members within their chapter.
- * Make a good faith effort to fundraise for the operation of their chapter and to assist in the operation of the Green Party of Colorado.
- * Demonstrate evidence of commitment to, and good faith efforts to achieve, gender balance in party leadership and representation.
- * Demonstrate evidence of good faith efforts to empower individuals and groups from oppressed communities, through, for example, leadership responsibilities, identity caucuses and alliances with community-based organizations, and endorsements of issues and policies.

Chapter officers and council representatives must not have been registered as a member of a political party other than the Green Party of Colorado for at least thirty days before nomination and must maintain registration as a Green Party of Colorado voter throughout the duration of the officer's/representative's term.

A Green local must present its proposed bylaws for approval, and be approved by 60% of the voting Greens at a state party meeting, or by the state council.

3.1.1 A Green local shall be placed in **Inactive Status** if it fails to send any representatives to a state meeting or if it fails to have representatives vote for three or more consecutive votes on the council, or if it no longer has any active members on the council. Council members will be considered inactive if they do not vote on three consecutive votes. They will be notified of their status by the Council Facilitator immediately upon missing the third vote. They can be reactivated by notifying the Council Facilitator that they wish to be reactivated and by voting on the next Council vote. Council representatives cannot be reactivated in an Inactive or defunct local. For absence at a state meeting, the local will be notified by the Secretary within one week of the meeting. Once placed in Inactive Status, a local will not be counted in the quorum for votes and its representatives will not be allowed to vote. For missing votes on the Council, the local will be notified by the Council Facilitator immediately upon failing to vote for the third time, or when it no longer has any representatives on the Council.

3.1.1.1 A Green local can be **removed** from the Green Party of Colorado for any cause

by a vote of at least 75% of the voting Greens at a state party meeting, or by consensus of the Council, not counting the local being removed.

3.1.1.2 A Green local can be **reinstated** to Active Status by submitting a written request (email is acceptable) for reinstatement to the Council or to a state meeting, listing its new active members for the Council and being approved by at least a 60% vote of the voting Greens at a state meeting, or by at least a 60% vote of the Council.

3.1.1.3 If a Green local has been in Inactive Status for more than six months, it will be considered to be **defunct** and will be removed entirely as a Green local. To be reinstated, the local will have to go through the same procedures as a new local.

3.2 **Membership** in the Green Party of Colorado is open to anyone regardless of sexual orientation, race, national origin, religion, etc. A member shall subscribe to the Ten Key Values and be registered with the state of Colorado as affiliated with the Green Party of Colorado and maintain that registration. Members of a Green local may vote on state issues at general state meetings and may serve on the Council.

3.2.1 If there is no local in a county, an individual may maintain an **independent membership** with the Green Party of Colorado by registering in the county of residence as affiliated with the Green Party of Colorado, by subscribing to the 10 Key Values and these bylaws and upon approval of 60% of the voting Greens (at least three fourths of all locals represented) at a state party meeting.

3.3 The right of participation of an individual in the Green Party of Colorado can be revoked by a Green local using its own criteria or by a 75% vote of the members at a Green Party of Colorado state meeting. **Revocation of the rights** of participation must be based on failure of the individual to adhere to the purpose and methods of the Green Party of Colorado. Any individual must be informed of the potential revocation of their rights of participation at least three weeks prior to the vote and have a chance to speak in his or her defense at the meeting when the vote is held.

3.4. Endorsements and Sign-ons on public issues:

3.4.1 Any proposal for endorsement or sign-on from a Chapter, a Chapter representative, a Committee co-chair, or Officer of the GPCO will be considered by the Council.

3.4.2. Any endorsement or sign-on requiring the commitment of GPCO resources (money, people, time, etc.) must clearly state the requirements and where the resource will come from.

IV. Structure

4.1 **State meetings** will be held yearly or more frequently at a location agreed upon by the members at the previous meeting, or by a special call of the Council at its discretion. **Nominating conventions** and meetings to elect state officers must be announced by the Secretary in a newspaper of statewide circulation 15 days before the meeting. State meetings are those where party business is conducted. The state nominating convention is held in even number years — every two years for the purpose of nominating candidates for public office in Colorado; and every four years for conducting the presidential preference process and selecting delegates to the Green Party of the United States national convention.

4.1.1. In order for official decisions to be made at a state meeting, a **quorum** of at least 60% of local chapters must be represented, with a minimum number of voting participants (registered in the Green Party of Colorado) equal to twice the number of local chapters represented.

4.2 The Green Party of Colorado Council (referred to as “Council” elsewhere in these bylaws).

4.2.1. The Council is composed of up to four representatives from each local in Colorado, elected by the members of their respective locals in any manner they chose at a regular meeting of that local for terms as long as the local approves, as well as the two state co-chairs, all other state party officers, and the representatives and alternates to the Green Party of the United States. Locals will also define their own recall or removal process. Council representatives must have email access and agree to read and respond to Council emails at least once within any ten-day period. The Council may also be referred to as the Steering Committee or Central Committee of the Green Party of Colorado for compliance with state law.

4.2.2. The Council will meet and make decisions between state meetings by means determined by council.

4.2.3. The Council sets the agenda for the state meetings, decides on issues needing expedient attention between state meetings, handles administrative tasks, and acts as representative to the press on state issues, as well as representing the Green Party of Colorado to groups interested in establishing locals where none exist. The Council can make appropriations from the GPCO bank account of \$200 per item or less by a 60% vote of the Council, in consultation with the Treasurer to insure availability of funds.

Expenditures above \$200 per item require consensus of the Council or a 60% vote at a state meeting.

4.2.4. All decisions of the Council are subject to review at the next state meeting and may be overturned by a 60% vote.

4.2.4.1 The Council can modify these bylaws between state meetings when required to meet new state legal requirements in a timely fashion. These modifications will be reviewed and approved at the next state meeting after any such changes.

4.3 All **decisions** concerning policy, finance, and objectives shall require consensus or a vote of at least 60% of the membership present at a state meeting and/or the Council. The Green Party of Colorado may adopt a party Platform by consensus or a vote of at least 60% of the membership present at a state meeting. To endorse or oppose a ballot initiative or referendum, or to take a stance on a public issue, shall require consensus or a vote of at least 60% of the membership present at a state meeting and/or the Council. Party officers and national representatives shall be chosen by consensus or a vote of at least 60% of members present at the annual meeting.

4.4 The Green Party of Colorado, as a minor political party, will nominate candidates at a nominating convention, held at least 65 days before the primary in even numbered years in a location accessible to the public.

4.4.1 All registered Greens in attendance at a state convention are eligible to vote at that convention.

4.4.2 The membership of GPCO local chapters will be responsible for selecting **candidates** for local political office and will be responsible for forwarding those nominations for ratification to the state nominating convention. Candidates chosen by Green locals must be ratified at a state party convention to ensure they meet legal requirements.

4.4.3 Any person seeking **nomination** by the Green Party of Colorado as a candidate for a state or national office must be endorsed by the local chapter in their county of residence or as otherwise provided in 4.4.5. If there is no local chapter in their county of residence and they are an independent member of the Green Party of Colorado, then they must be endorsed by at least one local chapter in the district that they would represent in the legislature or in the state as a whole for a state office. If no such authorization is given, then no Green Party of Colorado candidate will run in that jurisdiction.

4.4.4 A candidate for nomination to a statewide office must be endorsed by the local

chapter in which they reside, or receive the endorsement of at least three other local groups from around the state.

4.5 Candidates must meet the following criteria:

4.5.1. Candidates shall embrace the 10 Key Values and shall use these values as a basis for their political decision making.

4.5.2. The candidate must maintain active membership in a local chapter of the Green Party of Colorado or if no local chapter exists in the county, they must be an independent member of the Green Party of Colorado, as defined in section 3.2.1. Candidates seeking the nomination of the Green Party of Colorado for any office shall announce their candidacy by notifying either a state co-chair (for federal or state office) or the chair/co-chair of their local Green group (for county or local office) no later than forty-five days before the nominating convention. Greens not affiliated with local chapters shall notify the state co-chairs no later than forty-five days before the convention. This provision will not supersede any local Green group requirements that are more stringent. They must maintain contact with the Green Party of Colorado.

4.5.3. Potential candidates not a member of a GPCO local chapter, or who are candidates for statewide or national office, must have formal approval either by consensus or by 30% of the delegates present at a state nominating convention of the Green Party of Colorado in even numbered years. If two or more candidates obtain 30% or more of the votes cast, the candidates shall submit to a primary, as provided for by state law.

4.5.4 Candidates for partisan political office must not have been registered as a member of a political party other than the Green Party of Colorado for at least thirty days before nomination.

4.5.5 In order to be eligible for nomination, a candidate for partisan political office must be a registered elector of the Green Party of Colorado at least thirty days prior to the date of nomination.

