Thank you for your e-mail. I didn't see Darryl Moch on the recipients list so I am cc-ing him this just in case he hasn't seen it yet for his information.

Yours,

We agree to mediation with a mediator appointed by the Dispute Resolution Committee (DRC) with no pre-conditions by any party to the mediation.

We believe that most of the PRELIMINARY DETERMINATION is incorrect and biased toward Andrea's perspective. We trust that all of the issues in the CRGV complaint will be addressed in mediation and that mediation will result in a DRC final mediation report that is more accurate and balanced.

Although Jason Justice and Dave Bell should participate, they were primarily supporters of Andrea who also violated bylaws and some of the ten key values, whereas Andrea was the primary perpetrator of the violations in the complaint.
