Subject: Re: [Accreditation] Addendum to RGV Appeal for Intervention - Financial Irresponsibility

Ms. Lester would you please elaborate on what you mean by pitchforks and torches?

The previous members of the AC were very aware of our case and documents. I am not aware of what has or hasn't been posted on the AC list serve and I'm not sure I have access to it. Please consult Holly Hart and/or other members of the previous AC to familiarize yourself with this case.

Disruptors? Hardly. The Caucus to Restore Green Values to the Green Party of Colorado (GPCO) is a group of long-serving, dedicated Greens who have been involved in an extensive effort to remedy the actions of Andrea Merida to take over the GPCO by nefarious means to implement her agenda. These efforts have broad support among many Colorado Greens and a petition to have her removed from office has many cosigners.