4.5.6. In considering candidacies for Governor and Lt. Governor of Colorado, candidates will run as a pair to avoid having only one candidate nominated when two are required.

4.5.7. After a nominating convention, a Green Party of Colorado state co-chair will be responsible for notifying the proper election officer of the nominations as required by state law. The candidates then must send acceptance of the nominations to the proper election official within the time frame specified by state law.

4.5.8. A Green Party of Colorado candidate shall not be a registered member of any other political party or political organization.

4.5.9 If a Colorado Green Party nomination is vacated, or there is any vacancy in an elected office, the state party officers shall constitute the **Vacancy Committee** to make appointments as stipulated under state law.

4.6 Committees

4.6.1 A GPCO committee may be created or dissolved by a 60% vote of the Council or state meeting.

4.6.2. GPCO Committees shall have two co-chairs who shall be registered Greens, and at least two of whose members are active members of local GPCO chapters. Co-chairs call meetings and set rules for participation at their discretion. Committees report to and are responsible to the Council and GPCO state meetings.

V. Officers

5.1 In order to serve the growth of the GPCO and to communicate our message, platform and values to the public, the GPCO will elect two state **co-chairs** to two year terms. Every effort shall be made to reach gender and geographic diversity.

5.2 Duties

5.2.1. If one co-chair is unable to perform her/his duties or is absent at a meeting, the other co-chair will assume all duties. If both co-chairs are present they will alternate assuming the duties of the Chair.

5.2.2. To facilitate state meetings and the state Council, or choose a representative to do so.

5.2.3. To be spokespersons for the state party to the press and other organizations. Such spokespersons can also be chosen by a majority vote at state meetings or by the state council.

5.2.4. To assist the growth of the state party by overseeing outreach efforts to parts of the state where we are not organized, and by assisting the nearest affiliated local chapter in doing so.

5.2.5. The state council may choose to delegate its authority to the co-chairs when it believes that time will not be adequate to make decisions. This authority of delegation only includes those actions the Council is authorized to take. It does not include those

decision reserved for state party meetings.

5.2.6 Co-chairs will monitor that official filings required to be made by the secretary and treasurer occur in a timely manner.

5.3 Representatives to the Green Party of the United States

5.3.1 The GPCO will choose representatives to the national Green Party for indefinite terms, not to exceed two years. Every effort shall be made to include diversity at all levels, including but not limited to, gender, ethnic, racial and geographic. At the first meeting after two years as representative, there must be a vote for that position. Representatives may seek further terms. If a vacancy occurs, the Council may choose replacements – temporary (for the purpose of attending meetings) or permanent (to complete the remaining term) – as necessary. Permanent representatives chosen by the Council will be ratified at the following state meeting.

5.3.2 These representatives, whose number is determined by the bylaws and rules of the national Green Party, will represent the GPCO in all votes. Votes by these representatives can be determined by a decision of the state council, or by the representatives themselves. If the representatives deem that the vote is clearly within the scope of the Ten Key Values and the platform of the GPCO, and would likely result in a consensus of the Council, they may vote without consulting the Council, but are required to announce this vote to the Council by email within three days, and must include the text of the proposal and any such supporting material as was provided with the original proposal. Such votes should occur, where feasible, more than three days prior to the end of the voting period in case the Council decides that it wishes to reverse the decision of the representatives. Such a decision of reversal can be communicated to the Secretary of the national Green Party either directly by the Council, or through the representatives. Representatives should also announce all votes to the statewide list-serve at least quarterly, and Council members should summarize such votes at meetings of affiliated locals.

5.3.3 In the case of national meetings, representatives shall send the agenda and related materials to the State Council as soon as it is available, and from there to all local chapters. Via the Council, the representatives will be informed of any direction regarding scheduled votes. But the default condition will be that representatives will be free to apply the values and platform of the GPCO at the meeting as they see fit, based on the discussion of proposals and any amendments that may occur.

5.3.4 Representatives to national meetings shall make a good-faith effort to travel to

national meetings of the Green Party. Should their schedule or financial status conflict with this, they must communicate this to the State Council to see if the problem can be remedied, either with financial support, or by choosing a temporary representative who can travel to the meeting. The GPCO shall make every effort to ensure that representation of the GPCO is not determined by financial resources, or lack thereof.

5.4 Secretary

The Secretary shall fulfill the role of secretary under state law and shall be responsible for handling candidate nominations as required by state law; keeping accurate minutes of state meetings and nominating conventions; updating the bylaws and procedures and guidelines and filing bylaw changes with the Secretary of State, as required by state law; and announcing in a newspaper of general statewide circulation, as required by state law, nominating conventions and state meetings to elect officers.

5.5 Treasurer

The Treasurer is responsible for filings and financial reporting as required by state law, disburse funds as directed by the Council, and present a balance report at each state meeting.

5.6 The membership of the Green Party of Colorado may create any office as needed. A vote of three fourths majority of members present at a state meeting must approve any new officership.

5.7 Co-chairs shall be chosen at each annual state meeting and other officers in odd number years to serve two year terms in office.

5.8 If a Green Party of Colorado officer's position is vacated in between official state meetings, the Council or both co-chairs in agreement may make a temporary appointment in the manner as specified in the Procedures and Guidelines until the next state meeting under consultation with each local.

5.9 If any officer or national representative is found to be in contempt of the goals of the Green Party of Colorado, recall proceedings shall be invoked. A three fourths majority of voting members present at a state meeting and/or the Council is required to achieve the recall of an officer.

VI. Amendments

6.1 These bylaws may be amended on a three-fifths vote by members present at a state meeting or by the state council. A written copy of adopted bylaws (with any current amendments) will be maintained by the Secretary.

Title: **Proposal 008-15: Amendment to the Bylaws: Chapter Accreditation**
Post by: **Brittany Hoover** on **August 23, 2015, 10:30:49 PM**

This is Proposal 008-15: Amendment to the Bylaws: Chapter Accreditation

Please read the proposal and keep comments on the topic of the proposal only.

Designate your vote by using the following terms: AGREE, BLOCK, or STAND ASIDE. Any blocks will require a vote of the council

Per Section 4.3 of the GPCO Bylaws, "All decisions concerning policy, finance, and objectives shall require consensus or a vote of at least 60% of the membership present at a state meeting and/or the Council".

There are currently eight (8) active voting chapters in the Green Party of Colorado. A vote of at least 60% quorum requires at least one response from five (5) chapters.

Active Chapters
Adams/Jefferson
Arapahoe County
Denver
Douglas
Greater Boulder
Pikes Peak
San Miguel
Southwest

The floor is now open for one week of Agreement Seeking (August 31st, 2015).

Thank You,
Brittany Hoover, Council Facilitator

1. Basic Info:

Date proposed: August 23, 2015
Name of the sponsor(s): Andrea Merida, Bill Bartlett

2. Title: Amendment to the Bylaws: Chapter Accreditation

3. Text of the actual Proposal:

Article III, section 1 of the bylaws shall be amended to read:

A Green Local must agree to:

- * Accept the Ten Key Values and to manage the chapter in accordance with those values.
- * Abide by the bylaws of the Green Party of Colorado.
- * Openly support only the national candidates selected by Green convention, state level candidates nominated at a Green Party of Colorado nominating convention, and local

candidates selected with the criteria specified in sections 4.5.4 and 4.5.5 of these bylaws.

- * Make a good faith effort, where reasonable, to increase the number of Green voter registrations within the boundaries of their chapter.

- * Make a good faith effort to run state and local candidates.

- * Make a good faith effort to increase the number of qualified voting members within their chapter.

- * Make a good faith effort to fundraise for the operation of their chapter and to assist in the operation of the Green Party of Colorado.

- * Demonstrate evidence of commitment to, and good faith efforts to achieve, gender balance in party leadership and representation.

- * Demonstrate evidence of good faith efforts to empower individuals and groups from oppressed communities, through, for example, leadership responsibilities, identity caucuses and alliances with community-based organizations, and endorsements of issues and policies.

Chapter officers and council representatives must not have been registered as a member of a political party other than the Green Party of Colorado for at least thirty days before nomination and must maintain registration as a Green Party of Colorado voter throughout the duration of the officer's/representative's term.

A Green local must present its proposed bylaws for approval, and be approved by 60% of the voting Greens at a state party meeting, or by the state council.

4. Background: At present, our bylaws language places more party affiliation requirements on candidates seeking nomination than on the chapter itself. This language is intended to align the two issues.

5. Justification/Goals: To provide some guidelines and standards for Green Locals and Officers.

6. Pros and Cons: These changes give some guidance to present and future Green Locals about how they are expected to operate, benchmarks for success, and standards for maintaining their affiliation with the Green Party of Colorado. There are drawbacks to some of this language; some people may be less interested in being an Officer knowing they cannot change their affiliation to participate in other party's electoral processes.

