subject: violation of by-laws section, and more evidence

Hello, Holly,

Attached is the violation of by-laws section. It has citations at the end. I also have a version with citations interleaved, if readers would prefer that format. I will send the violation of Procedures and Guidelines sometime this weekend. Other sections will come early next week, I hope.

I am also attaching some evidence for the claim that Andrea voted as an alternate national delegate when she did not hold that office. The reason for including the file named "National Delegate board on GPCO Forum" is to show that there is a board on the Forum for national delegates to keep the Council informed, and before Andrea was appointed as a national delegate the delegates did post there. There are no posts after Andrea was appointed.

I have a folder with the 59 proposals on which Andrea voted in place of Larry Dunn. About half a dozen times her vote was to abstain, but that is a vote, as distinguished from not registering any vote on a proposal. These voting reports are copied from the GPUS web site, so you have the information in your database. I saved them separately so I could count them. If you would like the 59 files, I will send them.

There are two files named "Andrea is a retired delegate". They are different. The pptx file shows the situation several days ago, when Larry Dunn and Bob Kinsey were still listed as

the Colorado delegates and Andrea was listed as a retired delegate. The doc file shows the new situation, with Larry Dunn and Bob Kinsey listed as retired delegates. The names of our recently elected delegates are not yet listed.

Judy