7. Alternatives to the proposal: Take no action, remove the Officer party registration constraints.

8. References: See the GPCO Bylaws.

Do not agree as worded. Too much micro-managing. All the good faith efforts require time that some chapter volunteers/officers do not have. Also, the statement to support "only..." could be interpreted to apply to issues as well. It also does not address supporting other party candidates when there is no Green Party candidate for a particular office.

I think it needs work before voting. As worded I would vote no.

Michael,

Can you clarify your vote? As stated in the proposal: agree, stand aside, and block are acceptable forms of voting. A blocking vote from you will halt agreement seeking and move the proposal to a vote instead. A stand aside vote will keep the proposal here until enough "agree" votes have been reached.

Agree.

I was a little hesitant about making these changes, but we need some ways for the state to at least give guidance to new (and existing) local chapters about how they operate and how they might be expected to perform.

The reason we used the phrase "good faith effort" is to keep it open to interpretation. We could play with the language but the intent is that we would like local chapters to be doing their best at things like increasing voter registration, doing fundraisers, supporting candidates, maintaining balance in leadership roles, etc..

I am persuaded by Michael Haughey's position:

Do not agree as worded. Too much micro-managing. . . . It also does not address supporting other party candidates when there is no Green Party candidate for a particular office.
I think it needs work before voting. As worded I would vote no.

My position is BLOCK.

At this point only three chapters are in agreement with the proposal (Denver, Douglas, and Pikes Peak). I think the general membership should be allowed to vote on this proposal at the annual meeting. Failing that, I call on the sponsors of this proposal to withdraw it.

GPCO Procedures say

Quote

3.5.4 Proposals for ACTION will be called by the current convener/facilitator, who will announce a week period of Consensus discussion of a proposal. . . . If, at the end of the first week, we have reached quorum and have had full support and no proposed amendments or blocking concerns, the proposal will be accepted by consensus. . . .

Full support means unanimous to me. I'll respect the facilitator's interpretation, of course.

I can totally understand where you're coming from. For me, we know that an individual can block, and they don't have to wait for a chapter to block. It should follow that individuals then vote on their own.

I don't know what it means for 'a chapter to block', but more to the point:

I am maintaining my BLOCK position on proposal 008 because I want Colorado Greens to discuss it tomorrow without a position from Council. Council exists to maintain communications with chapters and take action between annual meetings. Council is not charged with steering policy. That role belongs to the members of the Green Party at its annual meeting.

"Council is not charged with steering policy. That role belongs to the members of the Green Party at its annual meeting."

Could you explain this statement Harry?

Title: **Re: Proposal 008-15: Amendment to the Bylaws: Chapter Accreditation**

Post by: **Harry Hempy** on **August 28, 2015, 04:30:07 PM**

Council's role is defined in these sections of GPCO bylaws:

Quote

4.2.2. The Council will meet and make decisions between state meetings by means determined by council.

4.2.3. The Council sets the agenda for the state meetings, decides on issues needing expedient attention between state meetings, handles administrative tasks, and acts as representative to the press on state issues, as well as representing the Green Party of Colorado to groups interested in establishing locals where none exist. The Council can make appropriations from the GPCO bank account of \$200 per item or less by a 60% vote of the Council, in consultation with the Treasurer to insure availability of funds. Expenditures above \$200 per item require consensus of the Council or a 60% vote at a state meeting.

There is nothing about "steering". Grassroots party members steer the Council; not the other way around.

My vote was not a stand aside. I would have said that if that is what I intended. I was advising that the proposal needs revision.

The "best efforts" reasoning goes beyond the "good faith efforts" and is un-definable. For volunteers, best efforts are unreasonable. We should be grateful for any efforts.

Encourage, not require and mandate.

Title: Proposal 008-15: Amendment to the Bylaws: Chapter Accreditation Post by: Brittany Hoover on August 28, 2015, 03:04:06 PM

This is Proposal 008-15: Amendment to the Bylaws: Chapter Accreditation

Please read the proposal and keep comments on the topic of the proposal only.

Designate your vote by using the following terms: AGREE, DISAGREE, or STAND ASIDE. Any blocks will require a vote of the council

Per Section 4.3 of the GPCO Bylaws, "All decisions concerning policy, finance, and objectives shall require consensus or a vote of at least 60% of the membership present at a state meeting and/or the Council".

There are currently eight (8) active voting chapters in the Green Party of Colorado. A vote of at least 75% quorum requires at least one response from five (6) chapters.

Thank You,
Brittany Hoover, Council Facillitator

1. Basic Info:

Date proposed: August 23, 2015
Name of the sponsor(s): Andrea Merida, Bill Bartlett

2. Title: Amendment to the Bylaws: Chapter Accreditation

3. Text of the actual Proposal:

Article III, section 1 of the bylaws shall be amended to read:

A Green Local must agree to:

- * Accept the Ten Key Values and to manage the chapter in accordance with those values.
- * Abide by the bylaws of the Green Party of Colorado.
- * Openly support only the national candidates selected by Green convention, state level candidates nominated at a Green Party of Colorado nominating convention, and local candidates selected with the criteria specified in sections 4.5.4 and 4.5.5 of these bylaws.

- * Make a good faith effort, where reasonable, to increase the number of Green voter registrations within the boundaries of their chapter.
- * Make a good faith effort to run state and local candidates.
- * Make a good faith effort to increase the number of qualified voting members within their chapter.
- * Make a good faith effort to fundraise for the operation of their chapter and to assist in the operation of the Green Party of Colorado.
- * Demonstrate evidence of commitment to, and good faith efforts to achieve, gender balance in party leadership and representation.
- * Demonstrate evidence of good faith efforts to empower individuals and groups from oppressed communities, through, for example, leadership responsibilities, identity caucuses and alliances with community-based organizations, and endorsements of issues and policies.

Chapter officers and council representatives must not have been registered as a member of a political party other than the Green Party of Colorado for at least thirty days before nomination and must maintain registration as a Green Party of Colorado voter throughout the duration of the officer's/representative's term.

A Green local must present its proposed bylaws for approval, and be approved by 60% of the voting Greens at a state party meeting, or by the state council.

4. Background: At present, our bylaws language places more party affiliation requirements on candidates seeking nomination than on the chapter itself. This language is intended to align the two issues.

5. Justification/Goals: To provide some guidelines and standards for Green Locals and Officers.

6. Pros and Cons: These changes give some guidance to present and future Green Locals about how they are expected to operate, benchmarks for success, and standards for maintaining their affiliation with the Green Party of Colorado. There are drawbacks to some of this language; some people may be less interested in being an Officer knowing they cannot change their affiliation to participate in other party's electoral processes.

7. Alternatives to the proposal: Take no action, remove the Officer party registration constraints.

8. References: See the GPCO Bylaws.

In short, Michael, the chapter makes that determination. The idea here is to support a chapter's work of partybuilding, and it encourages the chapter to adopt some sort of plan.

We're all volunteer, and the state party needs to support a chapter's efforts. It creates dialog between chapter and state party so that the state party can get creative about mobilizing forces.

You have already shown yourself to be engaged in partybuilding, even just by helping out at the People's Fair. I think you could agree that a plan and goals are a good thing.

Thanks for hearing me out.

I do think the language before the bullet points should specify persons in leadership positions will do their best to follow the listed criteria of what a Green Party leader will do and encourage Green members to do the same. I think I do not believe we should be making all Green Party members follow the listed criteria, but we can expect those who are Green Party officers, those who are voting on Green party considerations to follow the criteria.

I also agree with Harry that proposals should have more of the local chapters involved in discussions about what is happening in the state business.

Evidence Group Appendix K: GPCO Procedures & Guidelines

THE GREEN PARTY OF COLORADO - Procedures and Guidelines

Revised August 22, 2004

I. Purpose

1.1. The purpose of these procedures and guidelines is to provide for consistency and efficiency in the functioning of GPCO within the bylaws. This document supplements the bylaws and adds details, but cannot be in conflict with the bylaws. These guidelines are not binding on local chapters of the GPCO, but could be used as a starting point for a local's process and procedures.

II Modifications

2.1. These procedures can be modified at any GPCO state meeting by a 60% vote.

2.2. The GPCO Council is authorized to modify this document at any time, subject to review at the next GPCO state meeting. A 60% vote is required to overturn a Council modification.

III. Categories Covered by this document

3.1. Diversity

3.1.1. The GPCO will strive for gender and geographic balance in all representation, recruitment and functional offices of the GPCO. This means co-chairs instead of one chairperson, co-conveners, cofacilitators (Note: only one person facilitates at a time, the other supports them, then they exchange roles at some point), etc. In cases where there is only one person needed for a function, the function should be rotated periodically between genders and among geographic regions. Where there are no people of one gender or geographic area available, additional efforts should be made to recruit and train people of the other gender and in other geographic areas.

3.1.2. The GPCO will strive to obtain a mix of people in various identity groups in all representation, recruitment and functional offices of the GPCO.

3.1.3. Where one person has held an office in the GPCO for longer than 2 years, this office should be reviewed at an annual meeting to see if there are any other qualified people to rotate into that office.

3.2. Meeting Process

3.2.1. Meetings will generally use the "Agreement Seeking" process, where proposals are presented and discussed and consensus is sought. Where consensus cannot be reached, a proposal can be tabled for another time or a vote can be taken, where a 60% vote is then required for passage. See Appendix A. for more details on this process.

3.2.2. Co-facilitators are appointed in advance of the next meeting, so that they can work with the Council and other interested parties to develop the agenda and assist with planning the

meeting. Where only one facilitator is needed or available, every attempt will be made to use a facilitator of the other gender at the next meeting.

3.2.3. Each meeting will have co-conveners. Their main responsibility will be to function as the focal point for working with the Council in planning the meeting, obtaining a meeting site, coordinating with the Council and the facilitators. Conveners should, if at all possible, rotate between meetings from one gender to the other.

3.2.4. A minimum quorum of representatives from 60% of all locals, with a minimum number of voting participants (registered in the Green Party of Colorado) equal to twice the number of local chapters represented, must be present at any meeting for decisions to be made. Any meeting with less than that number will be advisory to the Council, who can accept recommendations from that advisory meeting and enact or not enact advisory proposals in the interim until the next state meeting, using appropriate Council procedures.

3.2.5. Proposals brought to the agenda of a state meeting must be made by local chapters or a minimum of 5 individuals at large, by the Council, or by any Officer of the GPCO. A written statement of the proposal must be sent to the Council by a representative of the sponsoring local, or by a member at large accompanied by evidence of at least 4 other member's endorsements. The statement and evidence may be done by email or on paper.

3.3. Naming of Locals

3.3.1. Locals are free to name themselves as they choose. It is suggested that the name include the words "Green Party" and the political area covered by that local, for example, "Green Party of Boulder County." It should also be made clear in literature, etc. that the local is affiliated with the Green Party of Colorado.

3.4. Endorsements and Sign-ons

3.4.1. Between state meetings, any proposal for an endorsement or sign-on can be made to the Council. Council representatives will distribute this proposal to their respective local and get local direction on the proposal within one month from the proposal's introduction.

3.4.2. The Council will then discuss and vote for the endorsement or sign-on, with a 60% vote required to pass. The Council can also choose to delay a vote until the next state meeting.

3.4.3. Any endorsement or sign-on requiring the commitment of GPCO resources (money, people, time, etc.) must clearly state the requirements and where the resource will come from.

3.5. Council Process

3.5.1. The Co-chairs will alternate as conveners/facilitators of the Council or a convener/facilitator will be elected by the council.

3.5.2. The Council will operate via email on a listserve or by other electronic means as needed between state meetings, and plan to meet shortly before and after state meetings.

3.5.3. The Council will discuss via email issues raised among its representatives or by any Green Party member who participates. Any councilmember or Committee may submit a proposal to the convener or facilitator for discussion. Appointed state representatives of local chapters will have the ability to make proposals to the State Council directly under the following conditions:

1. That the proposal be made by the representative and two more members of the local chapter, one of those members being an elected or appointed officer of that local chapter.
2. That the proposal be published on the local chapter's listserve as soon as possible.
3. That the state representative making the proposal need not have written confirmation but simply email confirmation from the other two members making the proposal, and that copies of these emails be sent along to the State Council with the proposal.

3.5.4 Proposals for ACTION will be called by the current convener/facilitator, who will announce a week period of Consensus discussion of a proposal. During that week, members may discuss the proposal, express support for the proposal by saying "I agree with this proposal," or may express concerns or blocking concerns by stating their concern, or may offer amendments.

Amendments can be proposed by any Council member and either accepted by the proponent if friendly, or voted on separately by the Council, if unfriendly. If, at the end of the first week, we have reached quorum and have had full support and no proposed amendments or blocking concerns, the proposal will be accepted by consensus and the facilitator will report the results.

If there is no quorum at the end of the first week, or if there are amendments proposed that are not acceptable to the originator of the proposal or any blocking concerns, then the facilitator will initiate a voting process for that proposal by posting an email message to the Council list serve with the word "Vote" in the subject line of the message. The text of the message will include a brief statement of the proposal and will solicit votes from Council reps either Yes or No or Abstain. Any backup material from the proponent, within reasonable limits, will be included in the request for a vote. Council reps will have a week to vote on the proposal.

The convener/facilitator will send a Final Update of the vote to the list serve once a quorum is reached on the proposal in question.

It is the responsibility of Council reps to make issues known to the respective members of their local chapters and solicit input on how to vote on specific proposals, to the extent that it is possible.

Simultaneous votes will be discouraged, although they may occur at the discretion of the convener/facilitator.

Suspension of these procedures may occur with issues of urgency, again at the discretion of the convener/facilitator.

3.5.5. If any representative believes the vote does not represent what they sent in, the convener will send their vote message back to them for verification. Errors and corrections will be reported to the convener and the results modified as needed up to one week past the end of the voting.

3.5.6. A minimum quorum of at least one representative from 75% of the locals in the state must participate in any Council action for it to be valid.

3.5.7. Council proposals must be approved by 60% of representatives voting to be adopted. For ballot issues we are endorsing or opposing or stances we are taking on public issues a 75% vote is required.

3.6. Representation of GPCO at Other Organization's Meetings

3.6.1. Members of the GPCO may informally represent the GPCO at other organizations' meetings for the purposes of gathering information and exploring the possibilities for cooperation, without obtaining prior approval by the GPCO.

3.6.2. No one can represent the GPCO at other organizations' meetings for the purpose of making decisions that result in the commitment of GPCO resources or imply GPCO endorsement without prior approval of the GPCO Council or a state meeting of the GPCO.

3.7. The GPCO co-chairs, after conferring together, can make a "good until challenged appointment" of a volunteer for a vacancy to any of the following positions: coalition representative; meeting facilitator or council facilitator; meeting agenda collector; press relations director; representative to a GPUS committee, other than the GPUS-CC; web master; archivist; state phone line minder, or any other nondecision-making position, with the following stipulations:

1. Notice will be given to the online GPCO Council within five days of the appointment, with a resume of the volunteer's qualifications to fill that position;
2. The appointed representative will provide to the GPCO Council reports of work in their position at least every two months or at intervals specified in a description of their position;
3. The appointed representative will seek input from the GPCO Council related to their position at least every two months or at intervals specified in a description of their position;
4. The appointed representative will provide to the GPCO co-chair at least two weeks notice of their intent to resign their position.
5. If any GPCO Council representative challenges an appointment, the appointment will be withdrawn and submitted to the council for a yes or no vote.

6. An appointee to any of these positions shall have a sunset review of their appointment by the GPCO Council at every odd-year state meeting.

7. A GPCO co-chair can terminate an appointment at any time. Any such termination can be reconsidered by the Council.

3.7.1. The Archivist shall be responsible for maintaining paper copies of the archived historical records of the Green Party of Colorado in coordination with the Secretary.

3.7.1.1. Those records include: current GPCO Bylaws, Procedures & Guidelines, and Platform; minutes of all state meetings and nominating conventions; records of proposals that have been approved by the Council; copies of all reports made to the GPCO; copies of letters sent on behalf of the GPCO; copies of all reports filed with the Secretary of State and other government agencies; and any other documents designated by the Green Party of Colorado.

3.7.1.2. The Archivist shall be responsible for obtaining these documents, which can be compiled from emailed reports filed with the GPCO Council. These archives shall be passed from one Archivist to the next.

3.7.1.3. The Archivist shall make an annual report of their activities to the GPCO Council.

3.8. Determining the GPCO Presidential slate and Apportioning Delegates - The procedure to select a Presidential slate for the GPUS Nominating Convention will be determined by executing in order the steps contained in this section. 3.8.1. Procedure for selecting a Presidential slate.

3.8.1.1. At the State Meeting, nominations for Presidential candidates will be taken from the floor. Only delegates selected by their Locals may place a name in nomination. A nomination does not require a second. Choices like "no candidate", "uncommitted", etc. may also be nominated.

3.8.1.2. All nominations will be displayed.

3.8.1.3. When all nominations are in, the first round of voting will occur.

3.8.1.4. A round of voting is completed by executing the steps of 3.8.1.4 in order.

3.8.1.4.1. The facilitator will take a "sense of the convention" (a non-debatable, straw vote) that will determine if speeches will be allowed at this point. If allowed, each nominator will be permitted to speak on behalf of the nomination, and this will be followed by a period of discussion open only to delegates.

3.8.1.4.2. The facilitator will call for the vote. Delegates will publicly declare their choice.

3.8.1.4.3. The results of the ballot will be visibly posted.

3.8.1.4.4. Any candidate or choice getting less than the "threshold percentage" in votes is eliminated. The threshold is given by the formula "threshold percentage" = $(1 / \text{number of delegates allocated by the GPUS to the GPCO}) * 100$.

3.8.1.4.5. If no candidate or choice gets 60% of the votes cast, and two or less votes have been taken, another round of voting is required.

3.8.1.5. If no candidate or choice gets 60% of the votes cast and no candidate or choice is eliminated in the third and latter rounds of voting, the convention must vote (a non-debatable, procedural vote) after each round to have an additional round of voting.

3.8.1.6. Any subsequent rounds of voting will use the steps in 3.8.1.4.

3.8.1.7. When closure of voting occurs, the final vote results will become the GPCO Presidential slate.

3.8.2. Procedure for apportioning the Presidential slate delegates.

3.8.2.1. The final vote results will be converted to percentages of total votes cast and each of the surviving choices and candidates will have the appropriate percentage assigned to them.

3.8.2.2. The number of delegates assigned to a choice or candidate is given by the formula $ND = CAP * DC$, where: ND is the "Number of Delegates assigned to a choice or candidate" CAP is the "Candidate's assigned percentage", which is derived in 3.8.2.1 DC is the "Number of delegates and proxy votes in attendance at the nominating convention vote"

3.8.2.3. The "ND" will be rounded with any fraction less than .50 reduced to .0, and any fraction equal or greater than .50 increased to 1.0.

3.8.2.4. For all candidates and choices, the number of assigned delegates ("ND") will be totaled.

3.8.2.5. Any unaccounted for delegate will be assigned "uncommitted".

3.8.2.6. If the total number of assigned delegates exceeds the number allocated by the GPUS, each candidates' and choices' "ND" will be truncated with any fraction reduced to .0.

3.8.3. Delegation instructions at the GPUS Nominating Convention

3.8.3.1. When the delegates are chosen, their votes on the floor of the GPUS Nominating Convention will be assigned and bound through the first ballot for the Presidential Candidate of the GPUS with the exception of the uncommitted delegates. Only if a candidate withdraws his or her name from nomination will a delegate be released from binding early.

3.8.3.2. The number of delegates on the floor of the convention should be apportioned per 3.8.2.

3.8.3.3. A delegation coordinator will be chosen by the delegates, and will be responsible for these provisions.

3.8.3.4 On all subsequent ballots after the first, the delegates are released from any binding direction for voting.

3.8.4. The GPCO will support the nominated GPUS Presidential and Vice Presidential candidates. These candidates are placed on the General Election ballot by the GPUS.

3.8.5. The GPCO will select at the State Meeting the required number of Presidential electors for the Electoral College.

Appendix A. The Agreement-seeking Process

Roles:

*** Facilitator, Co-facilitator**

- People who see to it that the meeting goes well.
- Involved with, but do not control, planning, agenda.
- Main job is the actual running of the meeting.
- Serve at the will of the group, can be removed or replaced by 3/4 vote of the group.
- Generally do not present or argue for proposals, step aside temporarily if necessary to act as a participant.
- Co-facilitator supports current facilitator as needed.
- Swaps roles at appropriate times.

*** Minutetaker**

- Keeps a record of all decisions made during the meeting.
- Prepares and distributes to meeting participants soon after the meeting.
- May keep track of other information about the meeting as desired.
- Keeps track of items tabled or to be considered later.

*** Timekeeper**

- Keeps meeting on time

- Assists in gathering participants after breaks, keeps track of time expired on an agenda item, warns participant when time is almost up, informs facilitator when time expired.
- May be done by separate person or co-facilitator.
- Best if not an active participant in the meeting.

* Agenda Planner

- Keeps track of agenda items for next meeting or future meetings.
- Acts as focal point for agenda item gathering for next meeting.
- Works with Council and Facilitators in preparing agenda for a meeting.

Process:

Process Summary: Introduce a proposal, discuss and amend it, decide to do it or not by testing consensus, voting if necessary.

1. A proposal is presented, sponsored by one or more members. The initial proposal can be sketchy, to see if the group is interested. If group does not support the proposal, it goes no further. If it reaches the discussion stage, the proposal should be complete, with background, details of implementation, resources needed, schedule for implementation, etc. For simple proposals, of course not all of this is needed and it may be possible to do all three stages at one meeting.

1.1. For major proposals, the proposal goes through 3 stages. The first stage is to briefly introduce the proposal and see if there is support to continue, if not, it is dropped or the author(s) go back and redo to meet major objections. Only a few minutes is used at this stage to hear the proposal, get clarifying questions and test for support. At the next stage, people should be given a written version of the proposal and study it and come prepared to the next meeting to discuss it.

The second stage is to discuss the proposal in depth, and, if necessary, consider amendments to improve the proposal. "Friendly" amendments can be accepted by the author with no other action needed. "Unfriendly" amendments require a vote of the members to make the change. This process may take some time and multiple meetings for big proposals. When the discussion and amendments are finished, the facilitator then has the group make a decision. For important proposals, it may be best to have the decision made at the next meeting to make sure everyone has time to consider the discussion and changes fully.

2. The decision. When the members are ready, or when out of time, the facilitator restates the proposal as amended, and then asks if there are any BLOCKING concerns. Optionally, the facilitator can ask for all those in favor to show their hands, and then ask for blocks.

2.1. If there are (only voting members or delegates can block or stand-aside), people state their concerns, and then look for amendments or clarifications that would remove the block.

2.2. If there are then no blocks, ask for STAND-ASIDES, and record the names of those who wish to stand-aside. This means that the person doesn't object to other people carrying out the proposal, but won't take part in it. For instance, if it has to do with the planning of a meal with meat, and the person is strict vegetarian. If there are only a few stand-asides or none, the facilitator states that we have consensus, the proposal is agreed upon and we move on. If desired the facilitator can ask agree we have consensus to stand or raise a hand or indicate it in some other way to verify that consensus has been reached. This should not be necessary in a group that is experienced in the agreement-seeking process.

2.3. If blocks remain or there are too many stand-asides (more than one or two or 10% of a large group), and the item cannot be sent to committee for further work and later consideration or tabled, we then move to a vote on the issue.

2.4. At the beginning of a meeting, we need to know who the voting members are and what the total number is in order to determine the percentage of votes needed to pass. In larger groups its good to have a voting card to hold up when votes are taken.

2.5. The facilitator asks for those in favor of the proposal to hold up their hands (or cards) and has 2 other non-voting people (when possible) count the votes.

2.6. Same for those opposed

2.7. Same for those that wish to abstain.

2.8. The votes are recorded, and if the vote is at the right threshold (abstentions are not counted), the proposal is passed. For most items, the threshold is about 60%, but for some items it could be 75%.

2.9. The facilitator then announces the vote and whether the proposal passed or failed.

3.0. For some items, the next step is to determine how and when the proposal will be acted on. Who will do what, and how resources will be obtained.

We ratified new bylaws on November 20, 2016, which first changes our name officially to Denver Green Party, and which also drastically recalibrate our local party from a loose environmentally-focused group to a specifically anti-capitalist, anti-oppression electoral tactic of the grassroots agenda of the working class.

Title: **New Bylaws Ratified for the Denver Green Party**

Post by: **Andrea Mérida Cuéllar** on **November 20, 2016, 08:52:58 PM**

We ratified new bylaws on November 20, 2016, which first changes our name officially to Denver Green Party, and which also drastically recalibrate our local party from a loose environmentally-focused group to a specifically anti-capitalist, anti-oppression electoral tactic of the grassroots agenda of the working class.

A copy is posted below:

Bylaws

I. Name

1.1 The name of this local chapter of the Green Party of Colorado is The Denver Green Party.

II. Purpose and Values

2.1 The purpose of this organization is to work towards a Green society as represented by the Ten Key Values of the Green Party of the United States. These values are as follows:

1. Ecological Wisdom
2. Grassroots Democracy
3. Community Based Economics and Economic Justice
4. Social Justice and Equal Opportunity
5. Nonviolence
6. Decentralization
7. Respect for Diversity
8. Feminism and Gender Equality
9. Personal and Global Responsibility
10. Future Focus and Sustainability

2.2 The Denver Green Party's expression of the 7th and 8th Key Values, as well as of the Third Pillar of the Green Party (Social Justice) causes it to declare that we are an anti-oppression party, actively dedicated to the work of ending capitalism and dismantling white supremacy and heteropatriarchy. As such, expressions of sexism, racism, classism, ableism, homophobia, transphobia, and other oppressive behaviors are not in keeping with the values of this party.

2.2.1 Further, the Denver Green Party explicitly rejects the false ideas of reverse racism, misandry, etc., because we understand the role of white supremacy, heteropatriarchy, etc. in the oppression of our comrades of all colors, genders, and sexual orientations. While prejudice may exist against white people, against men, against cisgender people, against straight people (or any other privileged group), this prejudice is not oppression because there are no institutional power structures designed to disenfranchise these privileged groups.

2.3 The Denver Green Party may use various methods to affect social change, including but not restricted to: campaigning for electoral offices, petitioning for or supporting ballot

initiatives, generating public input, community organizing, demonstrations, cross-coalition collaborations, and educational campaigns and outreach. We recognize that in legitimate, legal instances of direct action, violence is typically initiated by the state, and in keeping with the 5th Key Value (Non-violence), self-defense may be necessary to avert grave injuries or fatalities.

2.3.1 In order to properly implement the methods described in 2.3, officers should also adhere to these values described in sections 2.2 and 2.2.1, and they should do everything within their capacity to help develop the consciousness of their membership, so as to create a welcoming, safe space in which to build collective power, with women, people of color, people with disabilities and the entire spectrum of the LGBTQIA+ community and the homeless.

2.3.2 The leadership of the Denver Green Party is also charged with working toward creating opportunities for solidarity with the white working class and all economically-oppressed communities so that mutual understanding and shared collective power can be built.

2.4 The Denver Green Party may develop a platform regarding issues of local, regional, national, or international concerns, as deemed appropriate by the membership. The Denver Green Party may also adopt the platform of the state or national party.

2.5 The Denver Green Party shall only endorse and promote those candidates who are registered Green in the state of Colorado, for non-partisan or partisan state, local and federal offices or those candidates for President of the United States nominated at the Green Party of the United States' presidential nominating convention.

III. Membership

3.1 To be a member of the Denver Green Party, one must be a registered voter of the Green Party of Colorado and reside in Denver County. Members of the Denver Green Party must also agree:

- to support the Ten Key Values and this party's interpretation thereof;
- must abide by the bylaws of the Denver Green Party and the Green Party of Colorado;
- agree to support/promote only the candidates nominated by this local, the Green Party of Colorado and the Green Party of the United States; and
- should generally agree with the local party platform and the state and national party platforms.

Members of the Denver Green Party must comport themselves in a way that represents the organization positively. Members meeting these criteria are considered members in good standing.

3.2 Membership shall be open to anyone regardless of race, gender expression, religion, national origin, sexual orientation, appearance, or physical ability.

3.3 Voting Members of the Denver Green Party are members of the Denver Green Party that have the ability to vote on this local's officers, its representatives to Green Party of Colorado Council, nominations for Green Party candidates running for an office relevant to Denver or Congressional District 1, official positions of the Denver Green Party, and a platform or platform items of the Denver Green Party.

3.4 To be eligible to be a Voting Member of the Denver Green Green Party, one must have been a member in good standing according to section 3.1 for at least 30 successive days and pay monthly dues of at least \$5 per month to the Denver Green Party. The dues requirement may be waived partially or entirely to those that are unable to pay, on a

case-by-case basis and communicated to an officer of the Denver Green Party.

3.4.1 Registered Greens who are not residents of Denver county may apply for membership if there is no Green Party of Colorado-recognized local in the county of their residence. They will be bound by all the requirements for membership and comportment, as well as granted all rights afforded voting members that are residents of Denver county. Such individuals may make their wishes known to an officer of the Denver Green Party, and their membership will be presented to the local for consensus/vote at the next available meeting.

3.5 Voting Members are considered inactive and will not be considered for the purposes of quorum if they have missed two (2) consecutive official votes. These members will be restored to active status after an affirmative vote by the voting members. Members that have not resided in Denver County area for a duration greater than 6 consecutive weeks will be considered inactive and not eligible to vote until their residency in Denver County has been restored. Exceptions can be made for those voting members who are facing a housing crisis as a result of the local economy.

3.6 The membership of an individual in the Denver Green Party may be revoked for failing to abide by the Ten Key Values as interpreted by this party, for disrupting the work of the Denver Green Party, or for acting in a way that represents the organization in an unfavorable manner. A vote of the Voting Members at a local meeting is required to revoke membership in the Denver Green Party. Any individual must be informed of the potential revocation of membership at least two weeks prior to the vote and have a chance to speak in their defense or prepare a written statement to be read at the meeting where the vote is held. The revoked membership of an individual in the Denver Green Green Party can be appealed and reversed by the Voting Members by vote at a local meeting.

3.7 Persons who do not meet the membership requirements of the Denver Green Party as stated in 3.1, 3.3, 3.4, and 3.5 may attend and participate in meetings, but they shall not have the ability to vote, block proposals, serve as officers or candidates of the Denver Green Green Party, serve as State Council representatives, national representatives, or portray themselves as representing the Denver Green Party.

IV. Structure

4.1 Meetings shall be called by the Co-chairs by notification of members to an extent as reasonably possible, at least one week if possible before the proposed meeting.

4.2 Decisions will be by consensus if possible or if not then by a simple majority, except as noted elsewhere. All officers as well as active Voting Members shall have the right to vote.

4.3 Decisions concerning policy, objectives, or creation or deletion of an office requires a consensus or a vote of a quorum of at least 75% of the Voting Members, or a vote by Voting Members at a local meeting.

4.4 Decisions may be made by email, using an email service that records whether members have opened the email. For votes made by consensus, a "no response" will be interpreted as consensus after opening the email has been recorded.

V. Officers

5.1 Officers shall include two Co-chairs, Secretary and Treasurer. These four will be chosen in odd number years at a designated meeting in either March or April.

5.1.1 Representatives to State and National Conventions will be chosen at a local meeting. In the event of a vacancy of an officer position, a Co-chair may fulfill the duties of the

vacant position or delegate another officer to do so until a new officer is elected.

5.1.2 It is the goal of the Denver Green Party to achieve gender diversity in the election of officers; therefore, individuals of any self-identified gender expression are encouraged to serve.

5.2 Members voting for officers must meet the requirements stated in sections 3.1, 3.3, and 3.4.

5.3 If a Denver Green Party officer's position is vacated in between official meetings, the other officers may make a temporary appointment to be affirmed by a vote of the Voting Members of the Denver Green Party.

5.4 Officers shall be elected by the Voting Members of the Denver Green Party. Voting Members of the Denver Green Party that are in good standing shall be eligible to run for an office of the Denver Green Party. The candidate with the greatest number of votes shall be elected to the office. Ranked-choice voting may be used to conduct these elections.

5.5 If any officer or State Council representative of the Denver Green Party is found to be in contempt of the goals or bylaws of the Denver Green Party or the Green Party of Colorado, recall proceedings may be initiated by any three Voting Members. A quorum of 75% of the Voting Members, or a two thirds vote of the Voting Members present at a local meeting where notice of the agenda for the meeting as an officer recall meeting has been announced for at least 14 days is required to achieve the recall of an officer.

5.6 Representatives of the Denver Green Party on the Green Party of Colorado State Council shall be chosen by a vote of the Voting Members by means of approval voting.

VI. Officer Duties

6.1 Co-chairs will set the initial agenda for meetings seeking input from members prior to the meeting, take action on expedient matters, and act as representatives to the press on local issues or delegate such duties. Co-chairs may form committees to handle specific tasks (such as a website committee.) and will be considered the spokespersons for the Denver Green Party.

6.2 The Treasurer shall have charge of the books of the Denver Green Party and account monthly for all moneys collected and disbursed, as well as file required financial reports at local, State and Federal level. Disbursement of funds should be approved at a regular meeting or, if time sensitive, by the officers' unanimous consent.

6.3 The Secretary is to maintain a list of the members in good standing, Voting Members, officers, and representatives to the Green Party of Colorado Council. In addition, the Secretary is responsible for taking and archiving meeting minutes. The Secretary will maintain a copy of the bylaws with any current amendments, forwarding the same to the Green Party of Colorado and any governmental unit requiring a copy, and maintain a list of those organizations requiring a copy. The Secretary will attempt to get minutes and/or bylaws to any member in good standing who requests them.

VII. Candidates

7.1 Any regular meeting may constitute itself as a vetting agent for the Denver Green Party, or the Voting Members may approve a vetting committee created by the Co-Chairs consisting of Denver Green Party members in good standing.

7.2 Voting Members will be responsible for nominating Green Party of Colorado candidates to run for local political office in partisan elections based on the principle of one person one

vote. An officer of the Denver Green Party shall forward those nominations for ratification to the state nominating convention.

7.3 Members voting for the nomination of a candidate must have been registered in the Green Party of Colorado for at least 30 days prior to voting and must meet the requirements stated in sections 3.1, 3.3, and 3.4.

7.4 Candidates nominated by the Denver Green Party must meet the following criteria:
A candidate should endorse the Ten Key Values as interpreted by this party and shall use these values as a basis for their political decision-making.
A candidate must be a registered elector of the Green Party of Colorado at least 60 days prior to seeking nomination and should comply with any eligibility requirements of the Green Party of Colorado. The party registration requirement of the Denver Green Party will take precedence.

VIII. Amendments

8.1 These bylaws may be amended by a two thirds vote of the Voting Members present at a local meeting where notice of the agenda for the meeting as a bylaw meeting has been announced for at least 14 days.

8.2 A copy of adopted bylaws will be maintained by the Secretary and Co-chairs.

Title: Proposal 001-17: Recognition of Longmont Green Party Post by: Andrea Mérida Cuéllar on February 11, 2017, 12:27:57 AM
--

This is Proposal 001-17: Recognition of Longmont Green Party

Please read the proposal and keep comments on the topic of the proposal only. This proposal is moderated, and the GPCO Code of Conduct will apply (located here: <http://gpco.fullydefiant.com/forum/index.php?topic=28.0>).

Designate your vote by using the following terms: **AGREE, BLOCK, or STAND ASIDE**. Any blocks will require a vote of the council.

Per Section 3.1 of the GPCO Bylaws, "A Green local must present its proposed bylaws for approval, and be approved by 60% of the voting Greens at a state party meeting, or by the state council."

There are currently eleven (11) active voting chapters in the Green Party of Colorado. Adoption of this proposal requires an AGREE of at least 60% of all votes cast and also requires a minimum quorum of at least one response from seven (7) chapters.

Active Chapters

Jefferson County
Adams County
Arapahoe County
Denver
Douglas County
Greater Boulder
Pikes Peak
Poudre Valley
Mesa
San Miguel
Platte Valley

The floor is now open for one week of Agreement Seeking, ending February 18, 2017 at 12 midnight.

1. Basic Info:

Date proposed: February 10, 2017

Name of the sponsors: Andrea Merida Cuellar and Dave Bell, co-chairs, Green Party of Colorado

2. Title: Recognition of Longmont Green Party

3. Text of the actual proposal:

The Green Party of Colorado recognizes the membership of the Longmont Green Party, as an affiliate.

4. Background: Members of the Longmont Green Party have been meeting, planning and

Evidence

Page 247

campaigning for more than a year now. They have met regularly, have canvassed for our federal candidates, have tabled at Longmont events and have interacted with other locals to more deeply understand the Green Party of Colorado. Additionally, one of their members, Veronique Bellamy, ran for RTD Board as a Green, though the position is non-partisan.

This chapter comports with all the requirements for affiliation, as set forth in the bylaws for the Green Party of Colorado, Section 3.1.

Their local bylaws, adopted February 9, 2016, are included in the References section, below.

5. Justification/Goals: The demographics of Longmont demonstrate a very young population, with more than 26 percent of its population aged 17 years old or less, as of 2016 data. Therefore, it is logical to conclude that the needs of potential members will have to include proximity to home and flexibility in meeting days and times.

6. Pros and Cons: No cons identified.

7. Alternatives to the proposal: Take no action.

Bylaws of the Longmont Green Party

1. Name

1.1. The name of this local chapter of the Green Party of Colorado is The Longmont Green Party.

2. Purpose and Values

2.1. The purpose of this organization is to work towards a Green society as represented by the Four Pillars (which are peace, ecology, social justice and democracy) and the Ten Key Values of the Green Party of the United States.

The Ten Key Values are as follows:

2.1.1. Grassroots Democracy

2.1.2. Social Justice And Equal Opportunity

2.1.3. Ecological Wisdom

2.1.4. Non-Violence

2.1.5. Decentralization

2.1.6. Community-Based Economics

2.1.7. Feminism And Gender Equity

2.1.8. Respect For Diversity

2.1.9. Personal And Global Responsibility

2.1.10. Future Focus And Sustainability

2.2. The Longmont Green Party's expression of the 7th and 8th Key Values, as well as of the Third Pillar of the Green Party (Social Justice) causes it to declare that we are an anti-oppression party, actively dedicated to the work of challenging white supremacy, cissexism and heteropatriarchy. As such, expressions of sexism, racism, classism, ableism, homophobia, transphobia, and other oppressive behaviors are not in keeping with the values of this party.

2.2.1. Further, the Longmont Green Party explicitly rejects the false ideas that are used to derail social justice movements, such as reverse racism and misandry. While prejudice may exist against white people, against men, against cisgender people, against heterosexual people (or any other privileged group), this prejudice is not oppression because there are no institutional power structures designed to disenfranchise these privileged groups.

2.3. In recognition of the issues that our existing corporate capitalist system present, the Longmont Green Party is dedicated to challenging the exploitation of labor, unsustainable means of consumption and production while encouraging and promoting businesses that are committed to social good (such as public benefit corporations) and/or that are owned by the employees/communities they serve (such as cooperatives).

2.4. The Longmont Green Party's expression of the 10 Key Values, as well as of the 4 Pillars of the Green Party, causes it to declare that global environmental destruction, which includes degradation to the climate, ecosystems, flora, fauna, land, water, and human cultures, constitutes an emergency that threatens our very survival. We understand that the practices of the federal, state and oftentimes, local, governments are largely responsible for environmental degradation. We declare to work to resist this destruction through governmental, and other non-violent direct means.

2.5. A purpose of the Longmont Green Party is to run candidates for public office that align with these values.

2.6. Another purpose of the Longmont Green Party is to educate the public on our vision of a Green society.

3. Membership

3.1. Membership in the Longmont Green Party is open to anyone regardless of race, gender expression or identity, religion, creed, national origin, sexual orientation, appearance, or physical ability.

3.2. To be a member of the Longmont Green Party, one must be a registered voter of the Green Party of Colorado for at least 30 successive days and reside in Longmont or a nearby city, community or unincorporated area (hereinafter referred to as "the Longmont area").

Members of the Longmont Green Party must also agree:

3.2.1. to support the Ten Key Values;

3.2.2. must abide by the bylaws of the Longmont Green Party and the Green Party of Colorado;

3.2.3. agree to support, promote and/or endorse only Green Party candidates nominated by this local, the Green Party of Colorado or the Green Party of the United States; and

3.2.4. should generally agree with the local party platform and the state and national party platforms.

3.2.5. that awareness of the issues under consideration by the chapter is vital to coming to consensus and continuing the business the chapter.

3.3. Voting Members of this chapter are members that have the ability to vote on this local's officers, its representatives to Green Party of Colorado Council, nominations for Green Party candidates running for an office relevant to the Longmont area, official positions of the Longmont Green Party, and a platform or platform items of the Longmont Green Party.

3.4. To be an eligible Voting Member of the Longmont Green Party, one must be a member according to section 3.2 and be either in attendance of three meetings in the last six months or engage regularly in official chapter communications in that time.

3.5. In order to strengthen our party, we encourage members to pay annual dues. We suggest \$25 in annual dues, but this can be modified or waived on a case by case basis.

4. Officers and Delegates

4.1. Officers shall include (a) Chairperson(s), Secretary and Treasurer. These officers will be chosen in odd number years at a designated meeting in February or, failing that, the soonest meeting where quorum could be established.

4.2. In the event of a vacancy of an officer position, a chairperson may fulfill the duties of the vacant position or delegate another officer to do so until a new officer is elected.

4.3. Our delegates (up to four) to the State Council will be elected by a quorum at a local meeting. These delegates shall be voting members.

4.4. It is the goal of the Longmont Green Party to achieve gender diversity in the election of officers and delegates.

4.5. Members voting for officers must meet the requirements stated in sections 3.2, 3.3, and 3.4.

4.6. If a Longmont Green Party officer's position is vacated in between official meetings, the other officers may make a temporary appointment to be affirmed by a vote of the voting members of the Longmont Green Party.

5. Officer duties

5.1. The Chairperson(s) will set the initial agenda for meetings seeking input from members prior to the meeting, take action on expedient matters, and act as representative(s) to the press on local issues or delegate such duties. 5.2. The Treasurer shall have charge of the books of the Longmont Green Party and account monthly for all moneys collected and disbursed, as well as file required financial reports at local, State and Federal level. Disbursement of funds should be approved at a regular meeting or, if time sensitive, by the officers' unanimous consent.

5.3. The Secretary is to maintain a list of the members, voting members, officers, and delegates to the Green Party of Colorado Council. In addition, the Secretary is responsible for taking and archiving meeting minutes. The Secretary will maintain a copy of the bylaws with any current amendments, forwarding the same to the Green Party of Colorado and any governmental unit requiring a copy, and maintain a list of those organizations requiring a copy. The Secretary will attempt to get minutes and/or bylaws to any member in good

standing who requests them.

6. Structure

6.1. Meetings shall be called by the Chairperson(s) by notification of members to an extent as reasonably possible, at least one week if possible before the proposed meeting.

6.2. To establish sufficient quorum, 75% of the voting members must be present.

6.3. Decisions will be by consensus if possible or if not then by a simple majority, except as noted elsewhere.

6.4. The agenda of each meeting shall be determined at least one week prior to the meeting. Agenda items shall be e-mailed to the Secretary or Chairperson(s) in advance so they can be incorporated into the agenda.

6.5. Proposals to the Colorado Green Party Council shall be voted on at regular meetings.

7. Candidates

7.1. Candidates nominated by the Longmont Green Party must meet the following criteria:

7.1.1. A candidate should endorse the Ten Key Values as interpreted by this party and shall use these values as a basis for their political decision-making.

7.1.2. A candidate must comply with any eligibility requirements of the Green Party of Colorado.

7.2. Any regular meeting may constitute itself as a vetting agent for the Longmont Green Party, or the voting members may approve a vetting committee created by the the Chairperson(s) consisting of Longmont Green Party voting members.

7.3. Voting members will be responsible for nominating Green Party of Colorado candidates to run for local political office in partisan elections. An officer of the Longmont Green Party shall forward those nominations for ratification to the state nominating convention.

7.4. Voting members will be responsible for endorsing candidates who are running in elections for local nonpartisan office.

7.5. The Longmont Green Party will coordinate with the Greater Boulder Greens and Platte Valley Greens in even-numbered years to make county-level nominations such as County Commissioners, District Attorney for the 20th Judicial District, etc.

8. Amendments

8.1. These bylaws may be amended by a two thirds vote of the voting members present at a local meeting where notice of the agenda for the meeting as a bylaw meeting has been announced for at least 14 days.

The Boulder Greens look forward to working closely with the Longmont chapter. Longmont is it's own entity and having a local chapter there will be a great asset to promote the Green Party in Boulder County.

Congratulations!

We need new chapters and it is great that one is forming in Longmont.

However, there are serious concerns with the bylaws that I believe need to be addressed. Paragraph 2.2 comes across as divisive and negative. It sets a racist tone against whites. The Green Party is about positive messages and unity. A much better approach is to be a positive and welcoming force, such as a statement in favor of equal opportunity, economic system reform, and unity. Using the latest controversial buzzwords seems, in addition, to inflame and divide. Paragraph 2.2.1 takes one opinion on a hot and contested topic in the Green Party and locks it into the bylaws. The result is to exclude anyone who disagrees. Another opinion is that this is also, and even more so, divisive, negative, and racist. The concept that only whites can be racist is a narrow view that is not commonly accepted. It insults, belittles, and excludes those whites who are not advantaged, who are struggling, and who do not hold positions of power. It is the opposite of developing unity. Attempts to redefine racism with the result of immunizing whole groups from being able to be labeled racist seem disingenuous.

Racism is basically racial prejudice or discrimination. Racism is defined (Meriam Webster) as "a belief that race is the primary determinant of human traits and capacities and that racial differences produce an inherent superiority of a particular race".

Prejudice (Meriam Webster) is: 1: : injury or damage resulting from some judgment or action of another in disregard of one's rights; especially : detriment to one's legal rights or claims. 2: a (1) : preconceived judgment or opinion (2) : an adverse opinion or leaning formed without just grounds or before sufficient knowledge; b : an instance of such judgment or opinion; c : an irrational attitude of hostility directed against an individual, a group, a race, or their supposed characteristics.

Evidence

Page 253

Racism and racial prejudice are neither forward nor reverse. They are feelings and/or actions that any person can have or take.

The bylaws are intended to set a framework of how the party will operate and be governed. Often they will include a statement of compliance with a parent group's (the National Green Party) values (such as the 10 Key Values). Locking in one opinion of a controversial topic within the Green Party does not belong in the bylaws. Should a chapter wish to make a statement on a topic, a better avenue is to issue a resolution stating the opinion and post it on their own webpage or in the forum.

Michael, please keep your commentary to AGREE or DISAGREE.

As an aside, Denver's bylaws are similar and were unanimously adopted recently.

Andrea, I challenge your ruling that commentary other than AGREE or DISAGREE is inappropriate for a proposal in agreement seeking on two counts:

1. The permissible positions, stated at the beginning of this proposal, are AGREE, STAND ASIDE, or BLOCK; not AGREE or DISAGREE.
2. This proposal is currently in agreement seeking. Discussion and possible amendments are part of the process. How could one ever hope to reach agreement on something without the possibility of discussion?

Please reconsider your ruling.

There is nothing to reconsider. The votes necessary here are already longstanding rules.

Please confine your commentary to the proposal to recognize, as others have already done.

It is a pleasure to welcome a new chapter to our State Party, and it is gratifying to bear witness to the growth of a movement I believe to be wholly integral to that most elusive of dreams, A Better Future. I believe it will serve us well to count among our allies a chapter in Longmont, Colorado, my hometown. As I'm sure many of you already know, Longmont is manifest proof that it lies within our power to better our society. Fewer than a hundred years ago the Ku Klux Klan marched down Main Street, and Longmont, that quiet wide spot in the road, boasted higher membership in that organization than most cities across the states once part of the Confederacy. That today we consider the incorporation of a group of people who could not be more opposed to such evil cannot be other than a boon to the spirit of this Party, and to the wider fellowship of people struggling to shed the nightmarish inheritance of our History, and to realize that which we know to be possible.

Evidence

Page 254

But given the choice before me, I must perforce second the opinion already expressed that included in this Chapter's bylaws are clauses that are inimical to our most cherished principles, viz

2.2.1. Further, the Longmont Green Party explicitly rejects the false ideas that are used to derail social justice movements, such as reverse racism and misandry. While prejudice may exist against white people, against men, against cisgender people, against heterosexual people (or any other privileged group), **this prejudice is not oppression because there are no institutional power structures designed to disenfranchise these privileged groups.**

"This prejudice". I was startled to read such frank admission of a dangerous conceit from members of a party that has for decades nurtured as its very heart all that is opposed to this. While it mightn't be possible to oppress members of society born into privilege because our society lacks institutions whereby to do so, does that fact render prejudice permissible? Is adopting the tactic of those segments society we count as enemies really in our best interest? This clause, born I think of an entirely justifiable anger, makes us all vulnerable to what ate at the hearts of the men who marched down my hometown's main street a hundred years ago, wearing white cloaks. Moreover, this clause is in direct violation of its parent clause, viz

2.2. The Longmont Green Party's expression of the 7th and 8th Key Values, as well as of the Third Pillar of the Green Party (Social Justice) causes it to declare that we are an anti-oppression party, actively dedicated to the work of challenging white supremacy, cissexism and heteropatriarchy. As such, **expressions of sexism, racism, classism, ableism, homophobia, transphobia, and other oppressive behaviors are not in keeping with the values of this party.**

I'm sure it will be pointed out to me that the operative word in clause 2.2 is "oppression" and that what I object to in clause 2.2.1 is made right in the absence of the power to oppress. I myself do not believe expressions of prejudice are ever permissible, and for that reason I must cast my vote as

STAND ASIDE

until such time as these grievances are addressed either by revision or I can be convinced of my misapprehension.

The point of agreement-seeking is to discuss and seek agreement. Only after agreement has been achieved is it time to vote. Without discussion all we have is take-it-or-leave-it.

Michael, please vote. The content of the bylaws is not up for discussion, as they are not asking for collaborative edits. They have already done that.

You have offered your opinion, so now please take one of the following votes: AGREE, DISAGREE, STAND ASIDE or BLOCK.

I'd like some clarification on 2.2 and 2.2.1

[/color] [/size]

[/color]2.2 begins with declaring that the chapter is anti-oppression and defines somewhat what that means.[/size]

[/color] [/size]

[/color]2.2.1 goes on to then define the difference between oppression and prejudice. However, there is no statement regarding whether prejudice is allowed, whether the chapter disagrees with prejudice, or if expressions of prejudice are permissible. Is this a Green Value? That prejudice is okay because it's not oppression? The wording does not explicitly say the chapter rejects prejudice[/size]

[/color][[/size]

I STAND ASIDE.

The leadership of the Longmont Green Party has graciously offered to discuss their stance on the anti-oppression language in their bylaws.

That discussion will be had here: <http://gpco.fullydefiant.com/forum/index.php?topic=318.0>

This thread will be closed within a couple days.

Thank you.
